"Here at last is information from a high medical source that must work wonders with this generation of men."

The book fully describes a method by which to attain full vigor and manly power.

A method by which to end all unnatural drains on the system.

drains on the system.

To cure nervousness, lack of self-control despondency, etc.
To exchange a jaded and worn nature for one of brightness, buoyanny and power.
To cure torever effects of excesses, overwork, worry, etc.
To give full strength, development and tone to every portion and organ of the body.
Age no barrier. Failure impossible. 2,000 references.

The book is purely medical and scientific, useless to curiosity seekers, invaluable to men only who need it. A despairing man, who had applied to us,

on after wrote:
"Well, I tell you that first day is one I'll never forget. I just bubbled with joy. I wanted to hug everybody and tell them my old self had died yesterday and my new self was born to-day. Why didn't you tell me when I first wrote that I would find it this

Wanted Protection.

The populist cry in the United States, like the platform of the patrons of industry in Canada, was that they wanted a way?"

And another thus:

"If you dumped a cartload of gold at my feet it would not bring such gladness into my life as your method has done."

Write to the Erie Medical Company with the little book called "Complete Manhood." Refer to this paper, and the company promises to send the book, in sealed envelope, without any marks, and entirely free, until it is well introduced.
