"NEVER  
TOO LATE  
TO MEND"

But if you want to keep your feet dry,  
don't place any reliance in such a pro-  
verb. Remember "a stitch in time  
aves nine" and not only that but it  
also saves your shoes and your pocket-  
book. Our repair department can do  
your work quicker and  
neater than you ever had  
it done before. Partic-  
ular people are the  
ones that should  
send their work to us. Parcels  
called for and delivered.

### GROCERIES

We can attend to your "grocery wants"  
in a way that will be sure to please  
you. Just a word about Coffee.

Pure Gold Coffee in 1/2 lb. lead packages  
guaranteed to please you, at 40c.  
a pound.

Java and Mocha Coffee, our own blend,  
fresh ground, 40c.

Jubilee Coffee in tins—silver plated  
spoon in each tin—35c. tin.

Cafe des Epiceurs Coffee—a French  
Coffee—excellent flavor, in glass  
jars, at 40c.

### DRY GOODS

Anything in the line of Staple Goods  
you will find here and the quality and  
prices will be "right"

### A Child's Laugh.

All the birds of heaven may sing,  
All the bells of heaven may ring,  
All the wells on earth may spring,  
All the winds on earth may bring,  
All sweet sounds together.

Sweeter far than all things heard,  
Hand of harper, tone of bird,  
Sound of woods at sundown stirred,  
Welling waters' winsome word,  
Wind in warm water.

One thing yet there is that none  
regular can sing, and ex-students  
know not well the sweetest one  
Heard of man beneath the sun.  
Hoped in heaven, hereafter.

Soft and strong and loud and light,  
Hand of sound of every light,  
Heart from morning's rooster height,  
When the soul of all delight  
Fills a child's clear laughter.

—Swainburne.

### Collegiate Alumni Association.

Interest in the Alumni Association,  
which has almost become fossilized dur-  
ing the past two or three years, was awakened  
on Monday afternoon, when an enthusiastic  
meeting of the students and ex-students  
interested in the movement was held at  
the Collegiate Institute. A new executive  
was formed, and as every one of the officers  
eligible for membership will join and keep  
in touch with the associations of their alma-  
mater. It is proposed to hold a grand union  
during the Christmas holidays. The affair  
will be on the grand scale, and as very  
many prominent men throughout the  
Dominion and across the line, old graduates  
of the school, have given assurances that  
they will be present, it will be a splendid  
advertisement for the town and school.

The election of officers resulted as follows:  
Hon. Pres. Miss J. S. Hillcock, B.A. (accl).  
Archon. Mr. J. E. Weldon, (accl).  
1st Tribune. Miss M. A. Macdonald, (accl).  
2nd Tribune. Miss M. L. Lumsden, (accl).  
3rd Tribune. Mr. C. A. Sutton, (accl).  
4th Tribune. Mr. Martin Kenner, (accl).  
Hon. Secy. Mr. E. A. Hardy, B.A. (accl).  
Fiscal Recorder. Miss Lee Taylor, (accl).  
Bard. Mr. E. J. Kelly, (accl).  
Soothsayer. Mr. W. E. Smith, (accl).  
Medicine Man. Dr. E. A. Gladman, (accl).  
Chronicle. Mr. L. Y. O'Connell, (accl).  
Pontifex Maximus. Rev. A. M. Irvine, B.A.  
Consultor Juris. Mr. Thos. Stewart.  
Fees may be forwarded to Miss Taylor or  
Mr. W. E. Smith.

### Watches For Boys.

BOYS can save a Steam-Wind Watch and Chain  
during the Summer holidays, by selling 50-  
worth of our gold and silver watches, mounted  
Boys who send to the States for goods have to pay  
postage. Write at once, stating your father's occu-  
pation, and we will mail the goods.

### A Convict Released.

THE COMPLAINTS OFFICIALS, ESPECIALLY  
CHIEF CLERK W. H. HUGHES.

Kingston Evening Times, Monday, June 27.

On Saturday last, Dr. W. Hamilton of  
Toronto, and Dr. F. P. Macdonald, a third  
year medical student at Toronto University,  
were released from the Penitentiary. It will  
be remembered that the two mentioned were  
convicted of attempted abortion, the principal  
crime being a girl named McCall, who  
charged that Macdonald had seduced Dr. Ham-  
ilton's services. Justice McMahon presided,  
and the jury after asking the court if they  
could acquit Hamilton and convict Macdonald,  
and being assured in the negative, returned  
verdict of guilty. Both men  
stoutly maintained their innocence and so did  
their friends. Dr. Hamilton was well and  
popularly known in the Queen City. He was  
formerly a physician, and this he demanded  
a new trial. Justice McMahon stated that  
he was the first instance in the prison records  
in which a person had been released by an  
innocent. An immensely large petition was  
presented in Toronto, the City and County  
Councils and the Board of Trade, and even  
the Board of Trade of Montreal endorsed it.  
Prominent men all over the country who had  
faith in the doctor added their names, and the  
case was argued at Osgoode Hall, with the  
result that the doctor was released, and both  
men were liberated after having served but  
thirteen months. They were seen at the  
British-American yesterday afternoon. Dr.  
Hamilton, who is a large and extremely  
pleasant man, looks little the worse for his  
incarceration. He has lost some flesh, but  
hopes to soon regain that. While in prison  
he was a portion of the time employed in the  
architect's office, and Eastern in the hospital.  
The other had been in the North King  
for Cleveland, and will continue his medical  
course, while the doctor took this morning's  
train for his home in Toronto. Asked if he  
intended continuing the practice of his  
profession, he replied that he might, but  
he would be obliged to wait until he had  
not been particular. During his life he has  
traveled much, and has a pretty fair idea of  
the world. While much embittered, as is  
natural, by the treatment accorded him, he  
looks lightly toward the future, and in a few  
weeks will make a trip to Nova Scotia, and be  
wedded to a young lady of that Province, who  
remained "faithful and true."

Some questions were asked the doctor as to  
the propriety of his conduct in the manage-  
ment of the prison in general. While an inmate he  
had taken matters philosophically, and viewed  
his surroundings with the object of remember-  
ing what he saw and how.

"The best speech I have referred to the  
institution" was the first general question,  
and his answer was as follows:

"In the department of engineering and in  
regard to his knowledge of applied mechanics  
he has been for many years and the posses-  
sion of the present Chief Engineer, William  
H. Derry. Everything to which he has  
turned his eye and attention has been rapidly  
and successfully improved, and in no line has  
he been so successful as in the department of  
the matter of the heating by steam and the  
lighting of the prison by electricity, both of  
which had simply before his arrival been  
neglected."

"Another year has been passing since the student  
and citizens of Lindsay last met together to  
say farewell, and as we now realize that the  
school term is ended—however glad we may  
be for holidays, and to many, holidays mean  
home—this is the last time we shall meet  
all, and, as farewell is on every lip, we  
would fain linger, if only vainly to repeat the  
words, seeking to stay the parting and still  
the lonely sigh of our hearts."

But, sad as the parting may be, it brings  
with it the promise of a brighter future, and  
abundant hope. Youth is ever buoyant, and  
"the mountains of sin, and the tempests of  
fate blowing wild" have but vague terrors  
for the young man, and the great future  
lightens many a burden, indeed, study has  
seldom been sought but pleasure led on as we  
have been, by such considerations and efficient  
guides, alike over the sunlit plains of ease,  
and the rugged mountain paths leading to  
higher glories. And, if we have often wearied  
our eyes by our tardiness, we pray them to  
forgive it now, and rest assured that some day  
we will be able more fully to appreciate their  
labors.

And if we must part from our old school  
and its associations

"Music when soft voices die,  
Vibrates in the memory—  
Odeurs when sweet violets sicken,  
Linger within the sense their quicken."  
And we feel that we take away something,  
which will ever dwell within us, and shed a  
ray of light over the darkest moments of our  
lives. We have had a glimpse of the fairy  
land of imagination, and having learned to  
love its beauty and purity, we can never pass  
where its echoes cannot follow, nor can "our  
spirits ever cease to yearn in desire to follow  
knowledge, like a sinking star, beyond the  
 utmost bound of human thought." But we  
will ever be or hope to be "strong in will,  
to strive, to seek, to find and not to yield" and  
we prefer our thanks to those who have  
taught us these things.

Often, when borne on the wings of imagina-  
tion into the dreamland of the future, we see  
familiar faces amid those who hereafter shall  
move the destinies of the nations, and often  
recognize a fellow student from the Lindsay  
Collegiate Institute. They are as bright in  
the land of dreams, why should they not be  
brighter still, in all glorious reality? We  
hope to see it fulfilled, for we have been  
taught to attribute more power to industry  
than to genius, and, if genius does not dwell  
in every soul, the power for industry does.  
Thus can the student mould his own future,  
and his own greatness.

Now, we would thank the citizens of Lin-  
dsey, as we bid them farewell, for the interest  
they have always shown in our school, and  
their pleasure in its successes, and it is to  
them, as to the people of Victoria county,  
that we are indebted for the establishment  
and maintenance of the educational institution  
whose benefits we have enjoyed. We would  
also take leave of our teachers who have  
labored so faithfully and made the years so  
pleasant for us. This time the parting is  
doubly bitter, for the school, as well as those  
leaving it must lose the esteemed services of  
two members of the staff. Yet though de-  
parted they will not be forgotten, and we wish  
them all success in the future. We say fare-  
well to Mr. Peasgood, thanking him for his  
many little kindnesses during the past  
year. Neither can we leave the broad tennis lawns  
and merry sports in the field, without a sigh  
of regret that "the days that are no more"  
might be again. Last but not least, we would  
remember Prince, the faithful, whose cheery  
bark will off resound in our ears, amid many  
sweet echoes from the happy past.

Again—farewell—for it must be—  
"These are so many words, so much to do,  
So little done, so much to be."  
And the old school would not be proud of  
one who would dare to meet life's battles  
bravely, though inclination bids us stay,  
Whispering—  
"It will grow round thee in thy place."

### Closing Exercises of the Lindsay Collegiate Institute

The Assembly hall of the Collegiate Institute  
was crowded to the doors on Friday night with  
one of Lindsay's best audiences, the occasion  
being the closing exercises of the school.  
These affairs show the deep interest taken in  
the institution and its work by not only  
Lindsay people but those from the surround-  
ing country, for not a few of the audience  
were ex-students and admirers of the school  
from different parts of the county. It was a  
pleasant affair, as everything in the school  
generally is—but more than one has remarked  
that there was an absence of that feeling of  
esprit de corps which has been characteristic  
of the school in former years, and which  
should be one of the most prominent senti-  
ments in connection with a school with such  
a splendid record as the Collegiate Institute.  
Perhaps the Alumni association, to which  
reference is made in another column, will  
remedy all this.

In that happy manner of his Mr. J. R.  
McNeill, as chairman of the school board,  
made his usual chairman's address. Mr.  
McNeill has been associated so long with the  
school board that one would consider him  
somewhat of a usurper, who would fill his  
place in the chair on these occasions. The  
piano solo of Miss Alice Flavie was of high  
class. The solo by Miss Cornelia and Miss  
Aida Sylvester, who are well known to Lin-  
dsey audiences, were well received. The  
instrumental duet by Miss Teresa Benson  
and Mr. A. S. Peikin, two ex-students and  
musical favorites, was received with such an  
ovation that an encore was necessary before  
retiring. The speaker of the evening, Mr. A.  
T. Delury, lecturer in mathematics and dean  
of residence, Toronto university, and an old  
Alma Mater, addressed the assembly on the  
"Sun." It was of a scientific nature but none  
the less interesting. The learned gentleman  
had not been speaking long before one began  
to realize what a necessity one really was in  
face of the great works of nature. The relation  
of the earth to sun, paths traveled by them,  
the distance of sun from earth, the weight or  
mass of sun, composition of the sun and  
other phases of the question were ably dis-  
cussed by Mr. Delury. In a well put speech  
Mr. McSwyn moved and Mr. J. S. Bap-  
tist seconded a vote of thanks to the speaker  
for his interesting lecture. In his reply Mr.  
Delury made reference to the noble work  
done by the Lindsay Collegiate, mentioning  
and applying the names of several  
graduates who had taken first place in the  
honor roll of Toronto university.

During the evening Mr. I. E. Weldon,  
president of the L.C.I. Alumni association,  
made a most timely reference to the  
objects and aims of the association and a plan  
it intended to carry out during the winter.

Miss M. A. Macdonald of Genarm, a clever  
student who has been in attendance at the  
school for the past few years and who  
graduates this year, read the valedictory. Miss  
Macdonald is one of the most promising  
students of the school. She has had an  
unusually bright course and much to be  
expected of her by the faculty and the  
university career. The following is the  
valedictory which was received with well  
merited applause:

"Another year has passed since the students  
and citizens of Lindsay last met together to  
say farewell, and as we now realize that the  
school term is ended—however glad we may  
be for holidays, and to many, holidays mean  
home—this is the last time we shall meet  
all, and, as farewell is on every lip, we  
would fain linger, if only vainly to repeat the  
words, seeking to stay the parting and still  
the lonely sigh of our hearts."

But, sad as the parting may be, it brings  
with it the promise of a brighter future, and  
abundant hope. Youth is ever buoyant, and  
"the mountains of sin, and the tempests of  
fate blowing wild" have but vague terrors  
for the young man, and the great future  
lightens many a burden, indeed, study has  
seldom been sought but pleasure led on as we  
have been, by such considerations and efficient  
guides, alike over the sunlit plains of ease,  
and the rugged mountain paths leading to  
higher glories. And, if we have often wearied  
our eyes by our tardiness, we pray them to  
forgive it now, and rest assured that some day  
we will be able more fully to appreciate their  
labors.

And if we must part from our old school  
and its associations

"Music when soft voices die,  
Vibrates in the memory—  
Odeurs when sweet violets sicken,  
Linger within the sense their quicken."  
And we feel that we take away something,  
which will ever dwell within us, and shed a  
ray of light over the darkest moments of our  
lives. We have had a glimpse of the fairy  
land of imagination, and having learned to  
love its beauty and purity, we can never pass  
where its echoes cannot follow, nor can "our  
spirits ever cease to yearn in desire to follow  
knowledge, like a sinking star, beyond the  
 utmost bound of human thought." But we  
will ever be or hope to be "strong in will,  
to strive, to seek, to find and not to yield" and  
we prefer our thanks to those who have  
taught us these things.

Often, when borne on the wings of imagina-  
tion into the dreamland of the future, we see  
familiar faces amid those who hereafter shall  
move the destinies of the nations, and often  
recognize a fellow student from the Lindsay  
Collegiate Institute. They are as bright in  
the land of dreams, why should they not be  
brighter still, in all glorious reality? We  
hope to see it fulfilled, for we have been  
taught to attribute more power to industry  
than to genius, and, if genius does not dwell  
in every soul, the power for industry does.  
Thus can the student mould his own future,  
and his own greatness.

Now, we would thank the citizens of Lin-  
dsey, as we bid them farewell, for the interest  
they have always shown in our school, and  
their pleasure in its successes, and it is to  
them, as to the people of Victoria county,  
that we are indebted for the establishment  
and maintenance of the educational institution  
whose benefits we have enjoyed. We would  
also take leave of our teachers who have  
labored so faithfully and made the years so  
pleasant for us. This time the parting is  
doubly bitter, for the school, as well as those  
leaving it must lose the esteemed services of  
two members of the staff. Yet though de-  
parted they will not be forgotten, and we wish  
them all success in the future. We say fare-  
well to Mr. Peasgood, thanking him for his  
many little kindnesses during the past  
year. Neither can we leave the broad tennis lawns  
and merry sports in the field, without a sigh  
of regret that "the days that are no more"  
might be again. Last but not least, we would  
remember Prince, the faithful, whose cheery  
bark will off resound in our ears, amid many  
sweet echoes from the happy past.

Again—farewell—for it must be—  
"These are so many words, so much to do,  
So little done, so much to be."  
And the old school would not be proud of  
one who would dare to meet life's battles  
bravely, though inclination bids us stay,  
Whispering—  
"It will grow round thee in thy place."

### Bicycle Notes.

At a meeting of the bicycle club last week  
a committee was formed composed of prominent  
members of the club, for the purpose of in-  
vestigating into cases where bicyclists need-  
lessly ride on the sidewalks, or abuse their  
privileges in any way. The club proposes to  
present such offenders.

Yesterday afternoon, Thursday, quite a  
number of wheelmen from Oshawa, Beaverton,  
Cannington and other neighboring places  
raced down enroute to Peterborough. They  
took in the bicycle club moonlight to Sturgeon  
Point in the evening. It is the intention of  
the visiting wheelmen, accompanied by the  
Lindsay men to leave town early this morning  
and picking up the Oshawa boys to make a  
triumphal entry into Peterborough.

### The Weather.

Report for the week ending Saturday night,  
June 25, 1898, from Lindsay observatory.

TEMPERATURE.

Highest..... 81°.00..... Saturday  
Lowest..... 49°.00..... Thursday  
Wednesday, max. 71°.25..... Saturday  
Cold..... 55°.00..... Tuesday  
The week " 62°.55

PRECIPITATION IN INCHES.

Greatest fall of rain in 1 day, 0.82..... Saturday  
Total rain fall, 1.05

THOS. BRILL.

The quantity of rain which fell last Sat-  
urday evening, commencing a few minutes after  
8 o'clock was very unusual. About a half  
an inch fell in ten minutes. On putting it in  
another way, something over 50 cents worth  
was deposited on each acre in that time. Such  
rain continuing for 24 hours would have  
covered the land six feet deep. T.B.

### To Cure a Cold in One Day

Take Laxative Broom Quinine Tablets. All  
Druggists refund the money if it fails to  
Cure. 25c.—33-39

### Obituary.

A sudden death occurred at Downsville on  
Thursday evening of last week. Mrs. James  
Houlahan was preparing the family supper  
when she suddenly fell back in a chair and  
before anyone had hastened to her assistance,  
expired. She leaves a husband and family.

### Lindsay Cheese Board.

The Lindsay cheese board met in the coun-  
cil chamber on Monday morning. Mr.  
Whitton secured the bulk of the cheese at 7  
cts. Several of the other factories decided to  
hold over till the next meeting. The follow-  
ing factories boarded cheese—

### Military Notes.

The following regulation defining the cloth-  
ing to be worn by officers has been issued:—

INFANTRY.

1. Both the scarlet serge for parade in  
Marching and Drill Order, and the blue serge  
patrol takes the place of the blue cloth patrol  
now no longer worn.

2. The blue serge patrol is not to be worn  
on parade, but for duties in barracks and  
walking out where the cloth patrol used to be  
worn.

3. They must have scarlet serge, but the  
old cloth patrol may be obtained till the end  
of the year 1898, for non-parade duties.

4. Each worn only with tunic with serge  
when on ordinary duty.

5. The tunic is worn with great and  
scarlet serge patrol.

6. Review Order—Tunic, full dress head  
dress, white gloves.

7. Marching Order—Full dress head dress,  
scarlet serge, brown gaiters, haversack, great  
coat or cape.
