THE MONITOR stands upon a solid platform.
The new improved monitor drills and cultivators for 1895 are built upon the only correct principles. They run lighter than any in the market. They are the lightest that were ever constructed. They lead all other combined drills in all the latest essential improvements. other combined drills in all the latest essential improvements. They have the best feed run, the best grain distributor, the best cultivator in the world. They will work better in all conditions of the soil than any other combined machine invented. They are stronger and more durable than any combined drill in the markot. The Monitor is the best and latest improved all steel cultivator in the world. They are stronger and more durable world. They are stronger and more durable world. They are stronger and more durable than any cultivator on earth. Any farmer wanting a combined drill, sectional seeder, or cultivator, will make a mistake in buying any other than a Monitor. We solicit your orders at the factory or through our agents, D. M.
