In view of the present international political difficulties the following must be interesting. "How is war declared?" some one asked a statesman this week some one asked a statesman this week. "Usually by a cannon shot," was the reply. This country did go to war once by adopting a resolution. Most of the highting had begun without legislative preliminaries. The civil war opened with the firing on Fort Sumter. Just how the war with Spain will begin, if there is one, cannot be forecast from anything in the rules of Congress. It may be that war with Spain has already started. That will be known when the court of inquiry will be known when the court of inquiry on the Maine reports. If the ship was destroyed by a torpedo, that was an act of war, whether Bianco knew the torpedo was to be dragged against the bow of the ship or not. If only half a dozen Spanish officers were in the plot and towed the engine of destruction to its place, Spain has committed the evert act of war just as much as if a gun squad had wheeled one of the big guns of Morro Castle into position and sent a shell into the position and sent a shell into the maga-sine of the Maine. All that the court must do is to report to the President that the Maine did not blow up, but was blown That will mean the war has started. nole Sam must get ready to fight. The ohlp has been knocked from his shoulder. There is nothing for him to do but to come back at his enemy. If there is to be any parleying, it must come from Spatu. That country can offer defence,

Spain. That country can offer defence, explanation, or indemnity, or reparation. It Spain does nothing after the court reports that the Maine was blown up, a return blow must be struck by the United States, and as quickly as the ships can move. Such is the code of nations, as some of the best diplomats at Washington reports that the Maine was blown up, a return blow must be struck by the United States, and as quickly as the ships can move. Such is the code of nations, as some of the best diplomats at Washington understand it.

Even a man will have to admit that this young woman had solved about two-thirds of the art of making the average man happy. The other third consists of keeping his body in such condition that he will enjoy his food and his mind in such condition that he will be susceptible to flattery. It isn't much use to put tempting food before a man who hasn't an appetite. It doesn't pay to lavish smiles on a man whose nerves are racked and overworked.

The average man pays very little attention

The average man pays very little attention to his health, and won't take medicine of his own accord until he is flat on his back. A shrewd wife will keep an eye on her husband's welfare in this respect, and when she sees that he is bilious or suffering from indigestion, or is generally out of sorts, will see that he resorts to that most wonderful of all invigorators, Dr. Pierce's Golden Medical Discovery. It is the best of all appetite sharpeners, blood makers and flesh builders. It corrects all disorders of the digestion and makes the liver active and the blood pure. It tones the nerves and cures all cases of nervous exhaustion and prostration. It cures 98 per cent. of all cases of consumption, bronchial, throat and kindred ailments. Medicine dealers sell it. Mrs. Rebecca F. Gardner, of Grafton, York Co.
Va., writes; "I was so sick with dyspepsia that I could not eat anything for over four months. I thought I was going to die." I weighed only So pounds. I took two bottles of the "Golden Medical Discovery." I am now as well as ever and weigh 125 pounds."

As a former resident of the town of Lind-eay. I would not like to be without THE WARDER, as I am explore to hear how the WARDER, as I am exclose to hear how the people of the town and surrounding county are getting on in this world. We have had a very fine winter in Manitoba this year. Has not been colder than 10 or 15 below zero in the lest two months, and much of the time between zero and freezing. The farmers in this section of country are all prosperous and happy. There has not been one sheriff sale that I know of in this section this year. I sold a half section of land for \$5 000 casb. I do not farm so extensively as I need to do; am paying more attention to stock or mixed farming. If you find space in your valuable paper, you can publish this for the benefit of others. Yours truly,

THE FIRST FINE FOR BREAKING THE BICYCLE BY LAW.—Complaints have come in to the police of wheelmen riding on the side walke and the first flence against the law was brought up in the court this morning. On Friday last a well know cit zen rode his wheel to work, and tabing advantage of the sidewalk for a strip had the unpleasantness to be seen by a policeman. A charge was laid against him and at this morning's court Hagistrate Dumble showed his intention of enforcing the by-law by imposing a fine of two dollars.

Where to go to-night-Up town, Down town, Down town, Up town, HARTLEY.

Concern.—The concert held here last Friday evening under the auspices of Hartley Court I.O.F. was a decided saccess in every feature. Notwithstanding the bad condition of the roads, the hall was comfortably filled with an appreciative audience which listened with good attention to an excellent I terary programme furnished by the managing committee. Choice recitations and readings were rendered by local talent, the Scotch reading given by our worthy deputy reeve, Mr. C. N. McDonald, demanded an encore, and fortunately he was able to respond without the least hesitation. The instrumentale played by Mr. G. W. Manning were well received and reflects much credit on him as a manician. Mr. W. Tree of Islav, with Miss E. McFadden of Woodville as accompanist maintained his past record as a master of the violin. Mr. A. Millar, although master of the violin. Mr. A. Millar, although an elderly man, delighted his audience as a singer, and kindly responded to encoree each time he appeared. The duets by Miss L. Spence and Miss M. Woollard of Dunsford received a warm reception, as well as an exhibition of club-swinging given by Miss Woollard, displaying throughout the metions such freedom and grace of movement. The larger part of the concert however fell upon the shoulders of Messra. D. Gilchrist and W. Ward of Jalay. These sentlemen in their the shoulders of Messra. D. Glichrist and W. Ward of Islay. These gentlemen in their character and sentimental songs, music on all kinds of instruments from a Chinese fiddle up, captured the audience and the applanding at times was fairly deafening. Miss E McFadden acted as accompaniest throughout and the success of the concert is largely due to her. We would all like to have another privilege before less of intering to a concert, as amusing and

dition of the roads. Locals.—Snow is all gone and the indica-tions are that spring is at hand, at least judging by the number of harrows around our blacksmiths shop for repairs Mr. W. A.
