Winnipeg.

April 26th, Two topics seem to occupy the citizens | very popular. here to the exclusion of all else. Most important is the flood in the Red river and next the bye-slection between the independent prohibitionist Taylor. It is waters which are now twenty-three feet above low-water mark and still rising at the rate of six inches in twenty-four hours. That a portion of the city will be inundated is plainly apparent now. St. Bonfface, the French suburb of Winnipeg, which lies on the eastern bank of Red river, is partly flooded now, several of its streets being submerged and the hospital, which is an isolated building, appears like a huge castle in the midst of a small lake. The eastern bank of the river seems much lower than the western on which the city proper is situated, and when Winnipeg becomes flooded St. Bonitace will be ptoperly described as "out of sight," and here most people would be pleased if the EVIDENTLY Mr. White, a former resident here, thinks that "opposition is the stay "out of sight," As for "his reverlife of trade," for he has returned and ence" I won's say-but it would be too started a blacksmith shop in the suburbs | bad to lose the many nice buildings that of our village and is ready for all kinds of adorn the eastern bank of the Red river, for even surrounded with a flood of maddy Mr. Dovey's boom of logs passed water, the many imposing edifices, prinscattered all over the lake; Messrs. also within the corporation lines are three Humber, Mintz and Spancely are busily | bridges over the Assintbolne, which joins passed through here and are now nearing over one half mile in width, which I think is more than the ordinary width of the Victoria in opposition to our present thoroughfares, that in such weather as

The population of Winnipeg is very cosmopolitan in the character of its obstructions were noticed in time to preelse wait for Saturday to come, and that will give us time to cool down a bit. side, the fashionable swell in his frock-LAST Tuesday Mr. Moore of Peter-borough was here taking the settlers Indian, innocent of other toga than a well-worn and superlatively soiled governabreast an aristrocrat in a brougham and yoke of oxen which seem to struggle under the load of barnyard refuse that sticks to their haunches. There are hundreds of unemployed men in the city, giving one an idea of the labor situation during the past winter, which seeson is always duller than any other of the year. Winnipeg has comparatively no manufacturing industries, so that there is nothing to give men work upon. The farmers now are looking for help which should relieve the situation; but nevertheless I would advise Ontario boys who think of coming here for employment to keep clear of the country, unless they are engaged

A sleeper is one who sleeps. A sleeper People. is that in which the sleeper sleeps. sleeper is that on which the sleeper which carries the sleeper while he sleeps runs. sleeper the sleeper carries the sleeper over the sleeper under the sleeper until the sleeper which carries the sleeper sleeper under the sleeper, and there is no longer any sleeper sleeping in the sleeper

on the sleeper. The railway authorities have experienced some trouble of late from the throwing of stones at passing coaches, and by the placing of obstructions of some sort across the track. For months the Grand Trunk detectives have been kept busy, and now WE are about to have a new magistrate loads of the stickiest mud that ever clay the C.P.R. detectives are having their turu. On Friday last about two miles east of Gorrie an attempt was made to derail the C.P.R. night express by placing ties across the track. Fortunately these vent what, no doubt, would have resulted in a very serious accident. The authorities have succeeded in capturing three young men tramps, who they believe are the guilty parties. The railway authorities are determined to stop the nuisance

The conversion of water power into electric power which can be transmitted with but comparatively little loss to a considerable distance will tend to materially reduce the cost of manufacturing, especially as against steam power. The great Niagara is already harnessed and doing this duty on the American side and the American Power company, which has the right to construct works on the Canadian fall must commence on May 1st else another company composed of English and American capitalists, will supersede them and proceed with the enterprise at once, we have also lesser water falls in many parts of Canada, which if the Niagara works prove a financial succes, will be utilized in the near future for power purposes. Science and invention are revolutionizing methods of doing work to such an extent that it is unsafe to invest capital in expensive undertakings unless such as are most approved and modern.

CASTORIA

For Infants and Children.

AN AUNT'S ADVICE BROUGHT A YOUNG LADY OUT OF THE SHADOW OF DEATH.

A Remarkable Case That Vividly Shows the Wonderful Health-Bestoring Power of Dr. Williams' Pink Pills. From the Orangeville Banner,

There is no doubt at all that many people are prejudiced against proprietary medicines, and equally no doubt many look upon the testimonials published as much in the nature of an exaggerated puff. If the Banner has been tinctured with this feeling it has, so tar as one medicine is conserved, had its doubts medicine is conterned, had its doubts removed. We refer to Dr. Williams' Pink Pills, concerning the curative qualities of which attend claims have been made, proof advanced in their support which seemed equally strong. But it is when one comes across in their own locality a case almost rivaling any that have been made public, that doubt disappears and conviction follows. Such a case the Banner came across and investigated and now gives the facts. The case is that of Miss Sarah Langford, an estimable young lady who resides in the neighborhood of Camilla. We were told she had been brought near to death's door and had been restored to health through the agency of Dr. Williams' Pink Pills. We decided, however, to cast hearsay aside and investigate for our-Oculist and Aurist, 60 College St. Toronto.—97-ly. At Benson House, Lindsay, on Saturday, March 6th, selves.

We found Miss Langford the picture of health and good spirits, at her pleasant home in Camilla. In response to our inquiries as to her illness and the cause of her recovery, she expressed her willingness to satisfy our curiosity, and as she added, relate her experience for the good of others afflicted as she was. Her story very briefly was as follows:-

"I had la grippe in the spring of 1894, I did not seem to get over the effects of pumping a pail of water from the well, I would have to stand and hold my hands over my heart for a moment or so, it would flutter so violently. I could not go up stairs without difficulty, and towards the last would have to rest on the steps, and when I got to the top lie down until I could recover my breath. I became a mere steleton, my cheeks were like wax and my lips colorless. I lost all appetite and my meals often went unbasted. Medicine seemed to have no effect upon me. I was getting weaker all the time, and at last began to give up hope of recovery. My parents were of sourse in great distress, and I knew by the looks and actions of my friends who called to see me that they thought I was doomed to an early death. Then a dear lady friend died and I managed out of love for her to drag myself to her funeral, The sensation of seeing her laid away, believing that I would soon follow her, was a strange one. Shortly after this cover it with the paste till you do not see | an aunt of mine, Mrs. Wm. Henderson of Pink Pills. To please her I consense but with very little hope of any good result. The ffect, however, was wonderful and a pleasing surprise to me. tice of shooting robins and other spring soon began to feel more cheerful and birds that are coming to us. For several seemed to feel stronger. Then my apyears past the beautiful robins have been petite began to improve and the color few in number and for some reason they return to my deeks and lips. From appear to be quite numerous this season, that hour I stealily gained strength, and and as it is now nesting time a concerted | was soon enjoying my former excellent

Changes in the Municipal Law.

The following are some of the provisions made by the municipal amendment act, Towns and villages may acquire water

privilages and create therefrom water power, and may lease or sell power with consent of the ratepayers. Market fees have been reduced in all cities and towns to 10 and 5 cents. Cities and towns may establish a iele-

phone service.

Every municipality may expend a fixed

Every municipality may expend as to the sum for advertising information as to the advantage of the municipality as a manufacturing, business, educational or residential centre. Cities and towns of over 5,000 population, \$500; other municipalities

per to fill the office during the remainded of the year; or, in case of a temporary absence of the head of the council from illness or other cause, the council may appoint one of the members to fill the vacancy, and he shall have all the powers of

the head of the council. If any member of the council or any auditor makes antrue financial statement, or knowinglyly omits from the statement to be issued on the 15th day of December in every year, he shall be liable to a fine of \$40 and costs.

The debenture registration act is repealed aud new provisions in the act are substit-uted therefore.

Councils are prohibited from borrowing more than 80 per cent. of the amount to be collected as taxes in any year.

Councils liable for the maintenance of a boundary line or highway may agree as to what part of such boundry line or highway each shall maintain, and shall be liable for ccidents only on the part to be maintained

by them respectively Councils may grant bonuses for the erection of grain elevators.

A member of the municipal council may become a candidate for election as a county councillor without resigning his office as municipal councilor, but he may not sit in the county council while continuing to be a member of a municipal council.

Wardens are to hold effice for but one

County councils may divide the county into districts, and may direct that sales for taxes will be held in the districts respectively instead of wholly in the county towns. The act does not come into force until the 1st of July next, except section 24, authorizing municipalities in Haliburton to aid in establishing grist mills which comes in-
