Scythian, etc. As a race horse he was a good performer and placed a number of capital races to his credit. As a two year old, with 114 lbs. up, he won a race of 5-8 at Guttenburg in 1.03, beating a field of 15, among them such good ones as Gonzales, Paaha, Tammany Hall, Bon Yoyage, etc. His second victory at Guttenbury was also a dash of 5-8, which he ran in 1.02, beating such fivers as irregular, Natalle S., Rialto, and five others. Again, a few days later, he ran three quarters of a mile in 1.16; over a slow track, defeating nine good ones with consummate ease. As a three year old he ran a number of good races, but his best performance was at Conley Island in a purse of \$4,000. seveneighths of a mile, which he won in 1.27 4-5, a splendid performance, and beating such fast company as Fred Taral, Helen Rose, Dagonet, Flavilla, Milt Young, Linetta, Alcalde and Long Bounce.

NOTE.—There is a large percentage of horses in this locality which it would be profitable to breed to this horse. There can be no doubt about the popularity of the thoroughbred horse, when it is remembered that last week 10,000 or 12,000 people daily visited the Woodbine track to witness the races held there. A cross from the thoroughbred horse is the highest priced horse in the; market to-day.—1998-tf. 4

The month of June 1895 will long be remembered for its extraordinary drought.
Much less rain having fallen than probably
was ever known in this locality. Perhaps a better idea of the severity of the drought may be obtained when the actual quantity of rain which fell during June is compared with that of the same month for the past 15 years. The average rainfall for June month for the past 15 years is 3.21 inches. The greatest quantity 7.95 inches fell in 1883. The least 1.7 ness. inches in 1880, while for the month now ended only .79 inches has fallen, or less than one half of the least ever before recorded.

Mr. Walker, atreet overseer, on motion, gave an explanation of how old plank were used, which was aimilar to that given by Mr. Touchbourn; also that there were more old plank used in the north and south wards than in the cast, and that there were wards than in the east, and that there were none put down in any ward only where the street and bridge committee had directed. He also emphatically denied that rotten plank had been put down as had been reported. It was remarked that if old plank only were to be relaid in the wards in which they were taken up some would be unused, while new plank would have to be laid where old ones would do. In reply to this Mr. Curtin said

That Gravel Letter.

Montreal, Que., July 2.—It appears that all the theories regarding the manner in which bishop Gravel's famous letter became which bishop Graver's famous letter became public have been more or less astray. Quebec Wants Four Millions.

The interprovincial accounts arbitration sat all day at the parliament building Tuesday. The three arbitrators were chancellor Boyd. chief justice Sir Napoleon Casault of Quebec, and Mr. Justice Burbridge. W. D Hogg. Q.C., and Dominion accountant Diokenson represented the Dominion. Aemilius Irving. Q.C., J. M. Clark and Hon. A. M. Ross, exprovincial treasurer, Mr. Mason, assistant treasurer and Mr. Heyd, provincial accountant appeared on behalf of Quebec, taking up the whole days session. By a previous decision of the privy council in 1878 on the appeal of Quebec it was decided that \$1,733,000 of the common school fund should be apportioned. Ontarie demands that the order be treated as final; Quebec claims \$6,666 000, which, if allowed, would mean that Ontario would have to pay some \$4,000.000 into the coffers of Quebec for sums realized by the sale of lands in Ontario. The whole matter relates to the lands of the correct was named, one to one, and was therefore a tie. After the match was over, the Ironsides with their ladies and friends were escorted to the Orange hall where a substantial tea was provided. Mr. R. C. Garrett was called to take a place at the head of the table, and after supper was placed in the chair and called upon several of the friends and contestants to take part in the speeches. Space will not permit a full report of the proceedings, but suffice it to say that very complimentary remarks were passed and all dispersed in evident good humor. At Haliburton on the 1st July, again our boys took part in a match with the Haliburtonians and was favored with two referees and much shouting by the by-standers. The score was I to 1. After supper another match was arranged for, The interprovincial accounts arbitration sat

It has been under the consideration of the cabinet, and it is currently reported round the lobbies to-night that there are differences of opinion among the members of the government as to whether or not remedial legislation shall be introduced this session. Many members insist that no bill will be introduced, others as emphatically asseverate that a measure will be brought down. Manitoba to remedy the constitutional grievances of the catholics of Manitoba. They point out that the remedial order demanded pecific action on the part of Manitaba; that that government had to go the whole hog or nothing. They did nothing; but if given a chance to pass remedial legislation possibly the province might do something. Therefore the view is advanced that the government should delay remedial legislation until next

> WHERE THE FIGHT WILL COMMENCE. A prominent Quebec politician informed your correspondent to-day that he believed the remedial bill whenever it came down, would be found to be practically the adoption of the Ontario separate school system, including government inspection of schools and the employment of certificated teachers, the religious orders excepted. This latter exception, it it be incorporated in the bill, will not be palatable to Manitoba, and it is on this particular point where the fight will come. The roman catholics of the city of Ottawa are greatly dissatisfied with the tuition which is being given by the christian brothers in the Ottawa separate schools, and are anxious to Ottawa separate schools, and are anxious to dispense with their services. This feeling found its outcome in the recent demand for an | welfare. impartial inquiry into the affairs of the Ottawa separate schools, and before very long the report of the investigating committee will probably be made public.
