SCROFULA B.B.B.

Worst Kind of Scrofula. Worst Kind of Scrofula.

Dean Sirs.—I had an abscess on my breast and scrofula of the very worst kind, the doctors said. I got so weak that I could not walk around the house without taking hold of chairs to support me. The doctors treated me for three years, and at last said there was no hope for me. I asked if I might take B.B.B. and they said it would do me no harm, so I began to take it, and before three bottles were used I felt great benefit. I have now taken six bottles and am nearly well. I find Burdock Blood Bitters a grand blood purifier and very good for children as a spring medicine.

FRIDAY, APRIL 27, 1894.

LITTLE BRITAIN.

Mr. Owen Yearsley will reopen the Little Britain cheese factory, on Monday May 7th. A large run is expected, and the look out for cheese this year is good.

The farmers are not seen around the welfare and growth should give this wonderful village much of late; we expect they are food a week's trial. rushing their spring work.

SONYA.

Special to The Warder. A VERY enjoyable time was spent in the school room of St. Andrew's church, Sonya, on Wednesday evening of last week. The Rev. T. I. Garbutt, of Little Britain, delighted the audience by exhibiting a number of his collection of original character paintings, and commenting upon them in his usual pleasing manner. It is needless to say that all enjoyed themselves, and felt that they had received important moral and spiritual lessons as well as entertainment. Rev. Mr. Mc. Leod presided, and at the close cordial thanks were extended the reverend gentleman for the pleasure and instruction he had given. A respectable amount was realized and added to the funds of the Ladies' Aid society, under whose

auspices the meeting was held.

PRESBYTERY OF LINDSAY. — At Uxbridge, 17th April, the presbytery of Lindsay met and was constituted. Present, Ministers Campbell, moderator; Hanna, McAulay, McLeod, D. D. Mo-Donald, Bethune and H. Currie; and elders Forrest, Leask, Smith, Jackson, Cameron and Urquhart. Minutes of last regular meeting at Cannington, and of the pro re nata at Gundelaro were read and sustained. Mr. W. G. Hanna read correspondence relating to the transfer-ence of the mission field of Haliburton and Minden from the presbytery of Peterborough and submitted the tollowing resolution which was carried ;- "That we accept of the offer of the Peterborough prosbytery rethe transference of Minden and Haliburton." In the absence of Mr. Ron, convener of the committee appointed to draft a scheme to provide for the payment of the expenses of commissioners to the General Assembly; the matter was laid over to a future meeting. Mr. H. Currie presented a new scheme for presbyterial visitation, which was received and laid over to be more fully considered at next regular meeting. Rev. A. McAuley was appointed commissioner to the General Assembly in place of P. A. McLeed, who resigned owing to inability to be present. The following appointments were made for the induction of Mr. Mc Kay at Sunderland, on Tuesday the first day of May, at 2 30 p.m., the moderator to preside; Mr. Bethune to preach; Mr. Currie to address the people, and Mr. Ross the minister. Mr. Hanna gave a report on home missions to the effect that the home mission committee had allowed the home mission committee had allowed the claims and grants applied for by the presbytery. Mr. J. S. Stewart was reappointed ordsined missionary at Coboconk and Kinmouat; Mr. J. D. Smith to Sebright and Uphill, in place of Mr. Mullan who has resigned. Reports of standing committees were presented and adopted and ordered to be forwarded to the several syncologic conveners. adopted and ordered to be forwarded to the several synodical conveners. Mr. A. McAulay read the report on the "State of Religion"; D. D. McDonald on "Systematic Beneficence"; P. A. McLeod on "Sabbath schools" and "Temperance" D. Y. Ross, (read by Mr. Hanna). Adjourned to meet at Sunderland, May 1st, 11 a.m. P. A. McLeod, presbytery clerk. Sonya, 18th April 1894.

for not at ones, without a moment's de-lay or inquiry, should set about the work of tariff revision.

This may be seen in his resolution that he presented to the House during last session. This year Mr. McGarthy did not move a resolution, but he made a long speech. Our readers will be sur-prised to know that he, in that speech condemned the government for touching condemned the government for touching the tariff before the people of the country had had an opportunity of voting upon the question at a general election. He offered no explanation whatever as to his change of opinion; indeed, he had no explanation to offer. His desire was under any and every circumstance to find fault with the narty in power, and it find fault with the party in power, and it didn't make any difference to him whether he made himself ridiculous or not. Since Mr. McCarthy joined the grit party he has travelled a tortuous road.

Political Notes.

The Hamilton Times, a most determined opponent of the Conservative party, felt compelled to admit on the day following the delivery of the Budget that the promises of the government had been carried out therein.

The French budget shows a deficit of 83,000,000 francs. That of England next year will be £4,000,000. That of the United States the present year will be about \$70,000,000. Canada is about the only country of any importance on deck just

had a small surplus of revenue over expenditure. This speaks volumes for the economy of the government, as well as the prosperity and spending powers of He never listened to a phonograph. He the people.

According to the new tariff there is no duty on tea and coffee, and next to nothing upon any kind of sugar, while up to and including Dutch Standard No. 16, it is absolutely free. Do the farmers think what they and other consumers would have had to pay on their present consumption of these articles if Sir Richard's tariff were still in force? They would tariff were still in force? have to pay each year the enormous sum of nine million dollars, or nearly two dollars per head of the entire population.

are suffering from various ailments, owing to poor nourishment and improper teeding. Sir Charles Clark once said: "The ignorance of mothers in feeding their children is worth a thousand pounds to me."

It is a fact worthy of special notice that the healthy, bright and fat babies of to-day are all being brought up and nourished on Lactated Food. No other form of artificial food on the same transition is the companion.

It is reported that a prominent Liberal politician, who sits tor an Ontario constituency was met by a friend the other night after the delivery of the Budget speech. The friend said—"Well! what do you think of the tariff?" "The tories have done us again," was the reply. politician, who sits for an Ontario con-stituency was met by a friend the other

The prevailing idea among the liberal party is that free trade would be a great boon to our farmers. No better answer can be given as to how agriculturists fare After several doctors had treated him in free trade England than Mr. Gladstone. Recently describing the condition of the British farmer he said: "We have cured him. Dodd's was the first kidney cured him. in many parts of the country not only a stationary but a decreasing rural population. There are no just sacrifices that ought not to be encountered in order to stop the process which leaves the rural laborer in a condition where he can hard ly hope to keep his wife and children even with an insufficient supply of the necessaries.

In the course of his speech upon the budget on the 11th inst., Mr. McCarthy made the statement that in his opinion Canada could never become anything but a purely agricultural country. Of course such a declaration was greeted with applause by the opposition. It certainly would be in order for some of those who entertain this faith to explain what benefit would follow to Canada by giving Esq., J.P., on Monday last, when the fit would follow to Canada by giving defendants were fixed \$10 and costs and practical effect to an idea that would wipe out of existence \$100,000,000 of invested capital and turn thousands of Canadian workmen out of employment. All these men have mouths to fill and so have their families.

In the new tariff the specific duties absolutely necessary. The Minister of Finance, in announcing that fact, said that the government were anxious that by no possibility should the tariff system be made to bear heavily upon the poorer classes of consumers who buy the cheaper goods, and consequently would be affected most by those duties. When the Liberal party were in power, and they had a specific duty of five cents a pound on black tea and six cents on green tea, Mr. Burpee, the Minister of Customs, said:—
"Yes, it is a good deal heavier on the poor people propositionately, but it will

American Tug Seized.

Port Colborne, Ont., April 22.-The Canadian Government fishery inspectors' tug Dolphin captured the Dunkirk tug Grace yesterday and brought it into port, where it was tied up by order of Fishery Inspector Kerr. It is claimed the boat was operating in Canadian waters. The raid was made about 10 miles from Port

The tug is now in charge of custom officials. Capt. Helemig claims he was not aware that he was in Canadian waters, and at the approach of the Canadian government vessel ran up to her, thinking it was some other fishing tug stealing their fish.

The 25,000 persons who paid 10 cents each to kiss the stone in Blarney Castle on the Midway Plaisance, World's Fair, will no doubt be amused when informed that the rock was not brought from Ireland at all, but was simply a piece of lime stone taken from one of the streets of Chicago. This fact has been unearthed by treasury officials in checking up the return customs duty on Countess Aberdeen's Irish village.
