OF INDUSTRY, 500 MAJORITY. EAST LAMBTON-McCallum, INDEPEN-DENT, 518 MAJORITY.

The two elections which took place on Sat-

held by them by large majorities, are the most aignificant political events which have taken place in Ontario for years. In North Bruce the farmers who had hitherto supported them went into epen revolt against Sir Oliver and his Government, and placed a candidate of their own in the field under the suspices of the Patrons of Industry, and although the Conservative Opposition placed a candidate in the field, they found it was hardly necessary for them to argue against the Government, as the Patrons did that work most effectually, demouncing the methods Mowat, Hardy & Co. in a fashion which might put an old-time Censervative to the blush; in fact, sary for them to argue against the Government, as the Patrons did that work most effectually, demouncing the methods Mowat, Hardy & Oo, in a fashion which might put an old-time Conservative to the blush; in fact, opponents of the Government were made to feel that the Patron was just as strong on the platform as the regular Opposition nemines, and hundreds of them gave him their support on that ground. As far as the Morney is a source of the gainst the Patrons, and no effort was spared to rally the faithful to their old allegiance, but all in vain, Messra, O'Connor, Davis and Dack, M. P. P.'s, stumped the riding, while four Grit Dominion members—this were also called in, and all were unaparing in their denunciation of the Patrons. But even this was not thought enough, and Sir Oliver himself, as well as Messra. Hardy and Dryden, was brought in to plead with the femion Falls, where he is now engaged in face to a strong of the femion Falls, where he is now engaged in femion falls, where he is now engaged in face to a strong of the femion Falls, where he is now engaged in face to clear of every the building and leave the beautiful called a certain through the belief in a deer hunt.

Our werthy farmers have once mere got through work. Plowing define compeled for this season. The grain the building and leave the beautiful called a fertil success is to an early completed for this season. The grain mearly completed for this season. The grain face of the Rev. Newton Hill of Linday, who can be season which his steamer and threshing place of the Rev. Newto

G. W. Ross and Harcourt were sent up to quell the revolt there, with so little success that the Mowat candidate was left 500 behind,—Empire

Special to The Warder A GRAND enterteinment was held in the resbyterian church last week. Tea was served in the school house by the ladies of the congregation. After all were satisfied an adurnment was made to the church where a leasant time was spent listening to speaches

ecitations and singing, all went home well pleased with their evening's enjoyment.

MEETING.—Dr. McKay M.P.P., for North Victoria, had a meeting in the school house last week; not more than two dozen of rate-payers attended besides the school boys. The doctor jabbered away for two hours, polishing were discharged in one week and had to seek a living in other parts. The doctor said they good will of this entire community and all got more money from the Yankees than the join in wishing for her an abundant sphere of Canadians would give. The sale of timber limits caused more distress in Ontario than ever was known before and the money was not put to make any improvement or to benefit the country in any way. I remember before the party of corruption was established in Toronto money was put to benefit the country in making roads and building bridges \$9000 in one contract was spent in making the Victoria Road, all paid by the Dominion government, D. Munro was the contractor. Few years after over \$20,000 was expended in two years through Muskoka and Parry Sound districts, all paid by the Dominion government.

This is only an item of all the money put out in other parts of the country; but now the wealth of the country is squandered and no benefit to the country, and the people are beginning to know it. The doctor has no chance in Victoria. He may stay at home.
