Miss McBrine's Experience Given for the Benefit of All Weak and Mervous Men and Women.

Spruce She Specially Recommends Paine's Celery Compound.

> Mies Minnie McBrine, of Bethany, Ont., positively declares that Paine's Celery Compound is worth its weight in gold for sick people. This statement, coming from one who was raised up to health and vice, commands the closest attention. Past failures with worthless medicines and perfect success with Paine's Celery Compound, is a strong and clear demonstration that the popular compound can be trusted in every case.
>
> Read the following letter written by Miss McBrine, and then honestly decide whether Paine's Celery Compound is worthy of a trial

The great cature of Chase's Ointment-Almost instantly it touches itching, burning, eczematic skin, relieving the pain-Is a boon to mothers whose children are sufferers - There is nothing uncertain about it or this way of speaking about it:

"My six-year-old daughter, Bella, was afflicted with eczema for 24 months, the principal seat of eruption being behind the ears. I tried almost every remedy I saw advertised, bought innumerable medicines and soaps and took the child to medical specialists in skin diseases, but without result. Finally, a week ago, I purchased a box of Dr. Chase's Ointment, and the first application showed the curative effect of the remedy. We have used only one-sixth of the box, but the change is very marked, the eruption has all disappeared and I can confidently say my child is cured. (Signed)

W. G. WOODS,

DEAR SIG.—I have much pleasure in stating that the Gurney Oxford Hot Water System which you set up in my house in the autumn of 1894 was fully what you represented it to be, and gave entire as saction. There was no dust, no smoke, no gas, no leakage, and the sir seemed pleasant and agreeable to breathe, so that no one had a cough in my house during the entire whiter. Not with standing the severity of last winter our house was so combrable that we had to go outside to find if the day was cold, while the quantity of coal consumed was only a little more than we had burned in former winters in one large coal stove with less rooms to be heated. The Furnace was easily managed, and with criticary care the temperature of the house could be kept at any decree desired. I can heatily recommend this system of heating to any one who during our Canadian winter desires to enjoy what I can best describe as "Soild Comfort," (Sgd). THOS, W. POOLE, M.D., kladsay.

Give W. G. WOODS the contract of making your life a comfort this winter.

August 21st, 1895.—1889-lv.
