MATRIMONIAL .- Marriage is the order of the day all around us. When does Palestine intend to fall into line?

The dyspeptic carries a dreadful load on his back. It seems as if he were really made up of two men. One of them ambitious, brainy and energetic; the other stok. listless, peevish and without force. The weak man weighs the other one down. The dyspeptic may be able to do pretty good work one day, and the next day because of some little indiscretion in eat-ing, he may be able to do nothing at all. Most cases of dyspepsia start with constipation. Constipation is the cause of nine-tenths of all human siokness. Some of its symptoms are sick and billions headache, dizziness, cour stomach, loss of appetite, foul breath, windy belchings, heartburn, pain and distress after eating. All these are indicative of derangements of the liver, stomach and bowels, and all are caused by constination. Dr. Pierce's Pleasant Pellets are the quickest, easiest and most certain ours for this condition. They are not violent in action.

PLRASANT POINT-FENELON.

Special to The Warder. ENTERTAINMENT. — The Pleasant Point school ended its term of work on Tuesday, 21. A public examination was held in the afternoon followed by a social tea between pupils, parents and friends. The examination was well attended which shows that the parents are taking an active interest in school work. After tea arrangements were completed for having an evening's entertainment. At 7 p m. the meeting was called to order and a chair-man appointed, the honor of the position failing upon Mr. James Jackson, one who proved himself worthy and capable of filling it to an identity. The building was filled to ing debentures, \$6; Ed Mark, wood to the door. There was a long programme, all by the scholars, but interest and attention were maintained throughout and it was with regret we heard the chairman announce the last piece. This school concert also ended the three years' work of the teacher, Mr. J. evening, after the programme, was made the occasion of showing the high estimation in which the teacher was held by parents and pupils. Mr. McFadyen was presented with a handsome eight day clock by Miss Ethel Kennedy in behalf of the school, and the D. McFadyen, in this section, and the same following address, read by Master Wm. Jackson

Dear Teacher, - Another year has come and gone and we are ushered upon this festive season. Mingled with the feeling of happiness which the season furnishes us, is one if sorrow for we are brought to the occasion which shall sever the ties watch have bound us together as teacher and pupils.

How swiftly have passed away the three years which you have been among us. Years of pleasure and profit, and at their close we we look back with gladness upon the days spent together. Your endeavor has been not slope to do your duty, but to do all in your power to further in every way our best interests.
It has been your constant aim to leave us with
the true education—that character which shall tend to make of our lives the very best that is

We ask you to accept this slight souvening of our love and esteem given with the prayer that the enocess which has orowned your labors in our midst may follow you into what ever vication you may be called.

When he was arrested he raved and had to be subjected to rough treatment before he could be taken to the police station. The above is only one of similar in-

cidents that are happening every day as a result of the legalized liquor traffic.

If such a fiendish and inhuman act had been reported from the Island of Caba, or from the wilds of Patagonia there would be an outburst of denuncirefuse to honor the Union Jack, or try to atton from the press and pulpit all over plorify the green flag with the golden, the land.

But there is something at home more hideous and diabolical than any of the tortures inflicted in any land and no protest raised except by a small political organization which is eneered at by the same press and pulpit, that hold up its hands in horror over the cruelties practiced abroad.

The only solution of this curious condition that we can reach is the fact that this liquor iniquity is so interwoven in our social fabric that every man's hands seem stained with its blood, and he fears to strike it, lest he strike himself.

Water Our True Beverage.

"Water is really our only true beverage," Mrs. S. T. Rorer writes in her cooking lesson in the December Ladies' Home Journal. "Forming, as it does, three quarters of the weight of the human body it is of the next importance to the air we breathe. Milk is a typical food, not a beverage, and should never be used as such. It is true that it contains a large amount of water, but only sufficient for

"In a very short time the non-water drinker becomes sallow, constipated and uncomfortabele. The poison matter that should be dissolved by the free use of water, and carried off in the circulation and through the excretory organs, is held in the system; the body loses weight, the skin becomes dry and rough, losing its life and brilliancy. Three-quarters of the weight of the living body should be water. A large quantity of this water is taken in the form of green vegetables and fruits. A healthy person should drink at least a quart and a half of cool (not iced) water in each twenty-four hours-a glass the first thing in the morning and the last thing at night, and the remaining quantity after or between meals. Intants trequently suffer more from the lack of cool water than from the lack of food.
