# IT'S NO DISGRACE TO BE POOR

But it is a disgrace that people will go on getting poorer by paying MORE THAN THEY NEED for their Wearing Apparel. In our store, it is not even inconvenient to be poor, for you will find that you have more than enough money for what you want. We are not exactly giving away goods, but we are coming pretty close to it just now when compared with prices elsewhere.

# SEEING IS BELIEVING.

We want you to see—to feel—to test—before you buy. Then we can challenge comparison with any firm under the sun. We don't make everything give way to cheapness. **GOODNESS** is the test. The best mills, the best manufacturers, and the best makers contribute. Fresh buying chances step to the front every day, and we're there ready to gather in the cream of the stocks of well known makers. With our immense outlet, we run no risks, for prices must be made tempting enough for us to buy. The way we buy has everything to do with the way we sell.

To sell Reliable Goods, as we are constantly doing at persistently lower prices, means shrewd planning to strengthen our grip on the very best trade and by having a free lance in all the markets. This holds good in regard to our present New Fall and Winter Stocks now crowded into our mammoth store—from end to end, from top to bottom—embracing everything from a Suit to a Shirt.
