

**THAT OLD PLAN**

Of putting off until next spring what should be done now doesn't pay. It is a losing game. In no way is this better proved than by the neglect of one's eyes. If you wish to retain to the fullest possible extent the advantages and enjoyment afforded by good sight heed the warning nature gives when first you find your sight failing. It is our business to remedy or relieve defective or waning vision when it can be done by any kind of glasses whatever. We are prepared to help you in any case of eye trouble in which the use of spectacles will be beneficial.

We make no charge for examination. Whether you need or buy glasses or not our services are given free.

**BRIGHTER PROSPECTS.**  
President Cleveland has in many respects proven himself a true statesman. The obnoxious Sherman Silver Act has been repealed, and a gold standard of currency once again established. It is generally conceded this will tend to greatly minimize the severe business and industrial depression so long oppressing the citizens of the neighboring republic.

While Canada has escaped much better than one would have supposed, and is today subject to less depression than any other land; yet Canadians do not rejoice in misfortune to others. It is our hope that our neighbors may soon recover from the terrible distress prevailing throughout their land. President Cleveland has done his duty to his country.

**RUSSIA AND FRANCE VS GREAT BRITAIN.**  
War rumors in Europe are again rife. This time it is in connection with designs on the part of Russia and France, with Spain probably thrown in, against Great Britain and her colonies single handed. Well, no one desires war, and it may not come. But the world owes her civilization to-day to the solid stern middle-class citizenship under responsible government of Great Britain. Russia is ruled by "divine right" a rather archaic form, while France, "La Belle France" is again at the other extreme and groans under the despotic tyranny of Parisian and other mobs.

Under such conditions—with the solid middle classes in both France and Russia excluded from proper influence in government, one need not be surprised should war break out against Great Britain. But while it is not counted, it is certainly not avoided; and the same spirit endorsing the same class of heroes has won for humanity the rights of freemen on every well-fought field will again crown civilization and right with victory.

**SUCCESS ATTENDS HON. MESSRS. WALLACE AND WOOD.**  
The Controllers of Customs and Inland Revenue are two young statesmen of whom Canada may well feel proud. During the past few months they have been conducting meetings with the farmers of Ontario, trying to ascertain what are the bottom facts regarding the superficial cries shrieked forth by interested political partisans.

Those two gentlemen have patiently heard all complaints; they have even listened to grit orators lecture; toleration and greatest latitude have been extended to the most pronounced crank. Yet, in return each has held right to hard pan fact and experience. As a consequence the spread-eagleism that permits a fellow to be a hero on politics when shooting off around a tavern or country store stove receives most humiliating downfall when brought face to face with downright truth and solid reason and fact.

The usual result follows. Many honest farmers, misled or thoughtlessly carried off by the persistent vapourings of the aforesaid bar-room politician, have effectively repudiated them. But now and again one finds the designing schemer still tangling in the toils. As might be expected from such men they become abusive when devoid of argument.

Hon. Messrs. Wallace and Wood should therefore feel complimented by the attention bestowed upon them by a few grit journals and weak critics generally. Those two gentlemen know that the advocates of all proper movements have never yet been free from calumny and abuse. May those worthy statesmen continue on in their good work. They are honored by all right thinking farmers and citizens generally. Their work will be appreciated in proper time.

**CANADA'S IRON INDUSTRIES.**

The government of Canada with a view to the best interests of the nation and the people generally have imposed duties on iron from foreign lands and have offered a bounty to pig iron produced in this country. Still, despite the abundance of iron ores and of both coal and wood for charcoal, the iron mines have not been developed as one would wish.

As there is a cause for everything one is impelled to inquire, why have not the iron ores of this land been utilized? Why has not more pig-iron been made in Canada? The answers seem plain. One, the iron industry the world over has been suffering from over production; but the chief cause to our mind why Canada has not produced enough pig-iron at least for her own home market is owing to scrap iron from every country on the face of the universe coming in free of duty. Old tin kettles, boilers, oyster cans, and other scrap, the refuse of creation is bought for a song and brought free of duty into Canada. This is made up into iron and steel and sold at about the price of good iron. Possibly our view is not correct, but it is all that can be found after most careful inquiry.

would be produced in sufficient quantities for the home market. Let Hon. Mr. Foster kindly give this important question his best consideration, and the solution will be easy. North Victoria has extensive tracts of iron ore, and it is our wish that it should be developed. The old scrap iron of Europe and the United States is of no service to this country. Tax it therefore, tax it; and let us have blast furnaces and smelting works in Canada.

**Three Hundred Drowned.**  
SAN FRANCISCO, Cal., Nov. 13.—The steamer China brings news of two severe calamities in Japan. One was a flood at Oita, in which 300 persons were drowned and over 2000 houses destroyed, and the other was the foundering of 44 fishing boats off the western coast during a typhoon and the loss of all their occupants, numbering 143 men.

**London, Nov. 13.**—The engagement is announced of Hon. Nellie Las Bass, the only child and heiress of Baron Burton of the brewing company of Bass & Co. of Burton-on-Trent, to Bruce Baillie, a Scotch landowner. Miss Bass was at one time engaged to marry Keith Fraser, and her father settled on her £200,000 as a marriage portion. The engagement was broken off a short time ago. It was then reported that Baron Burton desired that his daughter should marry a Duke. Upon the death of Baron Burton his daughter will inherit £8,000,000. The prospective bridegroom is a cousin of the Earl of Eglinton, the newly appointed Viceroy of India.

**OMENEE.**

special to The Warrier  
The health of the village is unusually good. CHANGES are already spoken for the village council as well as the township. It is rumored that our old veteran township clerk will resign, after 40 years unblemished services, for industry and activity and perseverance is a model example for all young men and there are many here as well as other should follow his example. The school concert last Friday evening was quite a success, a long and varied programme of songs and recitations. The chief attraction being the singing of Mr. Pettit of Lindsay and the excellent instrumental part performed by Mrs. Roberts, accompanist. The dialogue given by the Messrs. Thompson, Cormick and Gault, pupils of the high school, was one of the best efforts ever put forth here by amateurs. The order might have been better, and forgetting to close with the national anthem was unusual here.

There were a number went from here on Sabbath last to hear the escaped nun, Mrs. Sheppard, lecturer at Peterboro, and were greatly interested. **MARRIAGES.**—Miss English and Mr. Scarlett were united in marriage on Saturday evening last. The wedding was a quiet one and the happy couple left by the evening train for Cobourg. **FARMERS** are well on with their work and are busy bringing out their produce.

**Ode to the North.**

*Written for THE WARRIER.*  
Gull Lake! thy name but ill accords With scenes of beauty, such as thine; Beauty beyond the power of words, Which on thy placid bosom shine. I've visited the land of song Of chivalry and enterprise, Where flows the deep blue Rhine along, Whose haughty towers in "grandeur" rise. And I have seen the torrent dash From Alpine heights, to vales below; And heard the avalanches crash Their desolating fields of snow Down on the peaceful hamlet, where Reigned plenty one short hour ago. But thy calm waters, tho' they lack Those scenes, which check the pulses beat. And send the hearts warm current back. A more responsive feeling meet. In one, whose heart the world has tried And found its bright illusions vain To stem the flow of sorrow's tide, Or soothe the wounded spirits pain. Deep shadows in thee here reverse. The gleaming foliage brightest glow, As in thy winding course we pass Sequestered nooks; where lilies grow. Grand highway for our timber fleets, We greet the "Drivers" honored band Whose agile forms, a nation's boast The glory of their native land! Flow on! sweet river tho' thy name So ill records thy beautiful sweep, Time will unfold thy hidden fame. And modern skill, thy victories reap.

**"For Years,"**  
Says CARINE E. STORCHWELL, of Chesterseld, N. H. "I was afflicted with an extremely severe pain in the lower part of the chest. The feeling was as if a tea weight was laid on a spot the size of my hand. During the attacks, the perspiration would stand in drops on my face, and it was agony for me to make sufficient effort even to whisper. They came suddenly, at any hour of the day or night, lasting from thirty minutes to half a day, leaving as suddenly; but for several days after, I was quite prostrated and sore. Sometimes the attacks were almost daily, then less frequent. After about four years of this suffering, I was taken down with bilious typhoid fever, and when I began to recover, I had the worst attack of my old trouble I ever experienced. At the first of the fever, my mother gave me Ayer's Pills, my doctor recommending them as being better than anything he could prepare. I continued taking these Pills, and so great was the benefit derived that during nearly thirty years I have had but one attack of my former trouble, which yielded readily to the same remedy."
