Or La Grippe, though occasionally epidemic, is always more or less prevalent. The best remedy for this complaint is Ayer's Cherry Pectoral. "Last Spring. I was taken down with La Grippe. At times I was completely prostrated, and so difficult was my breathing that my breast seemed as if confined in an iron cage. I procured a bottle of Ayer's Cherry Pectoral, and no sooner had I began taking it than relief followed. I confidnot believe that the effect would be so rapid and the cure so complete. It is truly a wonderful medicine."—W. H. WILLIAMS, Crook City, S. D.

Yankee Misrepresentation, The Montreal Gaussie of a recent date

The Montreal Gasette of a recent date contains the following:

A correspondent calls attention to a paragraph headed "Gasada's Own Fault" and ascribed to the New York Sun, which is going the rounds of the Yankee press. Our particular concern with the paragraph in question is that it bears as a second heading the words, "Canada is a second heading the words, but her Bellevue friends trust that her return as a visitor will not be too far distant. She carries with her the well wishes of all.

Sickers, "The grippe, or whatever it is, has had several of our citizens strongly under its aggressive influence during the part few weeks.

Your correspondent wishes all readers of The Warder, a very Merry Xmas and Happy New Year.

CANADA'S OWN FAULT. Canada is a poor country, -- Montreal

GAZETTE.

Its poverty is voluntary. It is the result of Canada's folly and conceit. Riches and power are within Canada's reach. The poverty of Canada would be exchanged for wealth by union with the United States. By this union Canada would obtain an ineritance worth tens of millions every year. If these Canadians choose te live in poverty, they should bear its ills without a grean and never ask for pity, never beg for favors, never try to get hold of the money earned by other people, never wear wry faces when they look acress the line.—New York Sun. GAZETTE.

Now to nail a few lines to the counter. Canada is not a poor country and the Gazette never said it was. Canadians do not wear wry faces when they look across the time. The wealth of the United States at this present is represented by a reduced exchequer and thousands of people out of work. Boston alone has 40,000 unemployed, and the Canadians who have been foolish enough to go there who have been foolish enough to go there in search of wealth are returning home by hundreds. Canada does not want the United States inheritance of national misgovernment and financial disorginization. Canada has never asked for pity from the United States and never begged for favors, Any advantage Canada has obtained from the United States has been apply a straight forward argument before won by straight forward argument before an independent tribunal or has come in the way of an ordinary commercial arranaement, in which the States granted

A word of advice even to the wise man of business will perhaps work a world of good. When the first symptoms of cough and throat difficulties appear, make use of Harvard bronchial syrup; the results will be wonderful and astonishing. As a rule two or three doses of this grand preparation are sufficient to banish any cough or cold.

Scores of our best business men always keep a bottle near them for cases of emergency. Twenty five cents invested for a bottle of Harvard brenchal syrup often saves days and weeks of suffering and trouble, —19-1.

D. Macdonell's views against prohibition.

"By—," said he, "this Macdonell gives these temperance cranks a — good crack," or words to that effect. Whilst the language used was fresh in mind we wrote Rev. Macdonell an account of the splendid endorsation and eulogy accorded him in this bar-room conversation.

Principal Grant assumes that the temperance people are bound to prohibit the importation, manufacture and sale of alcoholic liquors, but he should have added as a beverage. The temperance people wish to see liquor drinking as a social institution stopped. They want to make it a crime to sell a person liquor to drink as a beverage, and they want to make it a crime for a brewer or a distiller to make and sell spirits for this purpose. They do not want the importation, manufacture or sale stopped so long as it be for a useful purpose. It is known to the temperium of the spring or vital force having lost its tension against prohibition.
