en troubled with severe symptoms of kidney disease. She had constant and acute pains in her beack. The pain in her head was fearful and almost unendurable. It frequently preented her from attending school, and she found study at home practically impossible. She had no appetite, and did not sleep well. The pain was very severe around her heart and she was much troubled with fluttering and palpitation. She was completely worn out in body and was tired and drowsy all the time. Her mother and myself became seriously alarmed as she was constantly getting worse.

"Last July my daughter Sarah, a teacher in the Puolic School at Kingsville. Ont., came home to spend her vecation, and finding her sister in such a distressing and dangerous condition, said, I am taking Doan's Kidney Pills and they are doing me much good, I have a box with me and will divide with Polly, which she did. By the time Polly had finished the half box her improvement in health was so marked, that I procured more from Mr. Finleigh's drug store.

Her full restoration to health and spirits was rapid and continuous. She has now none of her former dangerous, painful and distressing kidney troubles. She ests and sleeps well, and for more than a mouth has enjoyed the most vigorous health. She has not lost a day at sele oil since she commenced taking the pills, and has so much faith in them since they restored her to full health that she wants me to keep six boxes in the house all the time, in cisa they should be no-ded and not available. Her cure has been so wonderful she thinks they will cure any comp aint.
