A union of hearts and a union of hands A union none can sever;

And the flag, British Union, forever,"

ERRATIO MEN.

The Hamilton Spectator says :-"Nobody will be surprised at E. E Sheppard's announcement that henceforth Le can be considered a follower of Mr. Laurier. Mr. Sheppard has been every-thing by starts and nothing long."

Ability, common sense and judgment are rarely combined in one man to a marked degree. The editor of Saturday Night and the Toronto Evening Star is in many respects a very able writer. His pen is fluent and caustic. Tipped with a dash of cow-boy or wild-west recklessness and slang Mr. Sheppard's sentences are at times interesting reading.

Those who know him best admire the kind heart and keen intellect, but regret the unbalanced judgment, the vicious and revengeful temper and the inclination to bul'y by threats rather than to lead by argument and reason.

Mr. Sheppard might make a mark for good in Canada were he to recognize that al who do not choose to see as h . does on all subjects are not actuated by improper motives; and that all who de not act after his model are not traitors to good citizenship and to Canada. If he would but review his own record and note how many of his former fads, in which he was deeply concerned, and against whose opponents he was very bitter and severe, he would now condemn, is should prove a healthy object lesson to Mr. E. E. Sheppard.

'No man, not even the writer, could

profit more than the talented editor of the Teronto Star and Saturday Night by observing the precept of Bobbie Burns'

"Wad some power the giftie gie us To see oursel's as ithers see us."

"MAJOR BUGHES MUTION."

The following editorial from the Mumilton Spectator of Saturday last give in a nutshell our own views :-

"Major Hughes goes right to the root of all this school trouble, and aims a blow at the sacred "constitution" itself.
He will move for a repeal of the education clauses in the British Korth America and

blood so long as any church has any legal right whatever to teach its particular creed in 'he schools. Maj ir Hughes' motion is in the right direction. Let all creeds stand on an equal footing in Caneda, and there will be non- of this quarreling about alleged "rights."

Parliamentary Notes.

The debate on the "re-me-did-dle" bill The debate on the "re-me-did-die" bill continues every day and night except Monday. Nothing new has been elicited pro or con, only that a quieter feeling everywhere prevails.

The announcement made by Sir Charles

Tupper, baronet, on Monday night to the effect that representatives of the government would meet with the Greenway government as soon as the remedial bill shall pass its second reading. This has placed an entirely new aspect on the whole question, and many members now feel relieved. They realize that settlement is within sight without disrupting the party. It is indeed most gratifying to ind the Dominion cabinet, at the eleventh hour, still offering Manitoba every chance of settling the vexed question by friendly means without involving the federal authorities.

From all over Canada North Victoria's member is receiving letters of congratula-tion on his motion to establish national schools The debate will probably con-

tinue some days yet.

Sir Donald recently visited Manitoba days. Sir Donald recently visited Manitoba to confer with politicians regarding the Manitoba Act. In discussing his mission, he said: "I went to Winnipeg in a purely unofficial capacity, and while there discussed the school question with a view of protecting the rights of the catholic minerity. I have good reasons for believing that the legislature will find a satisfactory solution of the question. I do not anticipate that the Dominion government in Ottawa will be defeated on the issue at the present session." present session."

It rifle as the new arm for the militia. many respects the new arm resembles to Lee-Metford, but there are some differences. They are that the barrel has to Enfield form of rifling, and the foresign is further on the left to compensate for the drift of the bullet to the left. The one part special to this rifle is the barrel. At the other parts and accessories are the same as for the Lee-Metford magazing rifle. The following is a full description of the new arm:—

Two empires by the sea,
Two nations great and free,
One anthem raise.
One race of ancient fame,
One tongue, one faith, we claim
One God, whose glorious name
We love and praise.

What deeds our fathers wrought,
What battles we have fought,
Let fame record.
Now, vengeful passion cease,
Comt Victories of peace;
Nor hate, nor pride's caprice,
Unsheath the sword.

Though deep the sea, and wide,
"Twixt realm and realm its tide,
Binds strand to strand.
So be the gulf between
Gray coasts and islands green,
Great populace and Queen,
By friendship spanned.

Now may the God above Guard the dear lands we leve; Or east or west,
Let love more fervent grow
As peaceful ages go,
And strength yet stronger grow,
Blessing and blest.

THE WEATHER here for the peet month has sen doing pretty much as it pleased, snowing rining freezing, drifting etc., and all the been doing pretty much as it pleased, smowing reining freezing, drifting etc., and all the theremometers in the locality combined are seeminly unable to centrol it. But in apte of all this the heroic band employed on the government works might be seen at their post each day, and it may be seen at once that with such a gang of man under the able directorship of our able Keneday will. In the not far future, accomplish hissting and dredging on this purtion of the Trent Valley Canal, and a long felt want supplied—casy navigation as far as Balsam lake. No doubt it will then be extended through the Gall waters to points in the north country, and will prove a boen to cettlers there, who alone can appreciate the value of such an outside communication. Miles of dense forest there awatt the lumberman's axe, and to be shipped to points southeast, and its applied to be active to the sectlers pockets. Work would be made for the laboring class, for the numerous boats, and a large trade would no doubt be cervied on on this branch, not to speak of the large shipping trade which must of a certainity be done on the main canal, from points on Huron and Georgian bays. Locks should be constructed at Rosedale as early as possible so as to remove the obstacle in the way of excursion boats, which would otherwise be prying on Balsam lake and northward, where the most beautiful scenery is to be found Navigation an those waters has been hindered prying on Baleam lake and northward, where the most beautiful scenery is to be found Navigation on those waters has been hindered by the poor construction which is only an apology for locks placed in this river by the Ontario government a querter of a century age. It is to the everlastine credit and praise of the member for North Victoria that such arge grants have been made for this enterprise, and the electors who are mostly all interested will bear it in mind when called upon to mark their ballets.
