PROF. DORENWEND IS COMING. It is contrary to nature that the head should be bald.

Let that be fully understood. Is it not a fact that many ladies and gentlemen do not wear arificeal hair for no other reason than prejudice. Their unately there has been a marked increase of its ein believes and gray hair, and the result is the loss of an attractive and refined appearance. MANY LADIES have the wretched habit appearance. MANY LADIES have the wretched habit of crimining and curling their own bair instead of buying an article according to the style. The result is they ruin their hair and when new styles come in they are unable to tollow them. PROF DORENWEND of the Dorenwent Co. Ltu., of Toronto, has for thirty years demonstrated the beautifying effects of wearing his hair goods. Thousands of THE BEST LADIES at digentlemen of Catada and the United States are waring his articles to day. In many cases the manufactured article is more becoming than the satural growth, and not even an expert

can detect that the hair is artificial. The PROFESSOR carries an immense stock of LADIES' and GENTS' WIGS, TOUPEES (half wig). BANGS, WAYY FRONTS, SWITCHES, BRAILS. Etc., in every form, shade and quality. All can be pleased Cast as is FALSE NOTIONS and provide yourself at once with a head dress that will give charming

WE HAD a configration here last Thursday night Mr. A. Curry having the misfortune to have his house burned to the ground. He lost all the contents save one or two articles. Unfortunately there was very little insurance on the house and contents. The neighbors kindly turned out a day or so afterwards and raised the walls of a small house for him. That is what I call practical sympathy.

The members of the methodist church at Simmons Corners intend to have a fine entertainment on the 31st inst. Proceeds

entertainment on the 31st inst. Proceeds to be applied to paying the minister. Our Sunday School seems to save a hitch somewhere, no attendance at the school, and we understand that the superintendent has resigned. We hope the difficulty will be tided over.

The Public School is again in full swing under the rule of Miss McIlwain of Gelert.

usia to The Warder SOMERVILLE AGRICULTURAL SOCIETY .-Somerville Agricultural Society.—
The annual meeting of Somerville agricultural society was held in Coboconk on Wednesday, Jan. 8th, and was one of the best meetings held for some years past. Minutes of last years business were read and adopted. Officers elected for 1896 are as follows:—Pres., A. B. H. Carl; vice pres., C. Bowin; directors, E. Jackson, D. C. McRae, J. Wilson, B. Burtchaeli, Wm. Batty, Wm. Waffle, J. Reakie, R. Callon, Wm. Shuttleworth; sec.-treas., Wm. Cookman. On account of negligence or for special to the Warder wm. Snuttleworth; sec.-treas., with Cook-man. On account of negligence or for want of forethought connected with our society for some years past there was lots of (you knew why) which of course made meeting more interesting and every person seemed to take an active part in the spout ing. I am informed that our show has been losing ground for years past on account of the violation of the rules and regulations of such societies. For instance take such animals as have received prizes in the horse ring; also take the hall, men exhibiting stuff that they neither manuexhibiting stuff that they neither manufacture or grow; which is all contrary to the rules. I am glad to say we are not alone, for I fully believe it is done in all shows, but that is no reason why we should follow such corrupt practises. One of the prime necessities of every organized body is a head, and upon the kind of a head—placed upon the collective shoulders of a society like ours—its success in some measure depends whether you have acted measure depends whether you have acted judicuously in crowning the edifice. It is not for me to say but I have come to this conclusion, to make a success of such work we must have honesty, purity and impartiality. Being president for the coming year I announce plainly to all whom it may concern, that I will see all law conscintillateth like a crystal palace.

nected with our rules and regulations in said society enforced, trusting that 1896 show will be the best ever neld here. A word in favor of B. Burtchaell, who is one Toronto. Some talk hard of him, saying he wins all the prizes and does nothing for the society (which is absurd). If such persons would assist and attend our meetings they would not be so keep to ridicular. ings they would not be so keen to ridicule our friend, but fall in rank with our great exhibitor and financier. If it were not for him our show would be short. Did you ever realize that he is a large man and no end to his capacity which corresponds with his donation, which amounted to only thirteen dollars for 1895. We cannot tender sufficient thanks to Mr. Burtchaell, also to Mr. Shuttleworth for five dollars. Both are well-to-do farmers. More of you fall in line. Gentlemen, on accepting the office to which vou have elected me, I office to which you have elected lie, I ought, I suppose, to protest that I lack the necessary qualifications to fill it. Such is the rule, but I decline to follow it, and I will now tell you why. In the first place, self deprecation is merely mock humility, and in the next place it would be only a and in the next place it would be only a left handed compliment to your discrimin-ation to insist that you had chosen an incompetant person. If you have made a mistake you will find it soon enough without my telling you. I leave the question to be solved by time. Meanwhile I thank

you heartily f r taking me on trust. I am proud to have inspired my friends with confidence in my executive abilities, which seems to be indicated by their vote. Two things I can promise in the performance of my duties—zeal and impartiality. I may not have much head to put into my work. not have much head to put into my work, but I shall certainly put my whole heart into it, and therefore have a claim to your

TROUBLE—HIS CASE SEEMINGLY BECAME INCURABLE.

The fact that W. H. Sherman was an old veteran of the American war, and had safely withstood its battles, did not save him from becoming a victim to stomach trouble. Disease took hold of him, and as he says himself: "I was completely run down, and lost my appetite entirely, and was a great sufferer from stomach trouble for years. I tried nearly every medicine that was on the market, but got very little, if any, relief from them. Having seen South American Nervine advertised, I obtained a bottle from the local druggist, and I felt very great relief before I had half a bottle taken. I have taken six bottles in all, and I feel like my old self again, and am very thankful, and can recommend this remedy as being a good medicine, the best I ever took.

After all there is nothing remarkable in the wonderful testimony, voluntarily furnished, by the many who have been restored to perfect health by the use of Nervine. As a remedy that gets immediately at the nerve centres, and gives attempth and health there, it is bound to care disease of any kind, and particularly troubles of a character of indigestion, nervousness and general debility.—2027

DALRYMPLE.

PROPHECY FULFILLED. - The "two horns" of an ancient prophecy seem to have made their appearance in the persons of two church officials, who are speedily usurping the sacred prerogative of the pope. Their first bull declares the school vacant on the 31st of March of this year and vetoes the further expenditure of public funds on educational pur-poses. Their next edict will no doubt pronounce the church doors closed; then, as in the days of John of o d there will be no marria es solemnized in the land, the church bails will rot in their steeples, and the Rev. Dr. - may take his departure to unknown wilds, where his preaching, no longer needed here, will be appreciated with due regard to worth.
