Smallpox Among Horses.

Large numbers of horses in Halifax are suffering from a disease which attacks them principally under the fetlock, somewhat similar to ordinary scratches or greased heel, and is followed by an oily. greasy substance, which comes from all parts affected. Some horses have the disease in the mouth, and elsewhere. Mr. Jakeman, government veterinarian, describes the disease as variola equina, or Greys in front-and face the erormous the disease was very prevalent in Montreal said a word, but there was a long murmur in 1878. The disease is atmospheric and like a great sigh. The Russian cayalry, and in many cases blood poisoning sets the centre bulging in and the flanks in. Dr. Jakeman says that from a light craning slightly forwards. Then they have that arm amputated. Attack on Protestants.

WINNIPEG, Ma .. March 19.-Rev. Father Gulliard, chief of the oblates of the United States, who is here from Lowell, to attend the acceseration of ar abbishop Langavin, created something of a sensation on Sunday night by bitter ly assailing protestantism. His theme was St. Patrick, and he said the. St. Patrick's empire was like a va- see, whose branches spread over most of the world. E :ccerdiag, it was orumbling into infi lelity. He would tell his congregation, for he was not afraid, and had a habit of putting what he thought into words, that within fifty years profestantien would have practiea'ly disappeared and there would be only two choices for the people, infidelity or the ostholic church. English protesta: tism had originated, owing to the adultery and just of one of the most con temptable men who ever lived-"that beastly Old Harry of E gland. This was all a matter of history and could not be disputed, because the pope would not ! grant a bill of diverce to the English king without just cause being shown, the pro testant church was organ zed. Then the poor catholics were persecuted, even up to the present day; for was not England oppressing Ireland to-day."

of the large American shows of life in the wild west while visiting London were much interested in the sights to be seen in the London streets. Day after day they would walk up and down the most crowded streets and gaze on the people and into the shop windows like a pair of children at the circus. One day they stopped before the shop window of a wig-maker and stared at the many varieties of wigs on exhibition there until their eyes mearly fell out. Finally one of them nudged the other, and with a shake of his head remarked, "Ugh! mighty brave man! Big fighter; much scalp!"

Are Their Wells Failing?

The price of American crude petroleum has been racing upwards the last-few days at an extraordinary rate. A week ago Saturday May options sold as low as \$1.14 1 2 a barrel. On Saturday last there were transactions at \$2, and the market closed at \$1.99. Thus in the short space of one week the price made the astonishing gross gain of 85 1 2 cents, which is almost exactly 75 per cent of its former value. As a consequence of this a fresh advance of 50 cents a barrel has been made in the price of the refined article by the Standard Oil Company. Even before Satur-day's sensational rise of 31 points Canadian consumers had learnt of the strength of the market through a cent a gallon added to the price of American refined. As the market fer crude is likely to advance still further, so, we may guess, will the price of American refined. Crude had been stealing up some time before it made the succession of jumps that carried it so fast and far last week. It was down as low as 66 cents in January. In **RIDAY. APRIL 19, 1895

Archdescon Sinelair, of London, presching in Edunburgh lately, complimented Scotlard on her holding of tamily prayers, and expressed the wish that the practice would spread in England.
