Autumn.

Shorter and shorter now the twilight clips The days as through the sunset gates they And summer from her golden collar slips And strays through stubble-fields, and

moans aloud. Save when by fits the warmer air deceives, And stealing hopeful to some sheltered She lies on pillows of the yellow leaves, And tries the old times over for an hour.

Seeds of Kindness.

If you have a friend worth loving. Love him. Yes, and let him know That you love, ere life's evening Tinge his brow with sunset glow. Why shou'd good words ne'er be said Of a friend till he is dead?

If you hear a song that thrills you, Sung by any child of song. Praise it. Do not let the singer Wait deserved praises long. Why should one who thrills your heart Lack the joy you may impart!

If you hear a prayer that moves you By its humble, pleading tone, Join it. Do not let the seeker Bow before his God alone, Why should not your brothe share The strength of "two or the in in prayer?

If you see the hot tears falling From a brother's weeping eyes, Share them, and by kindly sharing Own your kinship with the skies. Why should anyone be glad When a brother's heart is sad?

If a silvery laugh goes rippling Through the sunshine on his face, Share it. 'Tis the wise man's saying-For both grief and joy a place. There's health and goodne In which an honest laugh has birth.

If your work is made more easy By a triendly helping, hand, Say sc. Speak out brave and truly, Era the darkness veil the isnd Should a brother workman dear Falter for a word of cheer?

Soutter thus your seeds of kindness, All enriching as you go, Leave them. Trust the harvest Giver, He will make each seed to grow, So until the happy end Your life shall never lack a friend.

THE other day two unknown young men tor of the North Star hotel, who gave them dinner and used them in a most gentlemanly manner. Mr. McLachlan then left the ba for a few minutes and when he returned he received a lesson in the baseness of human also a huge bottle of Seagram. We ask the enjoyment. The amount realized from nature, for his noble guests had departed and reader to form his own opinion of this act and of the two nonenties who could stoop so low as to be guilty of it. Probably (for such is the conceit of a depraved mind) the perpet rators imagine that they accomplished a sharp or olever action, but looking at it from brutat thanklessness and disgusting imposition. It was no credit to two strong able bodied men to be idle, to be penniless, to beg main. talkance from the charity of others. It was no boast to be so fond of liquor that they had to steal it, and to thieve from a man who has extended the right hand of fellowship, shows an intellect depraved beyond the ordinary. It is said that the days of chivalry and grand unselfish acts, have gone, but when we hear of deeds like this we know that the days of cowardly, victous, scoundrels yet remain. and their like souls could not be gathered up of our streets and putters, and the whole

MONEY SAVERS

For Families Who Desire to Economize

Diamond Dyes the Agents.

It would require many large volumes to give a complete record of all the strong testimonial letters written by the women of the country in favor of Diamond Dres. These indispensable aids in good every week, and once tried, they become out. permanent home favorites.

Just think of it! One package of Diamond Dye will color from one to six pounds of goods, according to shade desired. This is wonderful work when the small expense is considered. Your last year's jacket, suit, cape,

dress, and your husband's suit and children's clothes may be soiled, faded and uneightly; but with a ten cent package of Diamond Dyes you can work wonders. and make the old things look like new for this season's wear.

Have you ever tried this work with Diamond Dyes? One effort in this direction of true economy will convince you that Diamond Dyes are money savers to the family.

Thanksgiving Day.

Representations have been laid before council from the Montreal board of trade to the effect that the practice of fixing the third Thursday in November as thanksgiving day works detrimentally to trade. It particularly effects the forwarding trade, whose representatives point out that navigation is not over by the third Thursday in November, and the absence for a whole day of the man from the absence for a whole day of the men from the canals is an injury to trade at a time when even Sunday is not excepted from work. The government have therefore been asked to proclaim the fourth Thursday in November as thanksgiving day. The only objection to this is that the fourth Thursday is also the day set apart in the United States, and the assimit apert in the United States, and the assimi-lation of thanksgivings for a bountiful harvest and other blessings might not be acceptable at the seat of meroy. The government may set aside a day for considering this grave international point.

How many young men and young women are out off just as the future seems brightest and fullest of promise! They are taken away by the disease which causes over one sixth of all deaths in the world—the disease which the doctors call consumption. There is absolutely no reason in the world why consumption should be fatal—why it should be even serious. It is a disease of the blood, and can be cured absolutely and always by purifying and enriching the bleed. The only exception to this is the case where the disease has been neglected and improperly treated until it is stronger than the body-until the body has become so weak as to have lost the ability to recuperate. Dr. Pierce, Golden Medical Discovery will cure 98 per, cent, cf all cases of consumption if used according to directions. It also cures all lingering coughs, bronchial and throat affections.

Is Hanging Becoming Unpopular

It a person has a burning desire to murder anyone, all that is necessary to do new is to lure the intended victim into the Parry Sound district and then carry out his murderous designs. If the murderer happens to get caught all he has to do is to play the insane dodge and he will escape hanging. There never was a murderer that more richly deserved the vengeance of the law than Hanson does. It is remarkable that within the past few weeks two murderers-Kearney of Lindsay and now Hanson, robbery apparently being the incentive in both cases—have had their sentences commuted to imprisonment for life, and both apparently for the same causeunsound mind.

J. D. McLeod of Leith, Ont., says:-"I have been a victim of rheumati seven years—confined to my bed for months at a time; unable to turn myself. Have been treated by many physicians without any benefit. I had no faith in theumatic cures I saw advertised, but my wife induced me to get a bottle of South American Rheumatic cure from Mr. Taylor, druggist, in Owen Sound.
At that time I was in agony with pain.
Inside of 12 hours after I had taken the first dose the pain had all left me. I continued until I had used three bottles, and I now consider myself completely cured.

We still regard him some what in that way, but nowadays he dodges there was not standing room in the our missile, and not only goes on thinking as before, but presumes to talk back at us. When we reproach bim he tells us that property in England is more secure than here; that the laws are better enforced; that better order is kept; that the standard of honesty is higher and better lived up to, and other such things. He usually knows where our shoe pinches, both from experience and because he reads the American newspapers, which certainly make no effort to hide the national sins or extenuate our shortcomings. So also he knows to some ex tent the American people, though not so thoroughly but that he is always ready to exaggerate their faults and min mize their virtues. The Terrible Freemasons.

Moneieur Tardivel is the publisher and editor of a Quebec French paper called La Verite, or Truth. Now M. Tardivel believes that Truth should never shrink from grappling with every form of evil, and that is why he is saying such terrible things about the freemasons in his paper. He is quite sure that the masonic fraternity is a league, of which satan is the head, formed for the express purpose of waging war upon the catholic church and undermining the christian religion. He admits that free masons seem to live good moral lives and to perform the duties of knows better. Their outward show of morality, he asserts, is but the cloak that that the concert of the powers is only a hides their hellish depravity—the sereen behind which they concoct their devilish and deep-laid plans to circumvent and truth? Because they are not believers in overthrow the holy catholic church. But the most frightful charge which M. Tardivel brings against the free masons is that they are devil worshippers. They pretend that mesonic principles are really in harmony with the principles of the christian religion; but that is impossible, for they make eatan their god; and their mystic rites are used in the worship of ment is showing itself true to name. Now we know that the reman esthelic church looks with suspicion on freemasonry, and with good reason, for in Europe —especially in Italy—the masonic society has been employed as a political machine against the temporal sovereignty of the pope. But we hope that M. Tardivel's beliefs respecting freemssonry in Canada are not shared by many catholics. The Herald would be deeply grieved to learn that there is any ground for his accusations. At present we doubt if there is any good ground for them, at least so far devil. We doubt very much if Sheriff Morton and grand secretary J. J. Mason burn incomes before any shrine of satan. We absolutely refuse to entertain the belief that grand mester Wullie Gibson. M.P., ever prostrates his retund form before an altar dedicated to the worship
