serious complications. The irregularities, the burning, dragging ache, the debilitating drains that mark the progress of feminine diseases, are passed lightly over or are borne in ignorance of their cause. Their continuance means death or insanity. This is all unnecessary. So-called female weakness can be cured. It can be cured quickly and permanently, and right in the privacy of the home without the humiliating local treatment so universally insisted upon by physicians. Dr. Pierce's Favorite Prescription does this and more. It acts directly on the delicate organs concerned and makes them strong and healthy. It banishes the usual discomforts of the expectant period and makes baby's coming easy and almost painless. It tones and strengthens the nerves. At all medicine stores.

W. R. Malcolm, Esq. of Knobel, Clay Co. Ark, writes: "My wife for perhaps four months previous to the birth of our child took the 'Favorite Prescription.' This strengthened her entire system and child-birth, to her, was very easy, being attended with little pein. Our baby Ruth is thirteen months old and she has never been sick a day, not so much as had the colic; she is hearty and stout, and pretty as a picture—pretty because she is healthy, and we very much blame Dr. Pierce's family medicines for it.

We keep Dr. Pierce's Golden Medical Discovery, the 'Favorite Prescription' and 'Pleasant Pellets' in our home and use them. We have been married almost three years and I have called a physician into my family but one time—at birth of our baby."
