SLEIGHING PARTIES seem to be all the go around town at present. On Wednesday evening of last week a number of young felks from town dreve out cast, and on the way home had the misfortune to turn "over", one of the young ladies receiving a slight mark. They all admit it would have been all "wright" if the driver had kept his seat. However, we understand there was only a small "fee" to pay when they arrived home. We would advise the driver to be more careful about his precious trusts next time.

Michigan, the enterprising firm that purchased about one hundred and thirty miles of limits in Haliburton last year are showing genuine Yankee dash and pluck. Not being successful in securing a satisfactory site for mills at Fenelon Falls, or in obtaining suitable transport arrangements from the railways, that firm have purchased an alligator steamer and will place it on these waters in the spring to tow rafts from lake to lake. It is fitted up with an eight thousand candle is fitted up with an eight thousand candle power electric light, for use at night along the waters. Double gangs of men will be constantly employed to push the logs to the bay of Quinte, where they will be towed to Oswego. The two sons both energetic members of the firm, are now in north Victoria, completing arrangements for the spring and summer. While it is gratifying to see such large employment of labour in these districts, yet how much more would it be to see the lumber, shingles, lath and millwood sawn here also! Such manufacture would give employment to very many men in the mills, and would furnish one clear train daily to the railway at least. That would mean a large increase in the

Mrs. C. J. WOOLDRIDGE, of Wortham, Texas, saved the life of her child by the use of Ayer's Cherry Pectoral.

"One of my children had Croup. The case was attended by our physician, and was supposed to be well under control. One night I was startled by the child's hard breathing, and on going to it found it strangling. It had nearly ceased to breathe, Realizing that the child's alarming condition had become possible in spite of the medicines given, I reasoned that such remedies would be of no avail. Having part of a bottle of Ayer's Cherry Pectoral in the house, I gave the child three doses. It short intervals, and anxiously waited remarks. From the moment the Pectoral was given.

Serious Accident in Fenelon.—On Tuesday afternoon while Meesrs Ernest and Woren, sons of Walter Snelling of Islay were sawing logs in the swamp. Ernest had his foot badly crashed and the leg badly broken above the ankle. The tree lay some distance above the ground, and in sawing, Ernest had his right leg braced forward and under. The saw cut through and the log dropped more quickly than expected, resulting in the serious accident. Woren a young man under 20 years rolled off from his brother the heavy log which was about 2 feet thick and twenty long. He then drew off his brother's boot, straightened the foot and leg and bandaged them up. Leaving the injured brother as SERIOUS ACCIDENT IN FENELON. - On
