Trip to Manitoba. On the 20th of August I left Lorneville, Oat., at 11 a.m., and a few days journey landed us safely in Winnipeg, about 11.20 p.m. on Taureday night; the 2nd train two hours later, and the two other trains at 4 and 6 a.m. The total number to arrive was 2,460 and they brought with them 10 or 11 cars of baggage. The C.P.R. platform was crowded with men and boxes, trunks and values, but before night most of the arrivals had gone to western points. Elm park, which is about 2 miles south of the city, is another beautiful sight and a source of much pleasure, and last but not least, to all loyal Canadians, I visited the ruins of old Fort Garry and viewed the place 11.5 00

Not withstanding the inclemency of the weather the church was moderately filled early in the evening with people anxiously Special to The Warder waiting for the programme to come which was a very interesting one, consisting of vocal and instrumental music and recitations from the pupils. They were given in grand style. The Rev. Mr. Coon, pastor of the church, soled as chairman, and the Rev. Mr. Oswald, presbyterian, gave a very interesting address on the origin of the word "Christmas," which was attentively listened to and which will not be forgotten in hase by those who had the privilege of hearing him. At the close of the programme Mesere. J. Hobbs and Burchard were called on to strip the tree of its contents which were both valuable and useful. Among the presents was a valuable teacher's bible presented to Mr. James Marshall by the bible class of whom he is the teacher, in recognition of his services in the Sunday school. The tree being stripped and the programme ended the choir was called on to sing the hymn entitled "God bless the Sanday school." The proceeds amounted to \$12.

W. G. WOODS,

DEAR STA,—I have much pleasure in stating that the Gurney Oxford Hot Water System which you set up in my house in the autumn of 1894 was fmily what you represented it to be, and gave entire satisfaction. There was no dest, no smoke, no gas, no leakage, and the air seemed pleasant and agreeable to breathe, so that no one had a cough in my house during the entire winter. Notwithstanding the severity of last winter our house was so comfortable that we had to go outside to find if the day was cold, while the quantity of coal consumed was only a little more than we had burned in former winters in one large coal stove with less rooms to be heated. The Furnace was easily managed, and with ordinary care the temperature of the house could be kept at any degree desired. I can heastly recomined this system of heating to any one who during our Canadian winter desires to enjoy what I can best describe as "Solid Comfort."

(Sgd). THOS. W. POOLE. M.D., Lindsay.

The subjoined is an unsolicited testimonial which Dr. Poole kindly handed me a few days ago. "Nuff sed"

Give W. G. WOODS the contract of making your life a comfort this winter.
