In the return of convictions from Peterborough County from December to March there are only two convictions, one for vagrancy and the other for assault and abusive language. This is a pretty good record.

The robbers have arrived and already the mail boys are bringing their capsulins into play with deadly effect. Our boys may not be aware of the fact that if capsulins are found in their possession—even though not in use they are liable to legal punishment. A few convictions would banish the nuisance in town.

A few weeks ago a subscriber owing us \$10 left the country without so much as saying "Thank you for sending THE WARDEN for ten years on faith in my integrity, but I am too mean to reward you for your confidence and outlay." That person was soon made to suffer, a very serious loss, possibly because of the effort to cheat us out of an honest debt. Restriction is sometimes very swift.

Newspapers (if well conducted) are educators of the people and do quite as well their share of this education as do our libraries, institutes and schools. The newspapers are always read. No matter how busy a man may be he always finds time to read his paper.

The collegiate institute scholars are beginning to settle down for the midsummer examinations. Our school, as in former years, should head the list when the results are published.

A record of last year's weather shows that April 1st was a cold, raw day and snowed about an inch during the night; 2nd, turned mild in the afternoon; 3rd and 4th, cold and windy; 5th, mild; 6th, snow, melting as it fell; 7th, mild and thawing.

A steady reliable young man from Manawar, near Mr. Hornb, wishes to learn carriage making or blacksmithing. Apply for particulars at WARDER OFFICE.

OUR NEW SEEDS are just opened out and although every kind may not be displayed it is no trouble to get them. A. HORNBOETHAM.—70-4f.

It is poor economy for any family to be without their local papers. They see a thousand signs of interest to them in the course of the year and know what is going on that is of public interest in their own locality and among friends and neighbors. Those who have gone from here and still retain an interest in their old home are the most anxious and enthusiastic readers of THE WARDEN.

People should always exercise the greatest care in repeating libellous and slanderous words about another, even if the story is common talk. Recently a man not far from Lindsay had to pay a heavy fine to satisfy the court for repeating stories about a neighbor.

Will Premier Hardy be the means of establishing another family compact in Ontario? In the South African mining deal are represented personal friends of Mr. Hardy. Where is the wealth of this country any way? Americans, Englishmen or Mr. Hardy's personal favorites?

Kent street received its spring cleaning up last week. It is surprising the amount of filth that accumulates during the winter.

"With Lake Michigan in its dooryard, Chicago has been off for almost forty years from many of the advantages which cities usually derive from a water front. Extending from the mouth of the river southward nearly seven miles to Fifty-first street, a great railroad corporation has maintained a barrier of tracks, spiked fences, and stone walls which effectually prevented the public from approaching the lake." From this beginning, the article on "Chicago's Lake Front Parks," contributed to Harper's Weekly of April 3, proceeds to outline the development of public spirit in Chicago which has led to the reclaiming of the lake front, and to the present colonial undertaking, supervised by Mr. D. H. Burnham, director of the works at the World's Fair, which is to convert it into one of the most beautiful of the park systems of any city in the world. It is fully illustrated, one of the drawings, giving an extended view of the Chicago water front as it will appear when the work is completed.

MARRIAGE LICENSES, under the provisions of the new act, are issued by T. Beal, at his residence, on Albert street, at any time of the day between 6 a.m. and 11 p.m.; also at his office in G. W. Beal's jewelry store during business hours as usual.—55-4f.

BRIDGES ON SALE.—For the benefit of our many readers who are contemplating buying bicycles this year we give below a list of as many as we know of the Lindsay bicycle agents and the wheels they are selling. The list is a long one and buyers should be able to pick a good wheel out of the lot: J. Riggs.—Red Bird, New Barnes, Stormer, Alert, Columbia, Geneva, Ohio, E. & D. J. G. Edwards.—Sears, Cleveland, Garden City, Perfect, Dominion. E. Morgan.—Comet, Auditorium, Canon Bell. W. Goodwin.—Clippers. W. Webster.—Kellips, Antelope. B. Martin.—Gendron. B. Gough.—Hyalop. E. Houghton.—Special Recycle, Racer, Reynolds, The Bicycle. McLENNAN & Co.—Massey-Harris. Dr. Wood's Norway Pine Syrup cures Coughs, Colds, Asthma, Bronchitis, Hoarseness and consumption if taken in time.—73-4f.

FOUND DEAD. Why did he do it? He had everything to live for—happy home, wife, friends, money; but he shot himself through the heart. Why? He couldn't have given a good reason himself. But everything looked gloomy to him. He was in a gloomy frame of mind. It was the way he looked at life that day. He had been living in too much of a hurry, rushing and driving at business, hustling through his meals, cutting about his sleep. His nerves got on edge; his stomach and liver got out of order; he grew dyspeptic and melancholy.

When the digestion is out of order there is little use trying to look on the bright side of things, practically there isn't any bright side. This is a dangerous occasion to get into. Yet it is easy to get into and mighty hard to get out of it, unless you go about it in the right way.

There is a remedy that has pulled thousands of people right out of this depth of despair. It is Dr. Pierce's Golden Medical Discovery. It acts directly upon the stomach and liver. It restores their natural capacity to nourish and purify the system. It purges away bilious poisons, feeds the nerve-centres with healthy, highly vitalized blood, drives out the "demon" of melancholy and nervousness.

J. L. Warner, No. 1000 O Street, Sacramento, Cal., writes: "During the last two years I have been doctoring with as many as six different doctors here and in San Francisco for diseased stomach and liver, but the doctoring didn't do me any good. Two years ago I completely collapsed, and had to give up all work. I have felt many times that I was like the man who had no life and present good health to Dr. Pierce's medicine. I have taken fourteen bottles of the 'Golden Medical Discovery' and I am entirely well of all stomach trouble. Can sleep nine hours every night, and am now ready to go to work again."

Mr. Perry Panahon's lecture on "The Lesser Posts" in the collegiate institute tonight should be interesting.

Some papers have fallen into a discussion as to whether Canadians are patriotic or not. Several times in the recent history of Canada, what appeared to be grave crises have had to be prepared for. The muster rolls of the militia corps on each occasion could be taken as evidence that Canadians are patriotic.

Mr. Chas. McLaughlin of Uphill, has a very able letter in this issue, showing up some of the evils of our present system of education. As Mr. McLaughlin says, there is something very serious, wrong with the educational department and the educational system of Ontario. THE WARDEN invites correspondence on this subject.

THE WARDER RAILROAD.—If you are contemplating a trip to the gold mining country, please consider the merits of the railroad, the short and true route via Detroit, Chicago and St. Paul, to all points in the Kootenay districts. Passengers leaving Toronto by early morning train reach St. Paul next day at noon, where direct connection is made for all points in the gold fields.

THE EASTERN CONCERT.—On Easter Monday night, there will be a grand concert in the hall of the Eastern Concert, and if the programme and the progress of the work of preparation speak for anything, it will be the event of the season. A distinguishing feature will be the solos on the organ. The opening number will be the overture to William Tell by Rossini. The work, written for a full orchestra, and arranged for the organ, is a masterpiece of tone painting. The opening Andante represents the rapids and peace of the Alpine solitudes. In the next part, the calm is broken by the raging of a storm which runs its course, among them the Pilgrim Chorus, from Tannhauser, by Wagner. The chorus will also be of interest. "Unfold, ye Portals, Elevation" from Guano's oratorio, "The Redemption" will demand special attention, being partly to the fact that the entire orchestra will be given in Toronto on Good Friday. Another chorus will be "Glorious is Thy Name" from Mozart's william. Besides these, there will be solos, duets, trios and quartets, and a treat is certainly in store for all those who attend. In order to afford the opportunity of being present, at the price of admission has been placed at but fifteen cents. The church should certainly be crowded. We hope to give the programme in full next week.

Everyone admires an attractive window front in a store and the owners of live stock generally is "The Veterinary Science." It treats comprehensively and in plain, everyday language on the anatomy, diseases and treatment of domestic animals and poultry, besides containing a complete description of medicines, recipes, etc., enabling the farmer to be his own veterinarian. Competent authorities regard "The Veterinary Science" as a standard work, and one which no owner of animals can afford to be without. The book is sold at \$2, but the London Free Press company has made arrangements whereby they will supply their mammoth 16 page edition (the Weekly Free Press and Farm and Home) for one year, together with a copy of the book, at the extremely low price of \$2. This is an opportunity of which everyone should take advantage. 57-4f.

In spite of the bicycle craze the days of the horse are not done yet and a good place of horse flesh will always command admiration. The fact was evidenced on Saturday when traffic on Kent was blocked for about a quarter of an hour by a large miscellaneous crowd admiring Kanatic, Mr. Curtis' new trotting horse. The animal is a fine looking horse, has easy movement and best of all a record of 2:15. Mr. Curtis bought him from a syndicate and of course paid a swell price.
