We know that Cod-liver Oil is a fat-forming food because takers of it gain rapdly in weight under its use and the whole body receives wital force. When prepared as in Scott's Emulsion, it is quickly and easily changed into the tissues of the body. As your doctor would say, "it is easily assimilated." Perhaps you are suffering from fat starvation. You take fat enough with your food, but it either isn't the right kind, or it isn't digested. You need fat prepared for you, as in Scott's Emulsion.

Has Come at Last!

Ready-made Clothing at Panic Prices.

We're determined to relieve the pressure caused by our gigantic stock. At no time in the last ten years has there been such excitement in the wholesale Clothing trade as in the past six weeks. Owing to the exceedingly mild weather trade has been disappointing, consequently immense stocks are on hand. When the demand is light prices are low. This season's trade was so light that prices were simply paralysed. We were offered from time to time the very finest clothing at prices usually asked for the lowest grade. Unable to resist such tempting offers we bought almost \$20,000 worth of Clothing. Now that we have it we find ourselves with a "white elephant" on our hands. The Clothing was bought at our own prices, but as there is little demand for heavy goods these mild days our position is about the same as the farmer and his apple crop. Sighing and thinking of what might have been will do no good. Quick action is necessary. For the balance of this season we close our eyes to real worth and inaugurate a selling soirce that is destined to stand unequalled in our mercantile history.
