Tardy justice has at last been meted out to the above candidates when a month of the model school term has passed. It is creditable to their teacher, Mr. J-hn Cundal, that he has once more passed 100 per cent. of his primary candidates notwithstanding "The nigger in the fence." Once more Cameron public school leads the county in primary work. Little Britain did nearly as well as Cameron, but their teacher Mr. Lapp sent his number to another county, where all passed the This record. That Ooroner's Verdict.

To the Editor of The Warder. SIR, -The coroner's jury in the Campbell case in accepting without question the statement of the president of the Midland railway in his letter dated 9th July, 1881, written evidently under a mis-apprehension as to the facts, respecting the railway crossing on the Fenelon road where the young man lost his life, fell into a serious error, and has, un-wittingly done an injustice to the municipality of the county of Victoria in the paragraph of its verdict quoted below:—

"4th.—Evidence has been fuonished this jury from the records of the Victoria county council, to show that at the time of the building of this railway, the option was given to the municipal corporation of the county, for the construction, by the railway, either of the present crossing or of an elevated bridge above the same and the council for the municipality

have been instructed to contradict the state. Dale & Sons. is a concession line in the township of Ops and not a county road. Yours etc.,
