At an early hour Monday morning the house of Michael Harvey, a mill hand, was destroyed by fire. So quickly did the building ignite that the parents, who sustained terrible injuries themselves from burns, were unable to render anistance to their children. Two of the children escaped, while the younger two, little girls, were cremated in the fire. The people of Blackwater, Sunderland and district are doing all in their power to relieve the distressed family. It will be some time before they will be free from the doctors' care. ORIGHET.—The cricket season opened last Friday when those old rivals, the collegiate and the town teams met. Being the first match neither the total nor individual scores were very high. A hard cruse made both batting and bowling very uncertain. The game was decidedly close, resulting in a tie—35 runs each. Both sides fielded superbly.

HARPER'S MAGAZINE.—The taste for the pleasures of the wilderness, which is rapidly increasing in this country, will be gratified by a paper on "The Ouananiche and its Uanadian Environment." announced for publication in the Juno number of Harper's. By the employment of the name "ouananiche" the author, Mr. E. T. D. Chambers, introduces a decidedly pretty and somewhat unfamiliar word into the popular yecabulary; but it should not be inferred from this that he makes a secret of his theme or a hopeless mystery of the angler's art. Quite the contrary.

Hundreds of men are tramping the country, begging as they go, looking for work. In some cases where work is obtained rent, fuel and the necessities of lite are so high that the working man has a hard struggle to work out an existence. FIRE.—About three o'clock Wednesday morning fire broke out in the house occupied by Mr. Hadder, the merchant tailor. The house, the property of Dr. Wilson, was situated in the extreme north west, compelling the firemen to make several trips for hose. After some tall figuring and cutting across fields the firemen were enabled to throw water, but not before the house was almost totally but not before the house was almost totally destroyed. No insurance. There are several houses in that yielnity slightly, if not altogether, unprotected in case of fire, and it is altogether probable that they pay taxes for fire-protection, too.

RATHER EXCITING.—A buggy, a woman and a man, with a fondness for the weed, had an exciting time of it in the north ward Sunday evening. It appears that a man and his wife were driving into church from West his wife were driving into church from West Ops. The man was enjoying his cherished smoke and probably indulging in some dreamy visions fitting through the clouds of smoke wafted around the buggy by the evening breezes. Whatever he was doing though, he was rudely awakened to cold reality by a wild shrick from his better half. The cause of shriek from his better half. The cause of alarm was speedily apparent. A spark from the pipe had set fire to the lady's dress and had also ignited the seat. Jumping out of the rig the alarmed lady made for Mr. Cernell's house on Bond street where the fire was soon extinguished by timely friends. Returning to the buggy the rescuing party placed the vahiole out of danger. The couple returned home without any more smoking. The man with the fondness for the weed said he would be blankety-blanked if he smoked in a buggy again, and his wife said he would be sure to, if he smoked with her in his company again.

AT LAST.—An effort has at last been made AT LAST.—An effort has at last been made to patch up the north sidewalk on Kent st., leading to the Union school. This piece of walk has been in a disgraceful condition ever since spring opened, and it was just about time a move was made in this direction. More than one child, and elderly person, too, has complained of a partly sprained ankle or a wrenched foot. from getting caught in the bad holes at intervals of every foot or two. Whether patching will in any way remedy the evil, or whether a totally new sidewalk is required, remains to be seen.

Miller, Elliott and Markham acted as the Watchman battery, while Gillis and Argue looked after the collegiates' curves and catches. During the spring she had been slowly sinking and had been doctoring and taking medicines, honce the mistake. Needless to say Mrs. Henley is very much distressed over the sad accident and in her trouble she has the sympathy of the whole community.

THROWING AWAY MONEY.—The exodus of people from town on the 25th will be very large. Consequently goodly sums of money will be left with the neighboring towns. As usual Lindsay will have no big demonstration and will thereby loose a good many dollar bills. It does not seem to be in the nature of Lindsay organizations to have her own attractions and bring money into the town, rather than give it away to other places. The above is a mild thought for the various clubs and societies in town. Perhaps they may take a hint and give us something good, original and LOCAL on Dominion day or any

A Big Day,—Last Thursday was a big day for Lindsay's cattle dealer, Mr. P. Mollhargery and for a time the town possessed all the appearance of a metropolis for cattle buyers and dealers. In all Mr. Mollhargery paid out some \$13,000 for horses and cattle, the total deal filling fourteen cars. Some high prices were paid, several people receiving as high as \$68 for steers. The animals, eleven cars of cattle and three of horses, were taken to Mentreal and thence via. the Allan line of steamers to England. Thirteen young men from the town and vicinity will look after the stock on the way over, in company with the

Twenty Persons.

Epidemics of Cholera, Vellow Fever and other diseases of similar character, so terrible in their results, occasion wide spread eration for their prevention and cure, while consumption receives scarcely a thought, yet the number of their victims sinks into insignificance when compared with those of consumption. Comparatively few people know what to do for their loved ones when they see them gradually lose strength, lose color, manifest feeble vitality and emaciation, or develop a cough, with difficult breathing, or hemorrhage. Cod liver oil was for a long time given in all such cases, but the poor success attending its use coupled with its nauseating taste has led many practitioners, as well as the public at large, to place their main reliance in Dr. Pierce's Golden Medical Discovery. It deserves early attention and will prove effectual not in every case but in a large percentage of cases, and we believe that fully 98 per cent. of all cases of consumption can, if taken in the early stages of the disease, be cured with the "Discovery." Dr. Pierce does not ask people to believe until they have investigated for themselves. A great Doctor Book of 1000 pages, profusely illustrated, has been published having the names, addresses and photographs of a large number of those cured of consumption, bronchitis, lingering coughs, asthma, chronic nasal catarrh and kindred maladies which will be mailed *free* to those sending 31 cents in one - penny stamps to prepay postage and duty only. You can then write those cured and learn their experiences. The book is a veritable medical library, complete in one volume. Address for Book, World's Dispensary Medical Association, Buffalo, N. Y.

OUR MAIL.

Our mail brings us every day dozens of letters about Burdock Blood Bitters. Some

from merchants who want to buy it, some from people who want to know about it, and more from people who do know about it because they have tried it and been cured. One of them was from Mr. J. Gillan, B.A., 39 Gould Street,

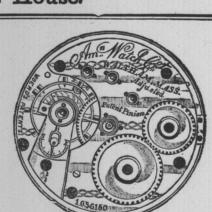

Toronto. Read how he writes: GENTLEMEN,-During the winter of 1892 my blood became impure on account of the hearty food I ate in the cold weather. Ambition, energy and success forsook me, and all my efforts were in vain. My skin became yellow, my bowels became inactive, my liver was lumpy and hard, my eyes became inflamed, my appetite was gone, and the days and nights passed in unhappiness and restlessness

For some months I tried doctors' and patent medicines of every description, but received no benefit. Being advised by a friend to try B.B.B., I am glad to have the opportunity of testifying to the marvellous result. After using three bottles I felt much better, and when the fifth bottle was finished I enjoyed health in the greatest degree, and have done so from that day up to date. Therefore I have much pleasure in recommending B. B.B. to all poor suffering humanity who suffer from impure blood, which is the beginning and seat of all diseases. J. GILLAN, B.A., 39 Gould St., Toronto.
