SAVE THE BABY!

Pierce's Favorite Prescription cures all weakness and disease of the delicate and important organs that sustain the burden of important organs that sustain the burden of malernity. It makes them strong, healthy, vigorous and elastic. It banishes the squeamish spells of the expectant period and makes baby's introduction to the world easy and nearly painless. It rids maternity of peril. It insures the newcomer's health and an ample supply of nourishment. It transforms sickly, nervous, fretful, despondent, childless women into healthy, happy, helpful, amiable wives and mothers. Over 00,000 women have testified to the benefits derived from this marvelous medicine. It does away with the necessity for the embarrassing examinations and local treatment upon which most physicians insist. It substitutes certainty for the doubtful treatment of obscure physicians, who seldom correctly diagnose these troubles. All medicine dealers sell it, and Dr. Pierce will cheerfully give free advice to ailing women who write him.

Firm—On Good Friday, the barn and stables of Mr. Frances Robe, about four miles south of Fencion Falls, with their contents, consisting of two horses, six cows, three calves, two pigs, buggy, cutter, harness, implements, seed grain, etc., wore totally consumed by fire. The fire originated by an emigrant boy, aged about 12 years old, amusing himself with matches in the barnward. Mr. Robe was at a neighbor's when the fire started, but before he could get home the entire buildings were a mass of flame. While endesvoring to save something from the fire, Mrs. Robe's clothing caught fire, and she wou'd have been fatally burned had not help arrived. Mr. Robe, we regret to lears, was not insured, the loss being estimated at \$1000. We learn that the neighbore promptly rendered him assesistance by contributions of seed grain and other things requisite of which he had been so suddenly deprived.

The subject is at all times an interesting one, but on this coession was made doubly so by the able manner in which the Rev. Dr. handled it. He awelt mainly on the incidents of the life of the poet and spake at some length on the influence of his life and works at the present day, and of the influences of the then current events upon his (Milton's) own life. Time, he said, would not permit him to review the works of the poet at any length. The quotations from the author were few and brief, His honor Judge Dean introduced the lecture in his own inimitable manner and at the close of the lecture Mr. Molntyre, P.
