The Victoria Warder

FRIDAY, SEPTEMBER 27, 1895.

A union of hearts and a union of hands
A union none can sever;
A union of homes and a union of lands
And the flag, BRITISH UNION, forever.

IMMIGRATION TO CANADA.

The splendid harvest in Manitoba and the North West of Canada, the fine timber, mining and farming wealth of Northern Ontario and of British Columbia, as well as the undeveloped resources of other Canadian provinces should if properly represented to the peoples of Europe cause thousands to seek homes in this splendid country.

There are good settlers to be had in all lands. Some countries, however, such as France cannot spare any emigrants, the deaths almost equalling the births. Other lands such as Italy and Spain, produce many good men, but the climate and general conditions of Canada are not favorable for them. The people who make the most satisfactory settlers, from all view points, are the Scotch, the English, the Scandinavians, the Norwegians, Swedes, Danes, and part of the Finlanders; the Germans, the Dutch, the Welsh, the Irish.

It is hoped the government will not be content longer, with an immigration policy that seems to be modelled after the fashion of grit ideas, a kind of do-nothing, drifting, "neer do well" plan. Let a vigorous, progressive, judicious and intelligent policy be begun and Canada will be the gainer, even though the cost be great.

CLOSER UNION WITH GREAT BRITAIN.

Mr. Wickham, barrister of Toronto, a gentleman well and favorably known in Victoria county, has advanced ideas in reference to the Naval League of Great Britain and her colonies, that are well worthy of serious consideration, and which are, to our mind, worthy of endorsement.

It is undisputed that Canada saves millions yearly through the protection of British navies and armies, and the prestige of her support in commercial and general financial affairs. Yet Canada contributes little or nothing to the support of this protection and prestige.

Mr. Wickham's proposal is that Canada subsidize fast steamers for commercial purposes between Canada and Britain, and that these steamers be suitable either in peace or war of acting as armed cruisers for the protection of Canada's and Britain's interests.

Farmers and business men would benefit in the improvement in trade, and in prices of commodities, through increased

facilities for transport of goods and reduction of rates.

The nation—Canada and Great Britain—would benefit in closer trade relations, closer trade relations, and closer political relations.

To Mr. Wickham belongs the credit of the idea. That it meets with favor elsewhere is evident by the fact that Sir Charles Tupper, high commissioner in England, also speaks favorably of it.

Let farmers and townsmen consider the proposal and once in possession of the facts, pro and con, it seems clear to us there should be no two conclusions. All would favor it.

Lindsay Central Fair.

The fair this year was largely attended, the number of entries being far in excess of any previous year. Owing to the delay of our publication being one of the days of the fair we are unable to refer to it as fully as we would wish to, but we can say that it seems to be the most successful that has been held for some years, if not the most successful that ever has been held by the society.

Hon. Sir Mackenzie Bowell, premier of Canada, arrived Thursday morning by the 9:30 train, and was met at the station by Mayor Walters and the members of the town council, chairman of the board of education, Col. Deacon, county police magistrate, Pr. sident Bryans and the directors of the agricultural society, Hon. John Doherty, Chas. Fairbairn, M.P., Major Sam. Hughes, M.P., and many others. After addresses of welcome had been presented and replied to, he accompanied in the carriage by Hon. John Doherty and Mayor Walters, was taken to the Bowen house to rest after the fatigue of his journey, he being at the unveiling of the statue on Wednesday at Oshawa's farm.

Arriving on the fair ground about 1:30 an address was presented from the agricultural society, after which the fair was declared formally opened.

The premier, after spending most of the afternoon on the grounds, left by the 8 o'clock train for Ottawa.

JOSEPH J. DALY, proprietor of the Daly house, Toronto, formerly of Lindsay and brother of Edna Daly, of the Daly house here, died on Friday last from inflammatory rheumatism at the age of forty-five years. He was well-known in Lindsay where he resided for many years.

The body was brought here for interment, the funeral taking place on Sunday at 3:30 o'clock from the Daly house to St. Mary's church, thence to the Roman Catholic cemetery. The funeral was largely attended, there being a large number of carriages in funeral cortege. The Citizens' band headed the procession, playing appropriate music, from St. Mary's church to opposite the post office on Kent street. He leaves a widow but no children.

WEDDING BELLS.—On Tuesday a pleasing event took place at Peterboro, when Mr. Geo. McKee, postmaster at Asphodel, was married at the Methodist parsonage by Rev. Mr. Rae. The high estimation in which the bride is held by her many friends was shown by the large number of presents she was the recipient of. THE WARDER wishes Mr. and Mrs. McKee the usual compliments.

PURSE FOUND.—Mr. Peter Sinclair, blacksmith, of Boxley, was in town last Saturday and found a purse containing a sum of money and a letter. The persons named in the letter are not known in Lindsay. The loser can have the property by applying to this office.

THE QUEEN STREET Methodist church, Lindsay, is arranging for a union meeting to be held in their church on Sabbath, October 6th at 3 p.m. Although announced at three people are invited to come at the close of the Sunday school services. All the ministers of the town are invited to attend and address the meeting. The Sunday school will, it is expected, be present and take a prominent part in the exercises. It is hoped by this meeting to promote the social feeling amongst the different churches. Lindsay now enjoys a very happy state of christian fellowship. All are invited to attend and enjoy this union service.

Rev. N. Hill, of Omema, preached to a large congregation in the Queen street Methodist church last Sabbath evening. His old friends were pleased to see and hear him again.

Miss Florence Totten, of Lindsay, daughter of Rev. J. W. Totten, left last week for Whitby to attend the Ladies' college.

Mrs. (Rev.) T. W. Joffe, of Campbellford, has for a few days been visiting her cousin, Rev. J. W. Totten and his family. She returned on Thursday to the home of her sister, Mrs. A. Dixon, of Peterboro.

The Queen st. Methodist Sunday school have been making considerable additions to their library of late. The school is progressing finely.

Mr. Wm. Willard, the genial night clerk of the Hoffman house, Peterboro, was in town on Thursday of this week, taking in the Lindsay Central.

Mr. James Bell, of Whitby, and Mr. Campbell of the same town were at the fair yesterday.

We regret to announce the death of Mary, daughter of Edward and Isabella Jackson, at the early age of 21 years and 6 months. This is the second daughter Mr. and Mrs. have lost within the year six months. THE WARDER extends sympathy to Mr. and Mrs. Jackson in this their second bereavement in so short a time.

Mrs. Garvie, returned missionary from India, will give a talk on work among the Telugus, in a school room, next Monday evening at eight o'clock. Collection in aid of the mission band.

Miss Steele of Toronto is at present a guest in Victoria county, visiting Mr. and Mrs. Lemay in Lindsay and her brother Rev. Mr. Steele of Fenelon Falls.

Mr. James G. Stewart for many years the popular clerk in Mr. S. Parry's drug store, died on Saturday last from consumption. Mr. Stewart was married to Miss Jennie Bannan, who, with one child, a boy six years old, is left to mourn their loss. The funeral on Monday to Riverside cemetery was largely attended.

G.T.R. FIRE BRIGADE.—The annual inspection by Inspector Sack of Montreal, of the G.T.R. fire company here, took place on Tuesday last, and proved that the boys at the round house are well up in their duties of firemen. The company have at several points on their entire system of railways an efficient fire company, which are inspected annually, special prizes being given to the most efficient. A healthy rivalry is thus created in the entire brigade, each company trying to do their best. The dry race company, in laying the hose, no water being turned on, while in the wet race water is turned on and a paper disc broken. Messrs. O. H. Gordon of the Post, and John Kelly of THE WARDER, were appointed judges, their duties being to see that proper connections were made, and that no tampering was done to the hose after the move had been finished. Mr. Geo. Lytle, of the Watchman, and Geo. Byler, conductor, were time keepers.

There were three moves in each test. First move, reel placed on scrubbed floor, 100 yards from hydrant, run around flag, placed 45 feet from hydrant, run four lengths of hose and put on branch, branch to reach not less than 180 feet from hydrant, time 20 seconds. Second move, take branch, add one length, branch reaching not less than 230 feet from hydrant, time 11 seconds. Third move, replace length No. 3 counting from hydrant, time 18 seconds, total time 34 seconds. The second test were similar movements, the water being run through the hose and a paper disc broken. In first move 35 seconds, 2nd move 11 seconds, 3rd move 16 seconds; total time for the drill 1 minute 2 seconds. The wet drill is completed in sections of the brigade, Lindsay, Hamilton, Carleton Place and Allendale being in one section, while the dry drill is general for all the companies in the entire system. We hope to be able to note at an early date that the Lindsay boys have secured a gold medal on this drill. The boys made a gain of 1 1/2 seconds on their training last year. Inspector Sack was well pleased with the team and complimented Mr. Storor on their efficiency. The following are the names of the Lindsay team:—Chief, Jas. Storor; captain, T. Walton; J. Ureman; J. A. Gordon; G. Greenhalgh; J. Walton; J. McSweeney; W. Siddals; S. Trotter; G. King; K. Preston.

FIRES.—On Tuesday night shortly after 8 o'clock, the reflection in the sky, which was almost instantaneous, followed by the ringing of the bells, showed that a large fire had broken out. The shingle mill of Mr. John Dovey in the east ward was found to be the scene of the conflagration. The firemen quickly responded to the call but from the inflammable nature of the building and contents their services were not saved the building and most of the season's cut of shingles from becoming a total loss. The mill was insured for \$2,500 and the shingles for \$2,000 in the Mercantile insurance company which will not near cover the loss.

The monument at Chrysler's Farm to the memory of the heroes of the war of 1813 was unveiled by Hon. John Haggart on Wednesday in the presence of a large and enthusiastic gathering.

OAKWOOD.

FAREWELL PARTY.—Mr. J. W. McIntosh, M.A., the popular Presbyterian student, who has so acceptably filled the pulpits of Oakwood and Cambray during the last two summers, will preach his farewell sermon on Sunday next. A number of his friends were invited to spend an evening with him at Mrs. Bank's on Tuesday night. The evening was spent in conversation, systematically prepared by Rev. Mr. Rae. The high estimation in which the bride is held by her many friends was shown by the large number of presents she was the recipient of. THE WARDER wishes Mr. and Mrs. McKee the usual compliments.

ESSONVILLE.

Special to THE WARDER.—The cattle and sheep buyers were through here last week and bought up quite a number of fine animals, which were delivered to Gooderham on Monday. We have had some very warm weather during the past week. A number of quillings have been going the rounds lately. A great deal of sickness prevails this fall. Several cases are reported here at present.

FLEETWOOD.

Special to THE WARDER.—HARVEST is over and threshing nearly done. The yield of grain is good for the amount of straw, except peas; early sown peas are generally turning out a poor crop. THERE are some changes here. Mrs. Smith, who has been living here for some time has moved to Frontville. Mrs. W. Jones has given up Mr. Hugh Graham's farm and is going to live on her own premises. Geo. Jones is now drawing milk to the cheese factory in place of T. K. Brown. Mr. Edward Sutton has put up a new stable and is going to erect a dwelling house.

FENELON FALLS.

Special to THE WARDER.—The flag staff intended for the handsome flag lately presented to our village by Mr. E. B. Rogers of the T.V.C. works, lies in wait on the shore of the canal for a fitting opportunity of being erected and its flag unfurled to the breeze. The congregation of the Methodist fraternity here have greatly improved their place of worship by removing the old steps and fence, and placing in their stead a handsome set of steps accessible from all sides, a most pronounced improvement both in appearance and convenience. We are glad to be able to state that Mr. Welch, the man so badly injured in Hovey's mill last week is slowly recovering, while little Walter Corbett is coming around as readily as possible. The pumpkin pie social held at Mr. F. McDougall's by the ladies auxiliary of the Presbyterian church was a grand success, a large number being present, and all well pleased with the evening's entertainment. The gentlemen in our midst who are noted for keeping early hours, must have lost his bearings last week; when he was seen slowly meandering up street one evening between ten and eleven p.m.

IT MAKES HOME BRIGHTER

The last glow of sunlight at the close of a "wash day" falls on a cheerful home where Sunlight Soap is used. The washing is done and at evening the housewife is fresh, bright and light-hearted because Sunlight Soap washes clothes so easily, so quickly, without rubbing and scrubbing.

6 Cents Twin Bar
Less Labor
Greater Comfort
For every 12 wrappers sent to J. L. Lewis, 25 St. George St., Toronto, a useful paper-bound book will be sent.

COREAN WOMEN.

A Few of the Restrictions Which Are Placed Upon Them.

Corean girls, after enjoying freedom until they are eight years old, are consigned to the women's quarters, where they live in seclusion till they are married, at 16 or 17 years. After marriage, says Popular Science, Monthly, the woman is allowed to see no man but her husband. The boys, on the other hand, are taught that it is unbecomingly for them to enter the woman's part of the house. They never see their brides till the wedding day, all having been arranged for them, often when both bride and groom are infants. The bride and bridegroom insist them in dressing their hair in the manner befitting their new estate. Then the bridegroom mounts a white pony, which is led by two servants, while two others on either side support the rider in his progress. As he proceeds to the bride's house, in which the bride and her relatives are awaiting their arrival, a goose (the Corean symbol of fidelity), which the bridegroom brings with him, is then produced. The bride (who has to cover her face with her long sleeves) and the bridegroom then bow to each other until their heads almost touch the ground. They do this two or three times, and are then man and wife. A loving cup is then passed around, and then the bride is taken off to the women's apartments or her husband's home, where she is looked after by her mother and mother-in-law, while the groom entertains his friends. The husband must maintain his wife properly and treat her with respect. Marriage for the Corean is a woman's estate. Before marriage, no matter how old he may be, he is treated as a boy, and has to maintain a deferential attitude toward the married man, even though they be only half his age.

A MIDGET.

Sir Geoffrey Hudson, the celebrated English dwarf of the seventeenth century, was doubtless the most widely known human curiosity of his time. He was born of parents of the normal size, at Rutlandshire, in 1612. At birth he weighed less than a pound and a half, and was only eight inches in length. He did not begin to walk until after the end of his third year, his height at that time being less than a foot. At the end of his seventh year he was taken into the family of the Duke of Buckingham, having between the ages of 3 and 7 years, added but four inches to his stature. With Buckingham he lived until 30 years old, at which time he was only 18 inches in height, when he was equipped in fashionable high-heeled shoes.

At the age of 30, however, a remarkable change came over the midget, and for the next five years his growth was as remarkable for its rapidity as it had previously been for its backwardness. At the age of 35 his height had been scant 1-3/4 feet; at 36 it was 3 feet and 9 inches! How or why this remarkable change was brought about was a question too deep for the Society of Royal Surgeons, who, time and again, discussed the phenomenon arriving at no satisfactory conclusion. Hudson lived to be 62, which is three times the average length of life among giants.—St. Louis Republic.

Births.

KING.—In Bowmanville, Sept. 21st, the wife of Mr. W. O. King, of a daughter.

Marriages.

PRIOR.—HOW.—At the residence of Mr. Reuben Garrett, Midea, uncle of the bride, on Wednesday, 18th inst., by Rev. E. Bonner, Mr. W. D. Fry of Hallowell, and Miss Elizabeth Howe, of Midea.

Deaths.

JOHNSON.—In Lindsay, on Monday, 23rd Sept., 1895, Thomas Johnson, aged 48 years.

STEWART.—In Lindsay, on Saturday, Sept. 21st, 1895, James G. Stewart, druggist.

MCCABE.—In Toronto, on Friday, Sept. 20th, 1895, Michael McCabe, formerly of Opa, aged 50 years.
