Epscial to The Warder, BERRY-PICKING. - Four of our young men have gone to the rocks berry-picking, namely, Mr. T. C. Burchard, our popular school teacher, and Messrs. Wm, Argue, D. Cherrie, D. Leich. We fear they will have a hard time of it, the weather being so unfavorable for berry-picking. CHURCH NOTES .- The Rev. Mr. Me-

Camus of Port Perry, occupied the methodiet church pulpit on Sunday of last week, morning and evening, delivering a practical sermon at both services to a full house. On the following Monday evening there was a garden party held in the lawn of Mrs. Macgill's, in order to raise money to wipe off the debt that is still gemaining on the new church. There was a large crowd and a good programme, and the scene was enlivened by the precance of Bethany brass band which discoursed sweet music until a late hour in the evening, when all were dismissed to their respective places of abode, well pleased with the evening's enjoyment.

The big, hearty, healthy man is a continual patien is the root of nine tenths of the sickness of men, and of a large proportion of the sickness of women. It can be cured easily, na' urally and quickly. Nature is continually working as hard as she can to throw off impurities, and to force out poisonous refuse matter. When there is an impediment, Dr. Pierce's Pleasant Peliets set the wheels working again without any trouble. They assist nature in a gentle, healthful, efficient way. There is nothing violent about their action, and yet it is just as certain as if it were twice es violent. "You do not become a slave to beir nae." They are different and better than any other pill for the cure of constipation, eadache and kindred derangements. Almost all druggists understand this, and are conscientions enough to tell you so. The druggist who tries to sell you a substitute is not a safe man from whom to buy medicine. Seud 81 cents in one cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and

MT. HOREB

Special to The Warder: Mr. Hores against the world for loyalty: The glerious 12th was duly recognized. At an early hour the village was all life and a number of flags were seen to wave from Elliott's block. The place was all astir between 5 and 6 o'clock, going to the different places of celebration-some for Port Hope, some tor Bobcaygeon, some for loyal Omemee (the place always dear to your humble scribe). All due respect to the young ladies of this hamlet. They all turned out in loyal array, showing their hearts were in the celebration; and allow me to say that it would be a poor affair were it not for the fair young ladies. Young and old men and women of this vicinity took part in the day, and all came home in good time well pleased with the day. To the honor of all orangemen not a single man did we see in Omemee the worse of strong drink. So ends the glorious 12th
July, 1897. Now we are all looking out
for a good time at the Falls on the 12th

BAST GALWAY. Special to The Warder. THE heavy rains which continued night

and day last week filled all the creeks to Many of the farmers around here are anxious about their hay crop, as there was a great quantity lying out before the

rains and much will be spoiled. MINING is progressing wonderfully around Ewan, and several claims have been bought up. Many rich finds have been made. Four miles west of here they are busy putting down a shaft, and this coming week another company will start a shaft at Ewan. Galway promises to be the richest mining district in Ontario, as there is gold, silver, copper, lead and black lumbago in large quantities. All it requires now is for capitalists to

QUERY.—Who got chased out of Moore's berry patch at Davis' lake.

From an Occasional Correspondent. IF Par had been in our town last Friday evening he could have had his curiosity satisfied by seeing that great wonder of water running up hill. Our town is second to none for inventions. The citizens have with pleasure viewed the great invention planned and constructed by J. C. Train and Donald McDougal, which compels water to run up hill.

Our town is rather dull at present, the farmers being all busy at their harvest. The hay crops are turning out rather better than expected. The late rains are bringing on the grain crops well. THE government has at last consented

to build the new bridge across Burnt river on the site chosen by the Somerville council. F. Train is, we are told, appointed by the government as overseed of the work.

THE gold fever is not quite as exciting the regular train to Davis lake mine will be concelled while the new bridge is under construction. However, there will likely be special trips if necessary, so stragglers had better keep off the track as a special might run them down at any

The practice of throwing rice at depart ing bridal couples is hereafter to be sternly suppressed on the Pennsylvania railroad system. It has long been a nuisance at railroad stations, annoying to passengers who have been deluged by the showers of rice indiscriminately thrown upon them as well as upon the embarrassed brides and grooms; but recenely a brakeman on the Maryland division of the Pennsylvania road had his hearing partially destroyed by a grain of rice lodging in his ear. The authorities of that road have issued a peremptory order that the practice shall no longer be permitted and if necessary the persons indulging in it shall be arrested.
