ENTERTAINMENT. - The people and scholars of S.S. No. 1, Digby, intend holding an entertainment and social in the school and grounds on Friday evening, June 11th. A splendid programme of singing, recitations, instrumental music and dialogues has been prepared by home and foreign talent. A good line of amusements has been arranged to take place after the programme and a first class supper will be served. A good time is expected. Do not miss it. Programme commences at 8 o'clock. The pain that sometimes strikes a man at the most inopportune moment is due to indigestion. It may come in the midst of a dinner and make the feast a mockery. It is a reminder that he may not eat what he chooses, nor when he choeses. He is a slave to the weakness of his stomach. A man's health and strength depend upon what he gets out of his tood. This depends on his digestion. Remove the obstruction by taking Dr. Pierce's Pleasant Pellet's. They are a positive cure for constipation and its attendant ills—headaches, sour stomach, flatulence, dizziness, billiousness and "heartburn." The "Pellets" are very gentle in their action. They simply assist nature. They give no violent wreno to the system. They cause no pain, nor

Council Proceedings.—Ops council met pursuant to notice on Tuesday, May 25th, at 10 a.m., all members present. The minutes of last meeting were read and duly confirmed.

A largely signed petition from the citizens of Reaboro and other ratepayers praying that the council assist in building sidewalks in that embryo village.

From Sawyer & Massey Mfg. Co., Hamilton, recommending their read ma-chine as being the choice of the Dominion government for the Experimental farm,

Mr. C. A. Besser, agent of the Austin Mfg. Co., Chicago, addressed the council at some length, setting forth the merits of their stone crusher, how it is rapidly taking precedence of all others both in Canada and the United States, and is indispensable to the making and maintaining of good roads.

Mr. Thomas Cuff, pathmaster, beat No. 83, explained to the council that several in his beat had been urging him to remove the fence crossing the 5th con. line at lot 24, that their cattle might have accesss to the river. The reeve said that Mr. Wm. McDonell.

owner of the land between said con. line and the river, had told him that it was difficult to procure fencing timber at present, and requested that the matter be deferred till autumn; and the members of the rifle association asked for an extension of time to remove their rifle butts. saying they would soon be using long range rifles, and are prospecting for a new site. In view of the situation the following situation was then passed: Moved by Mr. Hutton, seconded by Mr. Hopkins, that the time for removing the rifie butts and opening the roadway northward therefrom to the river, be extended to the first of November, 1897, on condition that the rifle association, Mr. Wm. McDonnell, and Andrew Marshall. be responsible for any socident that may occur in connection with said rifle butts until their removal.—Carried.

PLEAS FOR SPECIAL ROAD GRANTS. Mesers. F. Carlin, Jos. Reynolds, John Hickson, John Caughlin and others, called the attention of the council to certain roads in their vicinity that were searcely passable, and asked that special grants be made for them. The council assured them they would endeavor to comply with their requests as far as possible, but shulld keep the road appropriations within certain limits, or the taxes would be much higher than last year.

Reeve Ellis then suggested that either Mr. Hutton or Mr. Hopkins should be commissioner for Reaboro division, but the council were unanimous in appoint-ing the reeve, whose administration had been so satisfactory in that division last Mr. Hopkins moved, seconded by Mr.

Currins, that road jobs or contracts be let to ratepayers of the township only. Mr. Hutton moved in amendment that the letting of contracts be at the discretion of the commissioner. As Mr. Hutton had no seconder the amendment was lost, and on the original motion being put it was declared carried. The reeve said he favored the amendment, and since the council differed in opinion on the matter he desired to have the yeas and nays recorded, which were as follows: For amendment, Hutton and Ellis; for the

motion, Hopkins, Currins and Robertson. The council then considered the advisability of purchasing more gravel to save bility of purchasing more gravel to save long drawing, and Mr. Ourrins moved, seconded by Mr. Robertson, that the reeve and Mr. Hutton purchase a pit in S.W. Ops if the quality of the gravel and the price asked be acceptable to them; that Mr. Thos. Murtha's offer for his pit be accepted, and that the purchase of the large pit he at the discretion of the som Lee pit be at the discretion of the commissioner.—Carried.

Mr. Hopkins moved, seconded by Mr. Robertson, that Mr. David Reid be ap. pointed pathmaster of beat No. 63, in

The following are points in the law governing newspapers that are frequently enquired about and that are worth remembering:-1-Subscribers who do not give express

orders to the contrary are considered as wishing to continue their subscription. 2—If subscribers order a discontinuance of their periodicals from the office to which they are directed they are responsible until they have settled their bill and ordered them discontinued.

3-If subscribers neglect to take the periodicals from the office to which they are directed they are responsible until they have settled their bill and ordered them discontinued.

4—If subscribers move to other places without informing the publisher and the papers are sent to the former address, they are held responsible. 5-The courts have decided that refusing to take periodicals from the office or

removing and leaving them uncalled for is evidence of intention to defraud. 6—If subscribers pay in advance they are bound to give notice at the end of their time if they do not wish to conlinue taking it, otherwise the publisher is obliged to send it, and the subscriber will be responsible until a notice with payment of all arrearages is due to the

Such a stamp should avail to carry a letter from any one of the countries in the postal union to any other. It should be for sale in all countries, but need not supercede the ordinary stamps, as its chief use would be in this one of prepaying replies. It is said that the American authorities opposed the international stamp because it would interfere with a comfortable revenue they now get from a double postage collected on foreign letters insufficiently prepaid.

A town should be to its inhabitants what a residence is to its occupants, in both cases it is their home. The members of a family leave nothing undone that will increase the appearance of their home and promote the happiness, com-fort and contentment of those living there. The same spirit should animate citizens in beautifying and otherwise im-proving the town, for in this way they make residents generally more comfortable and contented. Then everything about the home that adds to the pleasure of the family also increases the enjoy-ment of visitors. The same is true of the town. Visitors delight to visit a place where cleanliness, beauty and cheerfulness are at a premium.

Negotiations are now in progress etween the Grand Trunk railway and the Dominion government for the running of special ice refrigerator cars from various points in the province for butter and eggs, in connection with the ocean cold storage accommodation from Montreal to European ports. The outlines of the scheme at present are to start these cars from Meaford, Goderich, Sarnia, Wiarton, and Point Edward, and concentrate them in Toronto, where they will be shipped to Montreal on fast through trains. A service will also be arranged, passing through Orillia, Peter-borough, Beaverton, Lindsay, and Belle-ville. It is expected that the negotia-tions will be completed next week.

The question of the food supply of the United Kingdom in the case of war, bas come in for a good deal of discussion lately. It has been pointed out that while Russia controls a very large supply of the world's breadstuffs, England depends usually on North America—that is to say, Canada and the United States. Now while she can always count on Canada, the unshakable friendship of the United States is another matter. England's difficulty is the States' opportunity is a principle which has many advocates across the line. It is quite within the power of the British people, however, to raise food for their own consumption. If the Canadian prairies were adequately populated they could do something of the kind, to say nothing of the possibilities still undeveloped in Australia, Egypt and the British possessions in Africa.

The women who have been accustomed to wear hats adorned with the glumage of birds doubtless never stopped to consider that for nearly every plume plucked a bird life was sacrificed. If they had thought of that many of them would probably have felt inclined to abandon the wearing of them. But, according to the report of the Audubon society, of Massachusetts, the plumage which adorns the report of the Audubon society, of Massachusetts, the plumage which adorns the hats and bonnets of the devotees of fashion represents a fearful slaughter, a bloodthirsty massacre, in fact. England imports more than twenty-five million dead birds every year, the skins and feathers of which are manufactured into articles of personal adornment for women. In the whole of Europe the number of dead birds so used is 800,000,000,000 a year. In the city of Chicago one 000 a year. In the city of Chicago one dealer receives in a single season \$2,000 humming birds, \$0,000 aquatic fowl, and

rieties. Is not that an awful slaughte and what do the women who depend upon the plumage of birds for personal rument gain by it?

determining to give them a chance to
cure me of the kidney complaint, from
which I have suffered for some time, and
which has become so bad latterly that I could scarcely endure it. I may say that it resulted from a fall which I received a few months back. After using several kidney pills and cures of different kinds, but without receiving any benefit, there-fore I am pleased to testify to the great benefit I have received from Doan's Kidney Pills. I have used only one box up o this date, and the change in my condition is so great that I cannot refrain from recommending them to any person afflicted as I have been, or troubled with any kidney disorder, for I believe that if they would cure me they would cure almost any case. I will be able to resume my farm work now, as usual, and it is not the lightest work either. I am, sirs,
