Some of us have known you long, and some not so long, but each who has known you at all has disgovered your sterling worth. Born in this lace, and seldom absent from it, many have had abundant opportunity to observe your life, and the result is that those who have known you longest have sought to know you best, and those who have known you longest have been your greatest admirers.

While we are sorry to part with you, we yet congratulate you upon the promise of success which is contained in vortice (al. In one of the formost cities of Canada, and in connection with a prominent firm there, you will have opportunities for work and advancement which our smaller town cannot afford. We will expect to hear further of you, and soretary. It is by no means a measure of our regard for you—it but suggests, and does not exhaust, what your friends are ready to do for you, should opportunity offer. We hope that it will be often before your eyes, reminding you of many happy days among us, and exyou of many happy days among us, and exhorting you to persevere in the same course of honest patience and true gentlemanliness which has made your friendship not only a delight, but a benefit.
