SKINNER'S Balsam

OF ANISEED

Will Cure

THAT HACKING COUGH

Sold by all Druggists

Another Testimony

CHARLESTVILLE.

Having used Skinner's Balsam of Aniseed, I have no hesitation in saying it is the best remedy for Colds, Coughs and Bronchitis, and found it especially good in Whooping Cough.

MRS. G. STEPHENSON.

The Victoria Warder

FRIDAY, AUGUST 19, 1898.

The Poor of London.

London, Aug. 5.—An interesting piece of news has just transpired. Ten days ago, Sir Thomas Lipton visited Marlborough House and presented the Princess of Wales with a cheque for £100,000, to start dining rooms in London at which working people may secure substantial meals for from two to eight cents. There will be a central dining room, capable of accommodating two thousand people simultaneously. It is expected that from eight to ten thousand dinners will be served there daily. Trustees, of which the Princess of Wales will be one, will shortly be appointed to manage the project, which will be known as the 'Alexandra Trust.'

Sale of Firearms.

Following is the law regarding the sale to minors of firearms or ammunition. See 56 R S O says:—

Everyone is guilty of an offence and liable on summary conviction to a penalty not exceeding fifty dollars, who sells or gives any pistol or air gun or any ammunition therefor, to a minor under the age of sixteen years, unless he establishes to the satisfaction of the justice before whom he is charged that he used reasonable diligence in endeavoring to ascertain the age of the minor before making such sale or gift, and that he had good reason to believe that such minor was not under the age of sixteen.

Every one is guilty of an offence and liable on summary conviction to a penalty not exceeding twenty-five dollars who sells any pistol or air gun without keeping a record of such sale, the date thereof, and the name of the purchaser and of the maker's name, or other mark by which such arm may be identified.

Latest News Notes.

The United States terms of peace have been accepted by Spain and it is now only a matter of a few days until the war is ended. The war has lasted about four months.

Relations between Russia and Great Britain, which have been strained for the past two years have now come to a crisis and the situation is so grave that the only pacific solution is for one or the other power is to climb down publicly. The trouble is about the contract which the Chinese Government was about to sign with the Hong Kong and Shanghai Bank for a loan to extend the railway to New Chwang, secured on the railway itself.

As an evidence of the fact that Great Britain appreciates the gravity of the situation with Russia the Associated Press learns that the Admiralty is preparing for all emergencies and that it will soon be ready to mobilize the entire fleet at the shortest notice. Every officer and man on furlough or on halfpay has been assigned to a ship and instructed to be in readiness to join at the earliest moment possible after being notified to do so.

Wolseley and the Troopers.

An incident happened some years ago in the cafe of a restaurant of rather good class in the city of Dublin, which is an apt illustration of how a gentleman can place himself on a footing of equality with an inferior in station without sacrificing his dignity. At that time, and probably the same narrow minded spirit and ultra snobbishness exists there still, it was the habit for the proprietors of the better class barrooms to refuse to serve drinks to private soldiers. It was immaterial how well behaved they might be or how they might rank as noncommissioned officers, the rule was inflexible.

On the occasion referred to two finely set up men of a dragoon regiment, both wearing long service stripes and the chevrons of troop sergeant, entered this place, and approaching the bar, asked for drinks. They were refused rather curtly. They said nothing, but, turning on their heels, prepared to leave. The fine appearance of the two men had attracted the attention of the guests, among whom were three or four who were sitting together quietly smoking at one of the tables. The men had almost reached the door when one of the smokers arose, calling out sharply, "Halt!"

The habit of obedience to the command caused the soldiers to stop, although they did not acknowledge the right to be halted by any one in civilian clothes. The man who had been smoking walked up to the bar and said to the attendant:

"I can purchase what drink I require here, I suppose?"

"Yes, sir," replied the man.

"Then immediately serve these two gentlemen (emphasizing the word) with whatever they demand."

Turning to the soldiers, he said: "Gentlemen, will you drink with me?"

"With pleasure, sir," said one, replying for both. They drank together, and when the soldiers were about leaving one of them, turning to the man in civilian clothes, said:

"Excuse me, sir, but we should like to know the name of the gentleman to whom we owe this courtesy."

The man smiled, "Certainly. My name is Wolseley—Colonel Wolseley."

In a trice two pair of heels came together with a click, and two left arms were brought up with precession to a salute, which Wolseley as formally returned. He turned away with a smile, and as the two sergeants marched out an outburst of hand claps testified to the cordial appreciation of every witness of the scene. That was a good many years ago. Wolseley had a capital war record even then, but he has since seen much service and is now better known to the world as Viscount Wolseley, commander in chief of the English army.—Philadelphia Times.

Buy at Home.

A gentleman who knows whereof he speaks tells the Packet that Toronto dealers count regularly upon unloading all their out-of-date and worthless stocks upon verdant visitors during the big Industrial fair. This is particularly true of the dry goods men, who bring into view and pile upon counters and tables tons of superannuated truck, which can be sold only to buyers who confidingly believe that everything bought in a big city must be fresh and cheap, or do their shopping in such a hurry that there is no time for proper inspection. We trust readers of the Packet who go to Toronto this year will be on their guard; or, better still, sensibly make up their minds to leave their money at home, where its expenditure will, both directly and indirectly, be of more benefit to them.

The above is clipped from the Orillia Packet. It can be read with advantage by Lindsay people. There is no doubt that every year many people from this vicinity take advantage of the cheap rates to go to Toronto in order to make as they suppose cheap bargains at the departmental stores. Lindsay can boast of more up-to-date, modern, and well stocked stores than most towns in the Dominion. A home merchant will not try to get ahead of a customer as a Toronto merchant will. In the case of the former, his whole success in life depends on suiting his customers. The latter can afford to misrepresent his wares as he will always find a sufficient number of gullable people to make his business a profitable one. The merchant in your community spends money with you and in many ways you are more or less indebted to him financially, therefore if you have a dollar to spend do not pass him by. Money left in your own town will benefit you more than money circulated in Toronto.

Hagyard's Pectoral Balsam has no superior for Coughs, Colds, throat and lung troubles of young or old. Pleasant to take. Price 25c.—61-2.

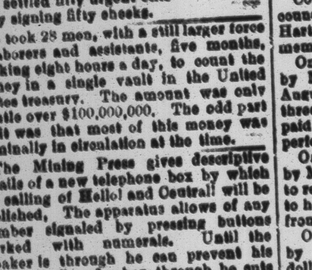
Items of Interest.

"What's in a name?" I always sneered
Till father donned his specs
And settled fifty urgent bills
By signing fifty checks.

It took 28 men, with a still larger force of laborers and assistants, five months, working eight hours a day, to count the money in a single vault in the United States treasury. The amount was only a little over $100,000,000. The odd part of it was that most of this money was nominally in circulation at the time.

The Mining Press gives descriptive details of a new telephone box by which the calling of Hello! and Central! will be abolished. The apparatus allows of any number signaled by pressing buttons marked with numerals. Until the speaker is through he can prevent his being cut off, and when through he cuts himself off without any action by the central operator. Such an apparatus would be a great improvement by expediting connections and making telephoning a quieter operation.

"The papers ought to educate wheelmen and women to keep to the right of the road," said a bicyclist the other day. "The present system of dodging from one side of the road to the other, passing now on one side and now on the other, is both annoying and dangerous. Ladies are the worst sinners in this respect. One can never tell on which side they intend to pass, and it often takes presence of mind and quick manœuvring to avoid a collision. Matters are made worse when they get a little nervous, and let their wheels wobble till they take up the whole road. All this might be avoided if bicyclists would but remember to keep to the right in passing. The wisdom of adhering to the rule of the road must be manifest to everyone, and every wheelman ought to cultivate the practice of turning to the right until it becomes second nature with him. This, like good roads, is a matter which the C.W.A. might with propriety take up. If pedestrians could be persuaded to observe the same rule it would prevent many of the embarrassing little scenes often witnessed in our streets, where people stand rocking from side to side, and end by rushing into one another's arms.



SICK HEADACHE

Positively cured by these Little Pills.

They also relieve Distress from Dyspepsia, Indigestion and Too Hearty Eating. A perfect remedy for Dizziness, Nausea, Drowsiness, Bad Taste in the Mouth, Coated Tongue Pain in the Side, TORPID LIVER. They Regulate the Bowels. Purely Vegetable.

Small Pill. Small Dose. Small Price.

SOMERVILLE.

Coboconk, August 6th, 1898.

Council Proceedings.—Council met pursuant to adjournment, present Messrs. Stewart Griffin, Callan and Burtchall. Deputy reeve Stewart in the chair.

The minutes of the last meeting were read and confirmed. Mr. Craig entered and took his seat.

Moved by Mr. Griffin, seconded by Mr. Burtchall, that the reeve and Mr. Stewart be commissioners to get new flooring put on the bridge on the Kinmount road near Mr. W. Lamb's. Flooring to be of cedar 6 inches thick; the contract to be let by tender.—Carried.

Mr. John Cobble addressed the council re arrears of taxes. Moved by Mr. Stewart, seconded by Mr. Burtchall that the arrears of taxes charged against S hf lot No. 16 in the 1st. concession be remitted.—Carried.

Moved by Mr. Stewart, seconded by Mr. Burtchall that the reeve let a contract of filling in, and of building a culvert at the creek on the Kinmount road on lot No 7 con. 9—or of making a road around whichever he may find can be done for the least money.—Carried.

Mr. Winslow addressed the council claiming damages for injuries which he claims were caused by a defect in a bridge in this township.

Moved by Mr. Callan, seconded by Mr. Burtchall that Mr. Winslow's claim be not entertained without further information.—Carried.

Moved by Mr. Burtchall, seconded by Mr. Stewart that fifteen dollars be expended on the Lutterworth road and that Silas Obrien be a commissioner to expend the same.—Carried.

Moved by Mr. Stewart, seconded by Mr. Griffin that the following accounts be paid:—James Wakelin, repairing bridges on the Monck road $3.25; C. McMahon putting culvert on the Bobcaygeon road, Galway having paid a like amount, $4.00; M. H. Revell plank and cedar for sidewalks $29 25; Mrs. McMahon, keep of A. McNeil 3 months $13.65; S. Saddaby 5 steel scrapers $40 00. S. Saddrby drawing deed of right of way $1.00; H. Doughty goods supplied to W. Badgerow, charity $7 34; H. Houghty wire nails for sidewalks $2 85; Alex. Morrison work on Orego's creek bridge $3 00.—Carried.

Moved by Mr. Griffin, seconded by Mr. Burtchall that the reeve instruct Mr. J. Wakelin to repair the bridge on the Monck road lot No. 4 con, A. not to exceed an expenditure of $60.00.—Carried.

Moved by Mr. Griffin seconded by Mr. Stewart that David Johnston be given a contract to make a road on Wate street so as to provide a means of ingress and egress to lot D in the village of Cobocouk. —Carried.

On motion of Mr. Stewart seconded by Mr. Burtchall the council adjourned to meet at Burnt River on Saturday September the 18th.

ELDON

Council Proceedings.—The township council of E'don held a meeting at Hartley on the 5th day of August. The members were all present.

On motion of Mr. McDonald seconded by Mr. Vanstone, it was directed that Augus McCallum be refunded the sum of three dollars, statute labor commutation paid by him, the work having been performed.

On motion of Mr. McPherson seconded by Mr. Vanstone, the clerk was instructed to request the council of Thorah township to have the municipal drain cleaned out from the townline to its outlet in Thorah.

On motion of Mr. Vanstone seconded by Mr. McPherson, the sum of fifty dollars was granted to supplement a like sum from each of the corporations of the county of Victoria, the county of Ontario and the township of Thorah, for cutting down Smith's hill on townline between Eldon and Thorah opposite to lot 12, Eldon.

On motion of Mr. McDonald seconded by Mr. McPherson, the following accounts were passed:—J E Dixon for maintenance of Donald McKay, $12; J E Dixon for clothes for Donald McKay, $7; Municipal World, blank forms, $1 54; G Ashman, on account, salary as constable, $5; P McGuire, rent of room for council meeting, $1.50; A McFadyen for gravel, $4.60; D D McArthur for gravel, $19 47; Angus McDonald for gravel, $17 34; Abraham Webster for gravel, $1 52; William Gilchrist for gravel, $6 56; Ronald Bell, Jr., for gravel, $2.40.

At this stage in the proceedings Mr. Stoddart of Woodville addressed the council claiming compensation for damages to his hearse which was overturned and broken in driving down Forman's hill on third sideline of Eldon, owing, it was alleged to want of proper repair of the road. Mr. Staback of Woodville also addressed the council in support of Mr. Stoddart's claim.

The question of the liability of the corporation for damages was discussed at some length. Several of the members of council who were eyewitnesses of the accident expressed the opinion that the accident was in a great measure owing to other causes than the state of the road. The council on the whole, while expressing sympathy with Mr. Stoddart at the loss he sustained, were of opinion that the corporation was not liable for damages but at the suggestion of Mr. Staback the matter was left over for final disposal until next meeting of council.

On motion of Mr. McDonald seconded by Mr. McPherson, the sum of $23, being unexpended money appropriated for roads in 1897, was re voted to be expended on Ward No. 2, and Mr. Vanstone was appointed commissioner to expend the same.

On motion of Mr. Ross seconded by Mr. Vanstone, special grants of $20 each was voted for Wards No. 2 and 3, Mr. Ross to expend the money in Ward No. 2 and Mr. McDonald in Ward No. 3.

On motion of Mr. McDonald seconded by Mr. McPherson, Peter Morrison was reappointed collector for year 1898 at the salary of $60.

On motion of Mr. McDonald seconded by Mr. McPherson, the sum of four dollars was directed to be paid to the reeve, his expenses in attending the conference respecting the Trent Valley canal held at Peterboro.

On motion of Mr. McPherson, seconded by Mr. Vanstone, the sum of $1 each was directed to be paid to the reeve deputy-reeve and councillors McPherson and Vanstone for inspecting the bridge on 10th concession at lot No. 1.

On motion of Mr. McDonald, seconded by Mr. McPherson, the statute labor commutation money paid by the Grand Trunk Railway Co'y in year 1897, amounting to $12 was directed to be expended on roads at Lorneville, Mr. Vanstone to be commissioner to expend the same.

By-laws were duly passed directing the levy of township rates amounting to $8.25 on a rate of 10 7 mills in the dollar on the assessed property of the township, and also for the trustees' school rates.

A by-law was also passed authorizing the reeve and treasurer to borrow $400 to meet the current expenditure of the corporation until the taxes are paid.

The council then adjourned to meet again at Bolsover on the 8th day of October next.

The Ward System to Go.

The following article is from the Municipal World and will be read with interest:—The amendments to the Municipal Act, passed at last session, sections 3 & 4 of chapter 28, 61 Vic., refer to election of township and village councils. These sections contain but few words, and their importance cannot be understood until sections 72 and 73 of chap. 223, R.SO. are referred to and read with the amendments. Section 73 reads as follows:

TOWNSHIPS AND VILLAGES.

The council of every township shall consist of one reeve, who shall be the head thereof, and four councillors who shall be elected by a general vote.

And precisely the same words apply to villages under section 72:

Every village is to have its reeve, and the election of its four councillors is to be by a "general vote"—which means no wards.

TOWNS.

The council of every town having a population of not more than 5,000 by the last Canadian census, shall consist of a mayor, who shall be the head thereof and of six councillors to be elected by a general vote. 61 Vic., chap. 28, section 2.

The council of any town having a population of more than 5,000, and of any city having a population of 15,000 or less, may by a by-law provide that the council of such a town or city shall be composed of a mayor and of one alderman for each 1,000 of population, to be elected by general vote; but such by-law must be submitted to a vote of the electors before it can come into force. 61 Vic., chap. 28, section 2.

In Peterboro and Chatham the ratepayers have already decided to abolish the ward system, and other towns and cities are considering the matter. This system has been a great bane of municipal government in the past. There is no inducement to the ward member to interest himself in the general affairs of his municipality. The idea of a council elected irrespective of ward divisions is the correct one. It enlarges the constituency of the councillor and calls for a wider application of his influence.

The Citizen and Country, published in Toronto, in a recent issue refers to this question and states:

Whilst the abolition of the wards is a large step towards a reasonable and proper system of voting, yet it is only a step. Those who earnestly desire really good government will be bitterly disappointed if they rely on the mere abolition of the wards to bring about that result.

In abolishing wards the Legislature have taken a wise course, and the result will be better municipal government. A further improvement would be to extend the terms for which municipal councillors are elected. Under the present system councillors do not have an opportunity of becoming thoroughly acquainted with their duties as municipal officers, which is necessary to the proper performance of the same in an economical manner. This could easily be remedied by election for a term of years. School trustees are kept in office for three years, and retire in rotation, the result being that experienced men always form the majority. In townships and villages if a reeve and one councillor were elected each year, the councillors retiring in rotation, experienced men would always be found at the council board. Municipal office would then be accepted by some of our most capable citizens who object to the necessity for annual re-election. A new member would have men of experience to advise him, and an economical management of every department of the municipal service would be the result.

The subjoined is an unsolicited testimonial which Dr. Poole kindly handed me a few days ago. [Read it.]

W. G. WOODS,

Dear Sir,—I have much pleasure in stating that the Gurney Oxford Hot Water System [which] set up in my house in the autumn of 1894 was fully what you represented it to be, and gave entire satisfaction. There was no dust, no smoke, no gas, no leakage, and the air seemed pleasant and agreeable, so that no one had a cough in my house during the entire winter. Notwithstanding the severity of last winter our house was so comfortable that we had to go outside to find if the day was cold, and the quantity of coal consumed was only a little more than we had burned in former winters in one stove with less rooms to be heated. The Furnace was easily managed, and with ordinary care the temperature of the house could be kept at any degree desired. I can heartily recommend this system of heating to any one who during our Canadian winter desires to enjoy what I can best describe as "Solid Comfort."

(Sgd). THOS. W. POOLE, M.D., [illegible]

Give W. G. WOODS the contract of making your life a comfort this winter.

August 21st, 1895.—1839-1y.
