ON SUNDAY LAST the Cambridge street methodist church pulpit was occupied by Mr. Ray, of Charlotte street church, Peterboro, Mr. Shorey preaching the anniversary sermon there. In the morning he took his text from Daniel, 5th chap, 6th verse: The king's thoughts troubled him. We also are troubled; we are troubled in our thoughts of God; who is God? is God good; is God always good; what is eternity? The seurce of the trouble is not in the existence of these things but their relationship to man. If God is on his what is eternity? The source of the trouble is not in the existence of these things but their relationship to man. If God is on his throne of goodness what is that to me? The solution of the problems of human life is Jesus Christ. He says "O man, look at yourself; you are wrong and until ye are born again you shall not enter the kingdom of heaven; I go to prepare a place for you and where I am there ye may be also." The evening text was St. John, lat chap, 26th verse: "There stands one among you whom you know not. If John were amongst men now he could say "there stands one amongst you who yeu yet largely know not." Christ is with us now, in our every day affairs. Some men go through all the seasons and never see God and then fancy they see Him in the thunder storm. The world does not see Him because of what he is, a humble, honest, sincere man, We do not see God because we are not Christmen. We should turn from vain hopes and empty dreams, and see God in our every day life.

In Our Great Grandfather's Time, big bulky pills were in general use. Like the "blunderbuss" of that decade they were big and clum-sy, but ineffec-tive. In this century of enlightenment, we have

Dr. Pierce's Pleasant Pelcure all liver. stomach and bowel derangements in the most effective cleansing laxative, thereby removing of-fending matter from the stomach and

bowels, toning up and invigorating the liver and quickening its tardy action, and you thereby remove the cause of a multitude of distressing diseases, such as headaches, indigestion, or dyspepsia, biliousness, pimples, blotches, eruptions, boils, constipation, piles, fistulas and maladies too numerous to mention. If people would pay more attention to properly regulating the action of their bowels, they would have less fre-quent occasion to call for their doctor's services to subdue attacks of dangerou

That, of all known agents to accom plish this purpose, Dr. Pierce's Pleasant Pellets are unequaled, is proven by the fact that once used, they are always in favor. Their secondary effect is to keep the bowels open and regular, not to fur-ther constipate, as is the case with other pills. Hence, their great popularity, with sufferers from habitual constipation, piles and indigestion.

A free sample of the "Pellets," (4 to 7 doses) on trial, is mailed to any address, post-paid, on receipt of name and address on postal card.
