FRESHENING WOMEN.—Last week's issue of the Canada Presbyterian was noteworthy owing to increase of size and the special interest and value of the contents. It contained a complete report of the annual meeting of the woman's foreign missionary society, extending to fourteen columns. Every member of this important society should have a copy. Other useful features are the christian endeavor department, by Rev. W. S. McTavish, B.D., St. George; the Sabbath school lesson, by Rev. W. A. J. Martin, of Toronto; and letters from missionaries in the jungle fields. "Sundays in Scotland" is a bright description of several ministers and churches in the motherland of so many Canadians. All the regular departments are unusually full. The publishers offer a trial subscription list last January next for one dollar.

They are the best protection to the head, besides giving a refined and youthful expression to the face. Call and examine these marvels of his art and have them fitted in order to judge of the effect. It is not the intention of the supply committee to make any arrangements as to hearing ministers delivering trial sermons. It is considered preferable to extend a call, after enquiries being made as to suitability, than to open the pulpit to candidates.

DRESSMAKING.—Miss Shouldice is prepared to do dressmaking and all kinds of plain sewing, out by the day, or take it in. No. 37, Adelaide street, west.—37-11.

THE FOOD QUESTION.—Tripe and sausage and liver are good, but a trifling, of course, has the call; so circulars, posters and all of that kind. May furnish a business with some sort of food. But a newspaper beats them all.

BICYCLE WANTED.—A good second-hand wheel. Must be in good condition and cheap. Apply WARDER OFFICE, or 73 Durham-st. west.

QUICK WORK.—On February 27th the office and entire plant of the Folding Sawing Machine company of Chicago was destroyed in the great fire on the west side, which involved a large number of manufacturing interests of \$750,000. Notwithstanding the fact that it was necessary for the above mentioned company to have malleable castings made, which usually takes about four weeks, this company, with commendable enterprise, shipped the castings as they were able to fill the order just 21 days from the date of the fire. This was certainly quick work, and the gentlemen connected with this company deserve a great deal of credit for their energy and push. Their new address is Folding Sawing Machine company, 64 and 66 St. Kieran St., Chicago.

ELECTION.—We understand the present mayor and aldermen will be re-elected by a splitt, curbs, swears, stifles and sprains. George Robb, Farmer, Markham, Ont. Sold by E. Gregory, Lindsay.—65-11.

The business meeting will be held in the same church the following evening at 7 o'clock. This is the meeting for closing up the business of the year.

ODD-YELLOWISH.—The seventy-sixth anniversary of the introduction of the electricity into the city was celebrated last Sunday in several cities and towns in Ontario, by the members attending divine service in a body. Lindsay lodge No. 100, attended Cambridge street Methodist church, where Rev. Mr. Sherry delivered an appropriate sermon from the text: "We then that are strong ought to bear the infirmities of the weak, and not to please ourselves." Romans 15th chapter, 1st verse. The discourse was an able exposition of the text and was listened to with marked attention by those who were present.

ANOTHER ADDITION.—The Geo. Matthews Co. (Ltd.) are this week building a new power house at their works on George-st. This new addition will contain a new 80 h. p. boiler, manufactured specially for them by the Wm. Hamilton manufacturing company. The Geo. Matthews company have also completed their large establishment in Hall, P.Q., and the new plant was put in operation last week. The Hall branch is the largest of the company's power houses, and working at full capacity. With their splendidly equipped factories in Peterborough, Lindsay, Ottawa and Hall this company is now probably the largest of its kind in Canada.—Peterborough Review.

GRAND TRUNK CHANGES.—The long talked of changes in the management of the Grand Trunk railway are about to be consummated. At a meeting of the shareholders in London, England, on Tuesday, Sir Henry Tyler and the board of directors tendered their resignations. An adjournment was made for one week when a new board of directors will be appointed. One outcome of the change of directors it is expected the management will be changed from London, England, to Montreal, a change which will be for the better. A board of management meeting in Montreal will look better the requirements of the road than one meeting in London.

PRIVATE BOARDING.—In a good locality, corner William and Peel streets. Apply to Mrs. Geo. S. Thompson.—57-11.

DEED.—Our South Victoria member Chas. Fairbairn, Esq., was called for his parliamentary duties at Ottawa, last Saturday, by the death of his mother, Mrs. Eliza Ann Fairbairn. The deceased lady was 82 years of age. Her parents were among the first settlers in the township of Smith, in fact when they came up the Ottawa river from Rice Lake, for the first time, there were but three shanties on the present site of the town of Fairbairn. The deceased lady was the widow of the first child born in Port Hope, and her demise removes one of the earliest links of the middle district with the pioneer forest. All the family gathered at the old homestead on Sunday and attended the funeral when the deceased lady was laid in the Lakeshore cemetery beside her husband, Mr. Andrew Fairbairn, who had preceded her to the great unknown.—Boboyagon Independent.

The following additional particulars are taken from the Peterboro Review:—The death of Eliza Ann Fairbairn, widow of the late Andrew Fairbairn, of 29, Oct. 9, of Smith, took place on Friday, 19th April, at the family homestead. The deceased was 83 years of age. She was born at Port Hope in the year 1811; was married to the late Andrew Fairbairn on Feb. 13th, 1833. To this union there were born 11 children, 7 sons and 4 daughters. Of these 8 are living and 3 married. There are living 45 grand children, 23 sons and 21 daughters. There are also living 29 great-grandchildren. She was also the mother of 12 nephews and 12 nieces. Thus this venerable lady leaves behind her 30 direct descendants—one, almost, for every year of her life. She was a faithful member of the Presbyterian church, has lived on the same farm for over 50 years and passed peacefully away at a ripe old age, surrounded by peace and honor. The pall-bearers at her funeral were her four sons and two grand sons—Chas. Fairbairn, M. P., Victoria; John Fairbairn, Smith; Andrew Fairbairn, the homestead, Smith; Alex. Fairbairn, Smith; and Willie Paine, Verulam. The funeral was a large one, the remains being followed by about one hundred vehicles. The service was conducted by Rev. A. O. Brown and was very impressive. So close the life of one who was always ready to help the needy.

MORE SCARED THAN HURT.—As four of the boys were having a quiet game of pedro on Wednesday evening for fun, they were surprised by an unexpected and unexpected quiet game of pedro, which lasted for a few minutes. Some one who was dearly loved a good job, dropped them with a copious supply of water from a large syringe or squirt gun, a broken light of glass in the window favored the proceeding. It is said the first thought was that a water main had burst, but a few minutes sufficed to show they were safe as far as the water works were concerned. After a short time the party recovered from the fright which they had sustained, and after the one who was keeping tally found the pencil he was using which in the excitement of the moment he thought he had lost, but had put it in his pocket, the game was resumed. Lindsay's six Doctors is blamed for the trick, but he denies it like a man, saying that it is well known he takes no interest in practical joking.

Gold Cure.

Toronto, Jan'y, 24th, 1895.

DEAR SIR,—As you wish to know from me how I feel after being cured for nearly three years of alcoholism, will say in the first place I drank liquor for over thirty years and during the latter part of that time I had several severe attacks of delirium tremens. I went to your Sanitarium a skeptic, asked to go there by my wife (God bless her, if it had not been for her I should have either been in my grave or in a lunatic asylum to-day). When I went there I weighed 190 lbs. to-day I weigh 125—so much for your Double Chloride of Gold Cure at Oakville. I had lost all hope of ever being cured and told my wife when she asked me to go that there was no use as I thought they might figure some people but my case was a day. My head was as heavy as that of a travelling and to-day I feel as if I find other people say who go there—they think they are worse than everybody else. My health has wonderfully improved and I feel to-day, at the age of 51 years as young as when I was 25. My head is as light as that of a travelling and I find that now I can stand more fatigue running on night train than I could 25 years ago, using alcohol. I cannot speak too highly of the treatment as it has been to me what I consider not only the saving of my life but making all my family as well as those who know me, happy to see me in the position I am to-day. I had gone so far with liquor that I could not get a situation upon the road from any house in Canada and when I came from your institute I was obliged to go to the United States, where they knew something of the Gold Cure, to get a situation which I readily got even when they knew that I had been through the treatment and to-day, instead of being in a position that no one would employ me, I am a good salary. I can truthfully say that I have never seen one second time since the third day I was in the institute that I have ever wanted a drink of liquor and the thought of it is as disgusting to me now as when I left there, and I can positively say that I have lost all idea or conception of the taste of liquor. After being cured nearly three years, I can say to all those afflicted with the disease of alcoholism, go there, do not wait, but take the train for Oakville where you can be put upon your feet again as you were before you commenced to drink, not knowing the taste of liquor. Wishing you and your institute every prosperity, I remain, your truly,
