Dr. Totten and Mr. Fred McDermid were in attendance at the Epworth League Convention in Peterboro last week. Mr. McDermid read a paper on the bearing of mental culture or spiritual growth, which was highly commended, while Dr. Totten, in a brief address made a decidedly favorable impression.

TO ALL WHOM IT MAY CONCERN—The year 1897 is now a matter of history; the events of that year are numbered amongst the things that were. Many promises were made during that year that were never kept, but we regret to say, from those who are indebted to us and have neglected to keep their part of the promise to pay up. To all these whose names indicate that a paper can be published on the promise to pay, we would say that they are mistaken if such is their belief, as it is merely a matter of business and cannot be successfully carried on any more than any other business enterprise unless those who are indebted pay their just debts to the publisher. One word in conclusion. We will accept a different method of collecting our outstanding accounts for subscription, during the present year than we have done in the past, and we are glad to have proved to be of any use. A word to the wise is sufficient.

The Canadian Home Journal for March, is the best number of that periodical that ever came off the press, and has never been excelled by any Canadian publication. It contains a short contribution from Hon. F. E. A. Ewart, Speaker of the Ontario Legislature, with his biography, photographs and autograph. Dr. F. H. Reynolds, Secretary of the Ontario Board of Health, one of the best known physicians in Canada, contributed the first of a series of two articles on health. Now that the election is a thing of the past, a large number of our most reliable and business politicians have called in to chat over the results. Judging from occasional facial disfigurements the election eye has evidently broken out again, and seems to have regred with extreme violence in the lower end of the nose. The "election eye" is a contagion which prevails about election time, and most frequently occurs in people of a quick and violent disposition. It is highly infectious, a simple touch sometimes sufficing to transmit it to the eye. It denotes a disorder on the part of the other man, but had blood between the two. It also denotes that somebody with more conviction than elegance has been expounding on some social or economic subject, the logic of which his friend did not conceive with that alertness which the orator considers indicative of a broad and cultivated mind. He at once proceeds to broaden the logical brain by a cutting remark. This method of developing the mental faculties has been commented on unfavorably by legislators and is severely criticized by magistrates and policemen. The symptoms which indicate an attack of "election eye" are a deranged vision which presents a vivid panorama of shooting stars, a stinging sensation in the eye, followed by pains in the head and a discoloration of the skin in the immediate neighborhood. At the same time the patient is unable to see his own face in a mirror. A prudent citizen will seize with avidity this opportunity to reply in the affirmative, loudly and distinctly, in a positive manner, intimating clearly, that such is the case, and expressing a strong desire to be left in peace in order to estimate losses; if you can also bring about an intervention of the powers that be to your advantage, intimating clearly that such is the case. By so doing disastrous consequences are frequently averted. In the event of an explanation to friends, it is well to resort to diplomacy, and inform them that you not only avoid the humiliating confession that you are an idiot, but also that you are a diplomat. A neat apology, done with neatness and dispatch will sometimes do more than a plain talk will to ward off the disaster.

From Dr. Flett's "Diagnosis and Treatment of the Eye," translated by Mr. W. B. Beckwith, formerly of Lindsay, comes over to play our outside a friendly game Monday. The Lindsay outsiders who have been signing for other teams to conquest, looked upon their advent as a wind-fall. They were met by a large crowd of spectators in their usual business-like manner. A large crowd, attracted partly by the strangers, and partly by the desire to see the Lindsay team play, assembled at the rink, and evinced great interest in the game.

The West End 3 stores are having an essay competition. The prizes are really good. The subject is on any one of these stores and something of their special advantages. On election day, a large breaking away from his high boots the shafts creating confusion among the crowds on the south side of Kent St. Taking to the sidewalk at the Simpson House, he tore madly between sweeping all before him; he was however, stopped in his flight by several men, who held him up and dragged ignominiously home.

Mr. Pusey, president of the Ironclad, Bancroft and Ottawa Railway Company was in Toronto last week and interviewed the District Agent of the G.T.R., with regard to facilitating the connection of passengers from Ironclad and Bancroft for the west, at Kinmount Junction. Passengers on the I. B. & O. now are forced to remain over night in Kinmount in order to connect with the north bound G.T.R. train. Mr. Pusey will probably be successful in having the G.T.R. co-operate with him in remedying this fault. Mr. Pusey deserves great credit for his enterprise in pushing the I. B. & O. to the point named.

Although Miss Douglas's skating last Friday night would have warranted a crowded rink, yet it was only about 100 skaters that were present. Mr. Parkin's efforts to promote ice sports in our town deserve better patronage.

We are informed on reliable authority that one of the deputy returning officers in town so far forgot his duty, as to come out at the polling booth and instead of Mr. McKay's name what voters to send for. This was a direct violation of the duties of his office, and on a par with the D.R.O. in Markham who, on a seasonably, would not allow the scrutineer of the Liberal-Conservative candidate, in the polling booth.

There were a great many tired looking gentlemen on the streets on election day, although where they procured the necessary fluid is mysterious inasmuch as the saloons are closed on that occasion. They had probably been stocking up for some days.
