Jeremiah and Samuel Henry and John

On Sunday last large congregations assembled at the Cambridge St. methodist church, to hear Conductor Snider. The evening service was of an impressive character, it being a sermon to railroad employes, which was listened to with rapt attention. On Monday evening Conductor Snider gave his celebrated lecture "Life on the rail and the people we meet." The lecture was instructive, interesting and amusing, and those who did not avail themselves of the opportunity of listening to one of the most spirited lectures ever given in Lindsay, missed a great treat. The visit of Conductor Snider will not soon be forgotten by the people of Lindsay.

Dr. Butler's Golden Pills have earned a great reputation wherever employed. As a nerve tonic and blood builder they are unrivalled. They increase the appetite and promote a healthy performance of all the functions of the body. A thoroughly scientific preparation, they never fail to effect a cure if directions are faithfully carried out. Nothing harmful in their composition. The most delicate system will be benefitted. Ask for Dr. Butler's Golden Pills and take no other.—49-ly.

"The Psychology of Crime" by Henry Wood is a notable feature of the October Arena, which also contains able contributions on religious. social, political and economic issues. The Arena fully maintains its position as the review which most clearly voices advanced thought and progressive ideas.

Miss Ethel Rickaby of Orono, was here during fair week visiting her uncle and aunt, Mr. and Mrs. Joseph Rickaby.

Itch, Mange and Scratones of every kind, on human or animals, cured in 30 minutes by Woolford's Sanitary Lotion. This never fails, Warranted by E. Gregory.—1854-ly.

Mr. Arthur Davey and Miss Davey of Clarke, were here for the agricultural fair, and stopped until Monday with their relative Mr. Joseph Rickaby.

JENNESS-MILLER'S SISTER.

THE FAMOUS LECTURER TO WOMEN SETS THEM AN EXAMPLE

"I recommended Paine's celery compound to a friend who dined with us yesterday, and women," says the New York Sun, "for thinking more about their personal charms than about their souls, but Miss Mabel Jenness feels it her duty to instruct them as to the best use of those charms in the attainment of a correct and elegant carriage," and by the proper artistic care of the body. In her view the soul expresses itself through the body, and action goes on between the two, with the result that physical grace has a morel value."

As Mrs. Jenness-Miller is known the world over for her ideas on dress reform, so her the star. Miss Masel Jenness, where there is a country, and it is in greater deward to day.

and action goes on between the two, with the result that physical grace has a moral value."

As Mrs. Jenness Miller is known the world over for her ideas on dress reform, so her sister, Miss Mapel Jenness, whose likeness is given above, is celebrated for her crusade for physical culture among the gentler sex.

Her system of physical training is attracting a great deal of attention." "She is herself a toolety girl, and yet finds time," says the Sun, "to practice her system, and in the midst of her multitudinous duties is never tired, never sick, doesn't know where her nerves are, and know the satranger to headaches." The reason is apporant in a letter written July 19, 1893, from Washington, D. C.

try Paine's celery compound at a time when I was suffering from over work and the effect of an accident. I began immediately to realize tonic and blood-nourishing effects. I take pleasure in saying that, although opposed to medicine in general, I really consider this an excellent preparation.

"I have not been able to take one day's

and this great remedy that makes people well is equally within the reach of all. It is for sale in every respectable drug store in the country, and it is in greater demand to-day than any remedy in the world.

It is the one true specific for diseases arising from a debilitated nervous system, probably the most remarkable remedy that the scientific research of this country has produced. Prof. Edward E. Phelps, M.D., LL.D., of Dartmouth college, first prescribed what is now known the world over as Paine's celery compound, a positive cure for dyspepsia, biliousness, liver complaint, neuralgia, rheumatism, and kidney troubles. For the latter Paine's celery compound has succeeded again and

The medical journals of the country have given more space in the last few years to the many remarkable cases where the use of Paine's celery compound has made people well than to any other one subject. Try it and find viges, health and new life.—7-1.
