THE GIRLS AND THE PRINCE.—When the Prince of Wales was in America, in 1860, he was young man of simple and unassuming manners. Naturally the American girls were deeply interested in him, and a period of the most romantic excitement ensued in all the cities. Every subterfuge to dance with the young Prince was resorted to, and members of the party were bribed to arrange a waltz with the Prince; the most unusual expedients were resorted to by girls. His baggage was kissed as it was put aboard the cars, and when he left a hotel room women would rush in to carry away in bottles the water in which he had washed his face. Church people forgot themselves and stood on the cushions of the pews in order to see the Royal visitor. On every hand it was a season of excitement, and feasts and receptions and receptions were held. The Prince's party was Stephen Fiske, the journalist, who was delegated by the elder James Gordon Bennett, of The New York Herald, to remain with the Prince while he was in America. Naturally, Mr. Fiske saw all the incidents of his visit. His notes on the taking of the American journalists the young Prince saw that he was present upon all occasions. Now Mr. Fiske has written out the whole story, and it will form the January installment of The Ladies' Home Magazine, a "Great personal event." Illustrations of some of the great scenes have been made, and these will be given with the article in the January Journal.

Father Time has to hunt when he meets a woman who knows how to take care of her health. Time can't make her seem old.

She may be the mother of a family; that does not matter. She has no disease of high vitality. She is bound to be young because her heart is young and there is rich, young blood circulating in her veins. She doesn't need cosmetics and face-powders and skin-preservers. Pure blood is the only true skin-preserver.

But when a woman's blood is full of billious impurities, she can neither look young nor feel young. Her whole constitution is poisoned with bad blood. It permeates every part. It paralyzes the nerve-centres; weakens the stomach; irritates the heart, preys upon the lungs and bronchial tubes.

It reduces a woman to a state of weakness, nervousness, irritability, dejection and melancholy. Such a woman can't possibly be youthful, no matter what her age may be. She needs the youthfulness of high vitality.

Dr. Pierce's Golden Medical Discovery will give it to her. It will help any woman to get back her youth and freshness again. It gives the digestive and blood-making organs and the liver power to produce good, pure, healthy blood. It gives color to the cheeks, and vitality to the eyes; drives away pimples and blotches; wipes away wrinkles; rounds out emaciated forms, and creates firm, natural, healthy flesh.

Mr. Robert F. Gardner of Grafton, York Co., Pa., writes: "I was taken sick and reduced in health and broke out with a disease which my doctor said was eczema. He treated my disease but failed to do me any good, and I fell away to 50 pounds. I began using Dr. Pierce's Golden Medical Discovery and thank God and you, I began to improve. Now I weigh 120 pounds and have only taken two bottles. I cannot say too much about the medicine. My husband says I look younger than I did the first time he saw me. I've never seen."
