As the 9.10 evening train was pulling out for Liadsey the other evening an accident occurred, which under other discumstances might have been fraught with serious results. The train was just pulling around the bend past Whyte's pond, when the driving rod of the locomotive broke. The two figing ends acted as a powerful brake and brought the train to a standstill almost immediately, tearing up the ground and cutting off the ends of a number of the ties as they rapidly revolved. After the train came to a standstill, temporary repairs were effected and a return made to the station to procure another engine.

There was a large congregation present at the Cambridge st Methodist church on Sunday evening last when the Rev. Mr. Manning spoke re the foot note in the discipline of the church which is an addenda to the Wesley discipline and prohibits all members of the methodist church from taking part in or attending theatres, dancing parties, horse races etc. The foot note had been put there twelve years ago. The speaker contended that it was un-Methoitions of the church. He thought that questionable matters such as this should be left to the individual consciences of of each member. No one had a very second be left to the individual consciences of of each member. No one had any right to say that these things were sinful unless he could point out where the sin lay. While he did not believe that the church had any right to prohibit its members from taking part in these things yet he was in sympathy with the motion. He went on to show the evil associations that surrounded the theatre, the ball room and the race covers and said that if one could not in.

course and said that if one could not in-dulge in these things without coming in contact with these surroundings they should be left alone. A note from Mr. T. MacKay, crown land agent at Parry Sound intimates that free grant lands are still to be had in that district, a few miles north from the town, with privilegelof pre-emption of additional land. Work upon the James Bay railway will probably begin in March next and the ninety miles to Sudbury is expected to be completed within a year.
