

The Most Economical House Warmer

The "Kelsey" Corrugated Warm Air Generator.

Any ordinary Hot Air Furnace will produce heat if you will only supply enough fuel. It has several special and valuable features but the most important is that it gives more heat with less fuel and is the most durable heater ever constructed.

The "Kelsey" has three times the capacity than an ordinary furnace. The "Kelsey" heats every room evenly, whereas ordinary furnaces heat only the room in which they are placed.

COUNCIL PROCEEDINGS.—The village council met on 27th July in the town hall. The report in the chair. Minutes of last meeting read and confirmed.

The Question Answered.

The Reason Why Some Dealers Sell Poor Dyes.

Many ladies who have been deceived by the imitation dyes so often sold by some dealers and druggists, ask the question: "Why will these merchants persist in selling us dyes that are positively worthless?"

This question is easily answered. The dealers who sell these common dyes do so for a very selfish object—big profits.

Dealers know well that the Diamond Dyes are the only true and warranted colors, but the loss of gain is too great to allow them to treat the public honestly.

The ladies can soon compel dealers to do what is honest and right if they insist every time upon getting the Diamond Dyes. You can always find one dealer in your town that is anxious to sell dyes that will give entire satisfaction.
