BRAULES'

Spesia to The Warder DENIAL. - The note of so-called correction which appeared in Royal Oak correspondence last week was a mass of vile misrepresentation from beginning to end. The first report of the game was written by a "spectator" and really a partial account in favor of Royal Oak was given. The record which the Braules' boys have won at playing foot-ball which appeared in the first report speaks for itself; while those who witnessed the game and have read the Braules' report and the so-called correction-will most certainly give the R.O. team and correspondent, not only a high record in cowardly actions but also in misrepresentation. It is needless to say more as those most interested in the game understand thoroughly and vouch for the fairness of the first account given by Braules'.

BOWMANVILLE.

About 6 30 Monday evening the Statesman newspaper office was discovered to be on fire, and although the alarm was sounded quickly, before the firemen could get a stream playing on it the whole interior was a mass of fismes, which burst out of the front windows and spread to Mr. Quick's block on the east, the en the east would be wiped out, as there was quite a high wind blowing at the time, but as soon as the fire company got a stream playing it had good effect, and the fiames were confined to the Statesman office, which was a three-storey building. For three hours the firemen fought steadily, but finally got it under control. Mr. James' loss will be heavy as, besides the plant of the Statesman, he had the plant of the Snn, purchased from the estate of the late W. R. Climis. He carried an insurance of \$1.500 in the Northern and an insurance of \$1,500 in the Northern and \$1,500 in the Western. The building, which belonged to the Simpson estate, is badly wrecked, but the loss will be partly covered by insurance. The origin of the fire is a mystery, as the office had only been closed about fifteen minutes, when everything seemed to be

Gold Uure.

Toronto, Jan'y. 24th, 1895. DEAR SIR,—As you wish to know from me how I feel after being cured for nearly three years of alcoholism, will say in the first place I drank liquor for over thirty years and during the latter part of that time I had several severe attacks of delirium tremens. I went to your Sanitarium a skeptic, asked to go there by my wife (God bless her, if it had not been for her I should have either been in my grave or in a lunatic asylum to day. When I grave or in a lunatic asylum to-day. When I went there I weighed 123 pounds and to-day I weigh 194—so much for your Double Chloride of Gold Cure at Oakville. I had lost all hope of ever being cured and told my wife when she asked me to go that there was no use as I thought they might gure some people but my case was far different from all others—just what I find other people say who go there—they think they are worse than everybody else. My health has wonderfully improved and I feel to-day, at the age of 51 years as young as when I was 25. My business is that of a traveller and I find that now I can stand more fatigue running on night rest is that of a traveller and I find that now I can stand more fatigue running on night train than I could 25 years ago, using alcohol. I cannot speak too highly of the treatment as it has been to me what I consider not only the saying of my life but making all my family as well as those who know me, happy to see me in the position I am to-day. I had gone so far with liquor that I could not get a situation upon the road from any house in Canada and when I came from your institute I was obliged to go to the United States, where they knew something of the Gold Cure, to get a situation which I readily got even when they knew that I had been through the treatment and to-day, instead of being in a mosition that no one would employ me. I know of several places I could go to work at a good salary. I can truthfully say that I have never seen one second oftime since the third day I was in the institute that I have ever wanted a drink of liquor and the thought of it is as disgusting to me now as when I left there, and I can positively say that I have lost all idea or conception of the taste of liquor. After being cured nearly three years, I can say to all those afflicted with the disease of alcoholism, go there—do not wait, but take the first train for Oakville where you can be put upon your feet again as you were before the first train for Oakville where you can be put upon your feet again as you were before you commenced to drink, not knowing the taste of liquor. Wishing you and your institute every prosperity, I remain, Yours
