laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected Cocoa, Mr. Epps has provided for our breakfast and supper a delicately flavored beverage which has save use many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame." Civil Service Gazette JAMES EPPS & CO., Ltd,

THE COOK'S BEST FRIEND

implements.

ORITUARY — Miss Eliza Kaya, daughter of Mrs. Pattie of Coboconk, died at Coboconk Tauraday morai z, after a long and lingering illiness. Throughout all her painful sickness the young lady always showed the greatest patience, and by her kindly appreciation of the little friendly acts of her friends endeared herself to many. Miss Keys had many triends in Coboconk and her untimely death will be mourned by them with the deepest sorrow. In her sad bereavement Mrs. Pattie has the sympathy of the whole community to which The Warder joins with its sincere sympathy.

You note the difference in children. Some have nearly every ailment, even with the best of care. Others far more exposed pass through unharmed. Weak children will have continuous colds in winter, poor digestion in summer. They are without power to resist disease, they have no reserve strength. Scott's Emulsion of cod-liver oil, with hypophosphites, is cod-liver oil partly digested and adapted to the weaker digestions of children.

To which The Warder joins with its almost sympathy.

Menting at Oakwood.—The meeting at Oakwood on Thesday that was addressed by Sir Oliver Mowat in the interest of Mr. Geo. Mentuch, may as far as numbers are concern ed, be considered a success, yet, one that was enthusiasm. which seemed to be down nearly to zero. When the premier of Ontario arrived at Mariposa station, some say there were three of the electors of the great reform towaship of Mariposa to meet him, while towaship of Mariposa to meet him, while others say there were six Be as it may however, the four carriages leaving the station wending their way northward, looked more like a funeral procession than that of the triumphial entry of Ontario's premier into the capital of what was wont to be called the banner reform township. At the meeting in the afternoon at which reeve Lownsbrough presided, the large town hall was filled, but more than one half that were present could not here the speaker, and will have to be content with reading it in the paper, however it was mostly a repetition of the neual grit cry, corruption and extravagance, Put those wicked tories out and us in and all will be well.

CHOPS AND CHANGES

On the Trade Question as on Other Issues, He is Never Twice in the Same Place—His Inconsistencies Shown Up.

There is no cause for wonder at the downspiritedness of the Liberals. They know that more than ever before the know that more than ever before the country is with the Government. They have no confidence in their leader. John Charlton, a leading Grit M.P., is on record as saying: "With a French-Canadian leader, and under the manipulation of such unscrupulous machine politicians as J. D. Edgar et al., I have not the utmost confidence in the immediate future

of the Reform party."

The country, as in years gone by, holds just the same views. It is known that Mr. Laurier has no fixed opinion on anything, except that he wants to get into office. He began life as an out-and-out Protectionist. But he scon fell into error, and became a Free Trader. Then Mr. Blake was forced out of parliament by the Anti-Canadian policy of Sir Richard and Mr. Laurier became a shouter for unrestricted reciprocity—in other words, for handing Canada over to the Americans. He believed in protection against Great Britain and in reciprocity with the United States. A nice patriot!

Shouting for the United States. In Toronto Mr. Laurier said-amid chilling silence, it may be remarked:
"The Liberal party, so long as I have anything to do with it, will remain true to the cause of unrestricted reciprocity until that cause is successful, I will not expect to win in a day, but I am pre-pared to remain in the cool shades of Opposition until the cause has triumphed."
Now, assuming Mr. Laurier to be

truthful man, we must believe that he and his faithful lieutenants—and even the unfaithful ones, like Charlton and Cartwright—still "remain true to the cause of unrestricted reciprocity until that cause is successful."

But, only a year ago, in Winnipeg,
Mr. Laurier forgot his pledge, and came
out as a Free Trader. He preached his
new gospel in these words: "We shall
give you Free Trade, and although it
will be a hard fight, we shall not give in one inch or retrace one step until we have reached the goal, and that goal is the same policy of Free Trade as exists

reciprocity; where was Free Trade? Gone. lost, forgotten! The revenue tariff string was being twanged.

But Mr. Laurier went to Montreal. There he had to talk to the working classes. His statement there was very clear. Protection was not to be abandoned. Robbery was not to be abolished. On the contrary, duties were to be removed from raw materials, and the fraud and delusion as regards the finished products were to be continued. It stands to reason that it is impossible "to relieve the people of protection," as promised in the Eastern Township speech, and at the same time to continue protection as promised at Montreal. It is also impossiole to have a tariff for revenue only with not a cent for protection, and, concur-rently with it, a tariff exempting from duty the raw material which would necessarily be taxed under a revenue tariff and retaining the duties upon manufactured articles which made as they are. in the country, yield no revenue.

To the Right About Again. Yet another change. He harked back towards reciprocity. In Valleyfield, Que., April 12, he came out for a treaty of April 12, he came out for a treaty of reciprocity with the United States. He knows well, as every man who reads newspapers knows, that the United States will never agree to reciprocity unless we impose a discriminating tariff on Particle 12. British goods. Hon. G. W. Ross, a member of the Liberal Government of Ontario, has denounced reciprocity "because it will not be loyal to England." But that is not a consideration with Mr. Lau-rier. What he wants is Votes, Votes, Votes. And it matters not to him how he fractures the truth, how he overstep

the bounds of consistency, so long as he gets them.

Let us examine what this vacillating politician has pronounced in favor of:— He has advocated Protection.

He has pledged himself to bring about Commercial Union. (Political union would follow fast in its footsteps, ac-cording to Ed. Farrar, the writer of Grit campaign pamphlets.)

He has promised Free Trade in Winni-

He has been a shouter for unrestricted

He has declared in favor of a revenue tariff in the Eastern Townships.

And, to crown me Quebec, May 6, and told the Quebeckers that he wanted preferential trade with England. "By that," said he, "we shall have Quebec regain its pristine pros-

for every town he visits. He forgets that the people of Canada read the newspapers. On the night of June 28 he will find that they have not been deceived by him, the political whirligig.

Grand Success!

Tuesday and Thursday Bargain Days and our "Special Hour Sale" on Saturdays a howling success.

WE'LL KEEP ON AT THE GOOD

Last two Saturdays we've had trouble. Too many people to wait on. The hours for Special Prices were up before all were served. We said the prices were for those hours, and we do as we advertise—so some of our very good friends feel sore at not being able to get all they wanted at the ridiculously low prices we were asking. However, for the benefit of those unfortunates who didn't get a chance at our bargains, we'll continue the sale two
