Harper's Bazer for February 5th is particularly rich is fashions. There is a handsome colored plate of a French walking costume; also designs for theatre and opera costumes, fancy jackets and wraps, as well as evening and reception gowns. In addition to the usual departments are hints on "Bedsteads and Bedding," a "Look shead in the garden," and a paper on "Private and public schools," by Colonel Higinson.

The story entitled "The Adventurers," by H. B. Marriott Watson, which is continued in the current number of Harper's Round Table, is sure to win for the periodical a large number of new readers. The McCallum Elegier concert on Tuesday

The McCallum Elegier concert on Tuesd made to the main body of the church, where a short programme was rendered. Rev. Mr. Macmillan took the chair, and in a brief and humorous speech indicated that the programme, although appearing to be lengthy would not be so as the speakers were limited to three minutes each. The first number was a solo by Master H. Mowat, which was heartily encored. Three minute addresses were then given by Messrs McDougall, D. Anderson, J. C. Ross, Sec. of the Y.M.C.A., solo by Miss Gross, Scotch song by Mr. A. Jackson, speech and recitation by Mr. A. Horn, speech by Messrs McNeillie, Jas. Keith, Jas. Low, Rev. Mr. McDonald, recitation by Miss King and a solo by Dr. Gillespie, liev. Mr. Macmillan announced that the open collection on Sunday, over and above open collection on Sunday, over and above what was in the envelopes, was \$174. The meeting was brought to a close by singing the doxology and pronouncing of the benediction.

On the evening of November, 28th, 1878, a fire broke out in the British ship Melanie, loaded with 500 barrels of petroleum. An awful mass of fames shot up from the main hatch and the vessel quivered from stem to stern with explosion of the barrels. Her seams opened and the blazing petroleum poured out into the river, spreading a beht of fire around her. The master and seamen jumped overboard. Captain Sharp, whose vessel was lying close-by, propelled a small boat through the blazing river and after a severe scorching and imminent peril, saved the seamen from a horrible death.

All over civilization there are thousands of men in more imminent danger than were those seamen. They are threatened with consumption or are already in the clutch of that deadly disease. If they only hnew it, help is at hand. Dr. Pierce's Golden Medical Discovery cures oß per cent. of all cases of consumption. It also cures bronchitis, asthma, throat and nassal troubles and all diseases of the air passages. It is the great blood-maker, flesh-builder, and nerve-tonic. It makes the appetite hearty, the digestion perfect and the liver active. The "Golden Medical Discovery" is the product of that eminent specialist, Dr. R. V. Pierce, who, during the thirty years that he has been chief consulting physician to the great Invalids' Hotel and Surgical Institute, at Buffalo, has treated more cases than fifty ordinary physicians treat in a lifetime. Thousands given up by doctors, have testified to complete recovery under this marvelous medicine.

Coustipation causes and aggravates many serious diseases. It is speedily cured by Dr. Pierce's Pleasant Pellets.
