FRIDAY, SEPTEMBER 20, 1895. Mixed Wheat Defended.

Continued from first Page. RANING WHEAT KEEPS UP THE PRICE. This year smutted wheat in Manitoba which by the returns of the grain inpector is shown to include but 13 per ent. of the total crop), can, with the ex-pensive and improved appliances provided, be cleaned up to a good sample, and under prevailing regulations and methods dealers have been enabled to so handle this class of grain as to give the producer practically a one or two hard price less the actual cost of shrinkage and cleaning. the desire of Toronto and Montreal boards is carried into effect, smutted wheat will immediately be depreciated in

value at Manitoba receiving points from 3 to 6 cents per bushel. As will be seen on reference to the Prices Current, issued by leading European grain merchants, the values for No. 1 Manitoba hard and No. 1 Duluth hard in British markets are identical. This fast is submitted to your notice as a con-tradiction to micleading and tallactous reports spread through the medium of the Canadian press by a few interested eastern dealers apparently desirous of killing off direct export of Manitoba wheat for pur-

poses of their own. Local plices in Minnesota and Dakota this year have been greatly affected by the heavy demand of Minnesota, Buffalo, New York and other prominent American milling centres for hard wheat, and, in onsequence, the domestic demand has raised the price of hard wheat in many cases to above an export basis as will be seen from the official tabulated statements
of the Minnesota State Railway and Ware honse Commissioners.

KEEP UP THE STANDARD AND PRICE Of the 1894 crop of Manitoba wheat. it is estimated that ten millions of bushels has passed out of the farmers' hands up to Nov. 1, which affords evidence of the perfect capability of the grain trade of Manitoba to conduct their own business without assistance or interference of the trade in Toronto or Montreal, none of whom (except Ogilvie and Lake of the Woods milling companies, both of which the early years of the province, but now are well represented in this exchange), Manitobans think that they alone are enhave a dollar invested in Manitoba, in titled to say what the grain standards elevators or shipping plants, in rath strong contrast to the Manitoba dealers, who have in this direction invested considerably over \$1,000,000. The members of the exchange handle fully 95 per cent of the grain exported from Manitoba and the Northwest Territories, and for a great part have all their capital invested in the Northwest, and for every reason are keenly anxious that the crops should return the maximum of value to producers in the province of Manitoba and Territories, and, as a necessity thereto, that the high reputation of Manitoba grain should be maintained in foreign markets. All of which is in strong contrast to the position of the members of the grain sec-

With the exception in Montreal of Ogilvie and Lake of the Woods milling that the Dominion millers' association companies, as noted elsewhere, who have no vested interests in Manitoba. or right or title to intertere in the conduct of the grain business in Manitoba.

tions of Toronto and Montreal boards of

WHEAT ADULTERATED IN ONTARIO. While the trade in Manitoba in past 7.4. years has been laboring and expending their means to introduce Manitoba wheat into European markers, their efforts have west territories. So far has this rage been carried for foisting adulterated Manitoba wheat an flour on the public

disproves the statement that Canadian inspection and standard requirements are not as thorough and perfect as prevail at Duluth. Notwithstanding reports to the contrary, the inspection act for Minnesota, which governs Duluth, does not call absolutely for as high a quality of wheat as the Canadian rade of No. 1 hard now demands. The cording of the two acts is as follows: Duth No. 1 hard spring wheat must be sound, bright and well-cleaned, and mut be composed mostly of hard Scotch fyfe and weigh not less than 58 pounds to the measured bushel.

Manitoba No. 1 hard wheat shall be sound and well cleaned, weighing not less than 60 pounds to the bushel, and shall be compose of at least two-thirds of hard red fyfe wheat, grown in Manitoba or the N rihwest Territories of Canada.

The standard requirements are in the government and he made in t

Canada.

The exchange most strongly profests against any increase being made in the percentage of red fyfe wheat required in the grade of Manoba No. 1 hard wheat, the present percentage being settled on after a full const eration of all interests affected, by the miand revenue department and Domiron gevernment.

CAPABLE OF MALGING THEIR BUSINESS.

In conclusion, his exchange will simply draw your Hentton to a proviso attached to the resolutions passed in Toronto and Motreal that the charges

from prevailing methods of shipping out cargoes of grain asked for by these boards of trade should apply only to Fort William and Port Arthur. The animona contained in this provision is the key to the whole agitation raised by a few castern dealers from whom, by force of natural circumstances, an extensive trade has passed into other hands. In view of all these facts this exchange does emphatically protest against the apparently claimed right of Eastern Canadian grain dealers to interesers and meddle with the

ically protest against the apparently claimed right of Eastern Canadian grain dealers to interesers and meddle with the conduct of the grain business of Manitoba by Manitoba dealers and millers, and this exchange respectfully but most strenuously protests against the appointment by your department of Toronto and Montreal millers and grain dealers to Western grain standard board for the selection of Manitoba standards. This exchange denies the right of Octario and the navy department at Washington,

Charles H. Cramp has represented to the navy department at Washington, that there is no adequate dock in the United States for vessels of the size of the new battleship, Indianna, and recommends that she be taken to Halifax, and exchange denies the right of Octario and Quebec grain dealers and members of the Dominion millers' association (not a it is possible that she will be taken there.

member of which so-called Dominion millers' association, within knowledge of members of this exchange present at the meeting, is resident of Manitoba or Northwest territories), to fix standards of Friday afternoon two penitentiery convicts at Kingston, made a bold break for liberty. Guards Johnston and Beaupre both fired, but without effect, and the latter followed in pursuit. Inside grain for Manitoba farmers, millers and dealers. The exchange desires to state as its distinct and positive belief that the expenditure of public money this year to the extent of \$625 to pay the expenses of of an hour the guards had both of them back in the prison. The men are Thos. Hannon, sentenced at Toronto to three years, and John Dickson, sentenced at H. milton to five years. Hannon entered June, 1894; and Dickson in November, five eastern representatives was useless and unnecessary in the interest of producer and dealer. All of which is respectfully submitted on behalf of the exchange. Charles N. Beil, secretary.

The first of the ten-inch disappearing gun carriages for sea coast defence guns has been completed at the works of the With regard to the question, however. Oramps, and second carriages will be finished by the first of next month. Both of the carriages will be sent to San Francisco for erection in that harbor. The work will be done by army ordnance of mixing of wheat, it will be remembered that representations on this subject were made to the controller of inland revenue last year. Thereupon Mr. Wood instructed assistant commissioner of inland revenue, Mr. Gerald, to proceed to Port Arthur, Daluth and other western

REPORT OF COMMISSIONER GERALD.

evident from the fact that of 34 elevators

in Minneapolis, alone, 29 are "private" ones and not under state control, grain is

shipped to the public elevators at Duluth.

THE REAL QUESTION.

The question at issue really resolves

boards, as a matter of courtesy, were given representation on the western

board for the selection of grain standards.

Such a thing might be fairly conceded in

not expected that they will.

It is now possible for an inexperienced person to dye cotton, wool, silk, feathers, etc., a black that will not crock, fade or wash

where it is graded.

Joseph Lawrence, his wife and six points, to examine into and report upon children, were poisoned on Sunday last, at Norristown, Pa., by cating tomatoes the method of grain inspection. Under date, Nov. 20, Mr. Gerald presented a which had been sprinkled with Paris green by a thoughtless neighbor. The report to the controller, from which it appears that, as regards shipments of parents and four of the children are not grain from public elevators in Duluth, there may be no mixing, but it is quite expected to live.

While testing the upper gates of the new United States locks at Sault Ste.
Marie, by filling the pit with water, an upheaval of masonary of the mitre sill occurred, letting water in between the scoured, cleaned and mixed before being first and second courses of stone. The repairing of it will entail a heavy expense to the government, as the top layer of masonary, timber work and valves will have to be taken up and repaired.

itself into this, are the Toronto and Montreal boards to decide how the Manitoba crop shall be handled or the standards fixed, or is the Winnipeg board to have the principal say in the matter? When Mr. Wood was in Winnipeg last Desember he was met everywhere by the celing that the Ontario and Quebec men had nothing whatever to do with the Manitoba standards. The grain men of Manitoba contend that, originally, eastern

W. C. T. U.

For God and Home and Native Land."

shall be for wheat grown in their province or territories. In consideration of all facts in possession of the department behalf. Meetings were held and sarnest coupled with the strong opinion expressed by Sir Wm. VanHorne, than whom few men in Canada are more largely interested were in the lowest strata of humanity. In the grain trade of the Northwest, To this class their efforts were specially together with other representations directed One of the most prominent received, the department was induced to workers, walking past a prominent bueimake only one change in the existing ness house, said to herself, "Here is one regulations previously mentioned. The who everybody knows is rapidly going question is one which interests producers the downward way through strong drink. in Manitoba more than the eastern Why should I not seek to save him? I millers' association. A fuller opportunity will go in and personally plead the case will be given for discussion at a meeting His courage failed. She passed and reof the western grain standard board, to passed the great establishment, and be held in Winnipeg on 24th inst., where finally went home to think over the best the various interests will be represented.
In this connection it is particularly desirable, in view of recent development, that the Dominion millers' association approached on the subject of his interminant over the best way of approaching this influential and prominent merchant. She feared he would be angry by being personally approached on the subject of his interminant. should send a strong delegation, but it is parance. The next day she went again and again walked back and fro, her heart failing her. At last, with an uplitted prayer for help, she quietly opened the door, half wishing that she would not Dr. Low's Pleasant Worm Syrup removes worms of all kinds from children or adults. find him in. Walking into his private office she found him at his desk. She Lord Dufferin to Retire.

Was greeted with a pleasant good morning, which made it the harder for her to speak to him upon the subject. Forgating the little speech should be speak to him upon the subject. paralyzed by the disreputable adulteration of Manitoba wheat in Ontario and Montreal, by admixture with it of low will witness the retirement of Lord out with, "Oh, Mr. —, I was so troubled out with, "Oh, Mr. —, I was so troubled out with, "Oh, Mr. —, I was so troubled out with, "Oh, Mr. —, I was so troubled out with, "Oh, Mr. —, I was so troubled out with, "Oh, Mr. —, I was so troubled out with, "Oh, Mr. —, I was so troubled out with, "Oh, Mr. —, I was so troubled out with, "Oh, Mr. —, I was so troubled out with, "Oh, Mr. —, I was so troubled out with, "Oh, Mr. —, I was so troubled out with, "Oh, Mr. —, I was so troubled out with out with, "Oh, Mr. —, I was so troubled out with which to approach be adulted out with the adulted out with which to approach be adulted out with the adulted out with the adulted out with the adulted out with the adulted out with grade, soft, Ontarie-grown wheat, this spurious product being exported to British and foreign markets as Manitoba British and foreign markets as Manitoba hard wheat, to the most serious detriment of legitimate trade, and great financial loss to the tarmers of Manitoba and North west territories. So far has this rage have carried for foisting adulterated diplomatic service altogether. He is said to be longing for a quiet life, with leisure to be longing for a quiet life, with leisure to look after his Irish estates and set a good example to other no lemen in Iremain and the look after his Irish estates and set a good example to other no lemen in Iremain and the learnestness of her soul she pleaded with him to turn from the dangerous channel which he had entered. Then, apologizing for what might seem to him an unwarranted intrusion, she started for the door. To her Manitoba wheat an interest in the public that certain Ontario millers have been sompelied, by process of law, to refrain from refilling emptied flour sacks (branded with the name of Manitoba and Ontario wheats.

INSPECTON PERFECT.

Over 1,000,000 bushels of Manitoba wheat, after passing Manitoba and Ontario wheats.

INSPECTON PERFECT.

Over 1,000,000 bushels of Manitoba inspection, have been shipped via Dulath, and a large part of this las been submitted to the Duluth inspection officers, which have granted for this same wheat Duluth No. 1 hard certificates, which fact effectually disproves the stalement that Oanadian inspection and standard requirements are not as thorough ad perfect as prevail at Duluth. Notwithtending reports to the surprise he rose, and in a kind and they not come to me and many others like me, who, if once saved for this great aim, might be an honor to God and a benefit to humanity? Are we not worth saving?" With a choking voice he thanked her for her interest and her prayers, and added, "By the grace of God I will try to overcome this terrible habit, which I know is leading me to the loss of body and soul,"—Massachusetts or, of The Christian.

cor. of The Christian. Unfair to the Club Man. "Why is it a bad law? Because it closes the saloons and does not close the clubs. I can go to my club on Sunday and get all the drink I want, but my groom, it I have one, cannot get a drink for love or money. Is this fair? I firmly believe that liquor should be obtainable between certain hours on Sunday, say between one and ten p.m." Thus speaks Rev. Dr. Rainstord of New York, to the Montreal Witness reporter. It is difficult for Canadians to understand a christian minister advocating the opening of Sunday saloons, and offering as a justification for such Sunday traffic the injustice which the law works to the poor. Bather, it would seem as if the remedy for the inequality in the law's operation would be to close Dr. Rainsford's club. It is not the poor man, protected from drinking saloons on Sunday, who is understand a saloons on Sunday. "Why is it a bad law? Because it

fairly dealt with by the Sunday closing

What Will the Wife Do? In a late interview with the Montreal Witness reporter, Rev. Dr. Rainsford, of New York, and: "The saloon system as at present managed is a curse, but saloons are the only making places of the people who lives in the tenements. Take a man who lives in one room with his wife and three or four children—with him a club of some kind is a necessity, and the

saloon is the nearest approach to a club that he can hope to reach.', Is this not just a little one-sided? What does the good D. D. advise for the poor wite who has not the advantage of vacating, even for a few hours, under pretext of work, the one room they call home? Why should not the man, who has been absent all day, give his wife and mother and children the blessing of his company instead of spending it at the club? If it is not intringing upon any copyright held by Rev. Dr. MacKay, we should say Dr. Rainsfords excuse for the saloon is "a bit of pharasaical cant."

Workingmen, the cause of half time and low wages is not overproduction, but under consumption. Close the salcons for only one month, and all the shops, factories and mines in the state would start up on full time.

Fair Buildings Burned.

London, Ont., Sept. 12.-With a meteoris display of fireworks the Western fair was opened this evening. The exhibition was not set down on the official programme, and although it involved an extra expenditure of \$10,000 it went through without a hitch. Before it was extinguished the whole of the carriage building, the poultry shed and the W.C.-T.U. building, besides several smaller erections, were in smoking ruins.

The formal opening of the fair was set for Friday, and all day to day prople flocked to the grounds, and exhibits were being put in place.

Shortly after 7 30 the ladies of the W.C T.U, had prepared a little supper in their building and were seated around to enjoy it. Just then a wave of fire flew in the back windows and the ladies and their friends scrambled incontinently out the front. Somebody cried fire and when the department arrived the poultry sheds were all ablaze. In a moment the carriage building caught and the dry wooden structures went up like a match

The exhibits, amounting in value to many thousands of dollars, were hastily

There were only a few hens in the poultry shed and the loss of life was not great. The panic among the exhibitors was general, and from all over the grounds exhibits were hastily thrown out. Then the firemen began to get in their work and kept the blaze confined to the carriage building. Nothing could be done but let

An incident comes to us from one of our well-known Christian workers. A great effort had been made in one of our towns to rescue the intemperate and to enlist the sympathy of christians in their behalf. Meetings were held and earnest personal efforts made to reach those who were in the lowest stream to the lowest stream the lowest stream to the lowest stream to the lowest stream those who were in the lowest stream the lowest

The entire damage was placed at \$10,-000 and insured.
