A Great Speciacle.

The proposed reproduction of a portion of Her Majesty's great diamond jubilce procession in London, with ceremonies in front of St. Paul's cathedral, and immenss tableaux of incidents during the Queen's reign, at the Toronto exhibition from the 30th of August to 11th Sept., is creating much interest throughout the Dominion, and thousands will go to Toronto to see it from all parts. All the uniforms, costumes, carriages, and state harness, is being brought from England, and the actual decorations used in London. The attractions at the Toronto fair this year Before using it my appetite was poor will be greater and better than ever. The exhibits in all departments exceed any tated, and suffered from pains in the previous year. The illuminations will be head. grand and cost a lot of money. It will be a fitting conclusion to the jubilee year, and will be well worth going to see. The usual cheap fares and excursions will be given. -9 1.

Healthy, happy children make better men and women of us all. A little care and a little planning before birth is often more important than snything that can be done after. On the mother's health and strength depend the life and the future of the children. A weak and sickly woman cannot bear strong and healthy children. Most of the weakness of women is utterly inexcusable. Proper care and proper medicine will cure almost any disorder of the feminine organism. Dr. Pierce's Favorita Prescription has been tested in thirty years of practice. It is healing, soothing, strengthening. It is perfectly natural in its operation and effect. By its use thousands of weak women have been made strong and healthy—have been made the mothers of strong and healthy children. Taken during gestation, it makes childbirth and receive Dr. Pierce's 1008 page "Common Sense Medical Adviser," profusely illustrated.
