The return match of the Lindsey and Peter-bore Y. M. C. A. 's was played last Monday evening, the score standing 18 to 8 in favor of l'eterbore. This is an improvement over their last attempt, but the Lindsey boys evidently have something yet to learn in

The early spring is proving of great assistance to the farming element. In most sections seeding is helf completed, and an early season is anticipated. It has been somewhat dry, but the rain this week will doubtless be activated.

Mesers, Manuder & Bryson, proprietors of the Victoria Flour Mills, who have been for some time contemplating extensive improve-ments in their mill, this week shut down to make the desired alterations. They expect to be running again by the let of May.

Mr. Jos. Riggs has received a semple of the "Red Bird No. 1" which has been very much admired.

Several of Lindsay's fast bioyole men rode to Beaverton and back on Sunday.

The biopoliste and other athletes are commencing to spend the fine evenings at the Agricultural Park again although the track is not yet in very good condition.

Mr. Wes, Buck who has just returned to the village near Ponetanguishene where he is teaching school is compelled to instruct the youth of his charge in the French language during the forences of every day. The section is almost exclusively French, English being speken very little if at all. This is very rare in Ontario, Indecepe and general gardening.

The Toronto Board of Trade Council has passed resolutions approving of the impossion of postage on newspapers, and favoring a reduction of the rates for earrying letters. The reduction in letter rates will cause a larger loss of revenue than the newspaper charges are likely to make up. The council seems to have let its selfishness get ahead of its judgment.—Montreal Gazette.

The pleasing information comes from Germany that the thousands of American horses imported into that country have proved us fit for cayairy purposes and have been turned into bologue succepts for the delectation of Toutonic opiourse on this side of the water.

That he wasn't the engineer?

The Times of Richmond, Virginia, speaks thus of an address recently delivered there by improtor Hughes—"The address by Mr. I mee I. Hughes, I espector of Public Schools, Peronto, Canada, was worthy, from all standpoints, of verbatin reproduction—as thoughtful, so logical and so interesting was it in opticiance and so attractive as to its delivery. Mr. Hughes is a gentleman of fine and distinguished presents and presents the madeal valor that is as talling a factor in the speaker's encouse. More than all, he is both theroughly is carnets and thoroughly master of his cation. It was a matterly and one visiting plea that his anditors will not soon forget, and he was liberally applicated. Mr. Hughes is an attractive personally as glitted mentally."

Disease weaves its web around people a little at a time. They are not dangerously ill all at once. The beginnings of illness are mere trifles. First a little indigestion, perhaps; or headaches; or an occasional bilious turn. It is hard to realize how you are being tangled up in the strands of sickness until you are fairly caught.

Nearly all serious illnesses begin with some stomach or liver trouble, or with a costive condition of the bowels. These functions have got to be put in good condition before there can be any recovery from any disease no matter what its name or nature, and it is because Dr. Pierce's Golden Medical Discovery acts directly upon the liver and digestive organs that it has such a marvelous effect upon all diseases of malnutrition. Mesers Brandon and Austin of Fension Falls shipped a car load of hogs, double decked, to the Geo. Matthews Co., Peterboro, last week.

NEW BARBER SHOP.—Mr. "Sandy" Flack opened out his new barber shop on Monday last, which includes the very latest improvements. As both Mr. Flack and his assistant Mr. "Alf" Brown are first class barbers, and both Lindsay boys, they will do a good business. The shop is opposite the Daly. House. nutrition.

It gives the digestive system power to assimilate nourishment and make good blood; it drives out billous poisons; it creates the red, vitaliaing, life-giving elements in the circulation; and builds up the weak, and wasted places in every corner of the constitution.

Taken in conjunction with Dr. Pierce's Pleasant Pellets, it relieves obstinate constitution and keeps the bowels in a perfectly natural condition.

Mrs. Ella Howell, of Derby, Perry Co., Ind., writes: "In the year of 1894 I was taken with stomach trouble—nervous dyspepsia. There was a coldness in my stomach, and a weight which seemed like a rock. Everything that I ate gave me great pain; I had a bearing on semisation; was swelled across my stomach; had a ridge around my right side, and in a short three I was bloated. I was treated by three of our bess physicians but got no relief. Then Dr. Pierce's Golden Medical Discovery was recommended to me and I got it, and commenced the use of it. I began to see a change for the better. I was so weak I could not walk across the room without assistance. I took Dr. Pierce's Golden Medical Discovery and his 'Pavorite Prescription' and one bottle of the 'Piessant Pellets.' I began to improve very fast after the use of a few bottles. The physicians who attended me said my disease was leading into consumption. I had quite a cough, and the home physician gave me up to die. I thank God that my cure is permanent." Mrs. Cleveland's New Portraits.—Mrs. Cieveland recently had a new set of photographe taken, the first time she had been photographed since leaving the White House, and has given them to Mr. Bok, with permission to publish them in The Ladies' Home Journal, where they will be published seen for the first time. The set also includes the first authoritative photographe published of the new Princeton home of the Clevelands.

The Late WM. Bletcher,—Mr. Wm. Bletcher, one of the oldest residents in Port Hope and, wellknown in Peterborough, is dead, having died on Monday last. In the early fiftles Mr Bletcher was one of the most prosperous and prominent business men in or around Port Hope. He was the proprietor of a line of daily stages that ran between Port Hope and Lindsay, and for a time he ran an opposition line of stages between Port Hope and Toronto. He was also a large contractor. He furnished all the timber used in building the first piers of the harbour at Port Hope; he had a large number of teams that connected with a steamer that ran daily during the summer between Peterborough and Bewdley. The most of the goods sold in the towns and villages to the north of Port Hope were taken over this route. For the past twenty-five or six years he has filled with satisfaction the difficult position of grain inspector for the Kingston district.

Mr. J. D. Flavelle was a delegate of the Lindsay Curling Club at the semi-annual meeting of the O C.A. in Terente on Tuesday. There was some warm discussion on the question of the entrance of professionalism into the game. It was elaimed that there were too many trophy games and not sufficient friendly games. At the recent teachers' meeting in Toronto it was suggested that the present standard to second class examinations (38°/o and 50°/o) be raised to 40°/o on each subject and 60°/o on the agregate. We hope for the sake of the students that this is not carried out.

WHIST CLUB BALL. - The ball given by

the members of the Whist Club of this place in the town hall on Friday, the 15th inst., was a successful and pretty function. The Club spared neither trouble nor expense, and the result was very pleasing to the many guests. The hall was draped with red and white bunting, from the centre of the ceiling to the corners, and around the walls in graceful folds, while pretty shaded lamps lent charm to the scene. The stage was fitted up with beautiful plants, easy chairs and rugs, and made a cosy place for the quests who did not care to dance. Most excellent music was provided by a Lindsay orchestra; indeed, praise of the music was heard on all sides. Mr. Nevison of Fenelon Falls acted as floor manager, in his courtagens and gentlemanly manner, to the with red and white bunting, from the tecus and gentlemanly manner, to the satisfaction of the many dancers. A numsatisfaction of the many dancers. A number of guests were present from Beaverton and other places. A Scheme that Falled Madrid, April 20-Via Bayonne, April

20 -There is much anger here against Great Britain, that Government having blocked a scheme which had been prepared to give the United States a tremendous scare. It was proposed that the European concert should make a big naval demon-stration in New York Harbor immediately after the presentation of their collective note, in which a warning was to be presented to the United States, Austria. Germany, France and Italy agreed to this plan, while Russia expressed a willingness to participate if Great Britain did, and not otherwise. Great Britain, after colding the matter under advisement for forty eight-hours, refused to be a party to any such demonstration, and the scheme fell through.
