The steamer Esturion has been delayed by the heavy fogs on two or three occasions lately.

Miss Ella Gross has been engaged to sing at the coming Normal school jubilee celebration in Toronto on Nov. 1st. Her talents are well worthy of the most distinguished gatherings.

The number of outsiders in town last week was small owing to the almost inaccessible position of the town, surrounded as it was on all sides by mud ranging in depth from three inches to three feet.

Several of our townsmen are becoming protracted actors. In the last few plays which have visited the town there have been some of the natives, notably two, who have taken their different parts with becoming grace, even though they were subordinate.

Mr. Ed Stephens, who for the last few years has been employed as driver at the Victoria four mill, has bought some about eight miles south of town and proposes to move on at once.

Owing to the crowded condition of the railway yards here the officials took occasion last Sunday to despatch a few trains to neighboring points. This was rendered imperative in order to prevent a congestion of traffic.

Mr. Max McSwain, who took in the north west harvest excursion some months ago, is back and looks, if possible, very much improved in health. He is greatly delighted with that country and intends returning in the spring. This winter he proposes spending in Chicago. J.W. FLINX.—24-11.

Mr. Jack Taylor, of Morgan's drug store, has received his "recycle" back after having been thoroughly renovated by the makers. For three weeks after shipping it to the company he heard nothing from it and was quite naturally in a rather uneasy state of mind regarding its safety. Fortunately it had only been mislaid in the customs house.

HAVE you tried our new blend breakfast coffee. Its just delicious, and only 25c. a pound. Our new tea has a rich flavor. You can't do without it, and you can get it at the Old Front grocery. Bring your eggs and butter along. J.W. FLINX.—24-11.

HON. SIDNEY FISHER ON AGRICULTURE.—The collegiate lecture course will be opened on Friday, Nov. 12th, by the Minister of Agriculture, Hon. Sidney A. Fisher, M.P., on the subject "Agriculture." The subject is very important to Canadians, both to town-people and farmers, that urge representation of both classes should hear Mr. Fisher. The tickets for the lecture course of six lectures are 50 cents; for a single lecture 15 cents.

LOST.—On Wednesday evening, at or near the railway station, a sable ruff. The finder will be suitably rewarded by leaving it at this office.—19-1.

AN INTERESTING CEREMONY.—Last Sunday the infant daughter of Mr. and Mrs. Grace of Toronto, underwent the trying ordeal of being christened. The event took place at the residence of Mr. Wm. Grant in this town and was ably performed by Rev. Mr. McMillan of the Presbyterian church. During the afternoon three splendidly large numbers of friends of Mr. and Mrs. Grace to offer congratulations on the auspicious occasion. Among those present were Hon. Senator Dobson, Mr. and Mrs. Robert Ross of the Dominion bank, Mr. and Mrs. Dr. McAlpine, Dr. Col. Deacon, Lt. Col. and Mrs. Hughes, Mr. and Mrs. G. H. Hopkins, Mr. and Mrs. J. A. Barron, Mr. and Mrs. E. Flood, Mr. and Mrs. Robert Spler, Mrs. Mesinger, Mr. and Mrs. Timms of the bank of Montreal, Mrs. McNabb, Mrs. Keenan, Dr. Simpson, Mr. and Mrs. Edwards, Mrs. (Cecilia) Bacon of Ottawa, Mr. Geo. Patrick, Mrs. Wright, Mrs. Hopkins, etc.

Below will be found a statement of the number of steamer, scows and rafts of logs, a raft consisting of two cribs, which have passed through the locks this season from April to October 25th. This statement may be considered as in any degree representing the traffic done on the Songog. The business at the locks consists mostly of pleasure excursions from Songog lake and a few trips of the stranger with lumber, and is but a small fraction of that carried on with the lower lakes.

Steamers.....114  
Scows.....101  
Rafts of logs.....153

Total.....373 lockages  
Of the months individually, July comes first with seventy-two lockages, April last with eight.

THOSE WHO HAVE in their possession, no matter how obtained, any article of military equipment, be it rifle, belt, boots, overcoat, haversack, bayonet, etc., render themselves liable to be summoned before a magistrate and severely fined for retaining the same. Officers commanding companies must pay the government for all such deficiencies; and as many in this vicinity have secreted articles in their possession they should at once surrender them to the officer who commands the 45th battalion, Lt.-Col. S. Hughes.

This applies to any person, militiaman or civilian; for if any article of military equipment is known to be in one's possession it can be taken from the holder thereof and the person guilty severely punished. Let, therefore, all those having articles of military equipment turn them in at once and save trouble. It is only fair to the officers who must pay for the deficiencies, and it is only an act of common honesty to oneself.

OPS AND MANNERS BRIDGE.—The commissioner of the county of Victoria, with those of Northumberland and Durham, who had charge of the building of the Ops and Manners bridge, met at the bridge on Friday 22nd, and the commissioner from Victoria county, Dr. Wood, warden, Messrs Fox and Switzer, from Northumberland and Durham, J. J. Preston, warden, Messrs Alex Ferguson, E. E. Walker and J. H. Dyer, Esq., Geo. Smith, county engineer of Victoria, Mr. McNellie, of the county clerk's office, and the contractor, Mr. Weddel, of Trenton, being also present. After inspecting the bridge the commissioners were unanimous that the work approaches have been constructed in accordance with the plans, and passed a resolution that all accounts in connection therewith be paid. The old time corduroy bridge has been replaced by a steel superstructure of 600 feet at a cost of \$2350. The work is a credit to the contractors and engineers, while the improvement is much appreciated by the residents of the district.

Mr. Messrs Jackson and Beasom, of Cambridge, who went west on the harvest excursion some months ago, have lately returned and report their early part of the summer as said to have done better.

At a meeting of the Lindsay curling club on Monday night the members were assigned to their respective rinks. There will be five men, including the skip, in each rink and, if the increase in membership warrants it, this may be raised to six. Anon Mills was appointed caretaker of the rink for the season.

A stranger left Lindsay on a wheel last Tuesday for Uxbridge. When last seen he was walking in the ditch leading his steed, and his prospects for accomplishing the journey by that means of locomotion were real good.

The fire alarm sounded Tuesday evening about six o'clock. The team made a good run, but fortunately the cause of the alarm was insignificant, merely the Rathbun Co's smoke stack burning out. The alarm was sent in by telephone, and hence no opportunity was offered of testing the efficiency of the new fire alarm system.

There are two happy students at the collegiate institute just now, for these two, Howard Jackson and Ernest Honey have just received notification that their appeals against the verdict of the examiners on their primary examination last summer have been granted. A few appeals of others have not been considered.

A serious accident took place on the New York Central railway last Monday night in which twenty-eight people were killed. The cause of the accident can only be conjectured, but in all probability it was a slide or cave in of the embankment. The train, all but three cars plunged into the Hudson river where a tug-boat succeeded in rescuing a few persons.

Orryl McAlpine, son of Dr. McAlpine, on returning from school last Friday, and being told that some of the doctor's horses had just been brought home from his ranch, where they had been for some time, at once ran out to see them. He ventured too close to one of his favorites, however, and received a severe kick in the stomach. He has been confined to his bed but is recovering rapidly, although he has been injured badly internally, and will soon be out again.

In Harper's Magazine for November Mr. Richard Harding Davis, in an account of the made during the Greco-Turkish war. Mr. Davis was the correspondent of the London Times, and had the good fortune—from a journalistic point of view—to be under the flag during the second battle of Yalvalia, which was one of the two brilliant and stubbornly contested battles of the war. The article is profusely illustrated from photographs which Mr. Davis took, many of them while the battle was in progress.

A sad accident, that resulted in instantaneous death, happened Wednesday afternoon at the residence of Prof. William Clark of Trinity college, 193 Crawford street, when his 16-year old stepson, Colin Campbell, accidentally shot and killed his playmate, George Lightfoot, the 14-year-old son of R. J. Lightfoot, grocer, corner Lisgar and Queen streets, whose home is at 85 Beacomfield avenue.

The parents have the sympathy of many friends in Lindsay, Mr. E. Lightfoot a few years ago being a member with C. S. Beckwell in the grocery business.

WOMEN whose faces are disfigured by unsightly eruptions, pimples and blotches too numerous to mention, should know that these are but the outward symptoms of inward disease.

Dr. Pierce's Favorite Ointment, which is a womanly way will soon suffer in her general health. Her stomach, liver and other organs will all perform their proper functions, with the result that the blood becomes impure. It is sometimes herself, she will probably resort to cosmetics and ointments. If she consults a physician he will tell her that the stomach or liver only is at fault. Her distinctly womanly complexion is really the first and only cause.

For this she should resort at once to Dr. Pierce's Favorite Ointment. It acts directly and only on the delicate and important organs concerned. It makes them strong and well. Then a course of Dr. Pierce's Golden Medical Discovery will purify and enrich the blood, and make her a new woman. Medicine dealers sell both remedies.

I cannot say too much for Dr. Pierce's Favorite Ointment. For paper-covered copy send 3 one-cent stamps to cover customs and mailing only, to Dr. R. V. Pierce, Buffalo, N. Y.; cloth binding, 50 stamps.

Sure, safe and simple way to cure all forms of skin diseases told in Dr. Pierce's Medical Advertiser. For paper-covered copy send 3 one-cent stamps to cover customs and mailing only, to Dr. R. V. Pierce, Buffalo, N. Y.; cloth binding, 50 stamps.

A second nomination for the office of president of the collegiate institute literary society was held last Friday afternoon, as a result of the vote all of the former candidates had resigned. On this account also the election for the other offices is postponed until to-day.

The Orandella is on the stocks at Boboysgeon undergoing repairs and improvements. She will remain there in all probability during the winter, for it is feared the changes will not be complete before navigation closes, however when she is launched again next spring, it is prophesied she will be faster and handsomer than ever.

The janitor of the Collegiate Institute has had some difficulty with the student owing to his negligence to turn off the electric lights. The building has only recently been wired and the light is yet a novelty. Mr. Passmore was obliged to go over to the school in the still hours of the night on one occasion lately to prevent some serious mishap of power being charged to the school board.

A joint meeting of the board of works and finance committee of the town council was held in the clerk's office on Wednesday evening. We understood there was a lively time, nearly equal to some of the field nights in the council. What is somewhat strange, two members who have recently left together held different opinions, and were by no means backward in expressing their opinion. Things bid fair for a lively time on Monday evening.

THE GALLANT HIGHLANDERS.

Simla, Oct. 22.—Despatches from Kharagpur say that it is impossible to make too highly the conduct of the Gordon Highlanders at the storming of the Dargal Bridge. When Brig-Gen. Kempster realized that the British gun fire, aided by the mounted battery from Fort Guitan, could not dislodge the enemy, and went forward in person to move the Gordon Highlanders and the Third Sikhs into the fighting line for a systematic assault. Col Mathias, commander of the Gordon Highlanders, addressed his men in this stirring appeal:

"Men of the Gordon Highlanders: Our general says that position must be taken at all costs. The Gordon Highlanders will take it."

A CHEER AND A DASH.

The men gave a ringing cheer, and when the advance sounded they bounded after their leader, the officers at the head. When they came down the slopes after the successful charge they were spontaneously cheered by all the other regiments. The Gordon Highlanders have been magnificently throughout the engagement. Captain Robinson of the Goorkhas acted with the greatest gallantry. He led his men across the fire zone to cover. Finding the force there insufficient, he returned alone over the death trap. He was mortally wounded while leading the second rush to support the first contingent.

Many acts of heroism are recorded of the rank and file. The total casualties of the day were 124, and the Gordon Highlanders lost 23 in the rush through the line of fire.

General Westmacott's brigade is now encamped in the Khan-Ki Valley. He has cleared the enemy from the height commanding the valley and destroyed their towers. London, Oct. 24.—A despatch to The Times from the British headquarters at Kharagpur, dated Oct. 22, says:

"This morning General Lockhart addressed the Gordon Highlanders on parade and congratulated them on their gallant exploit in storming the Dargal Ridge, on the Samana Range, in the afternoon of Wednesday. He added that the records of the regiment showed many brave deeds in the past, by the side of which their last exploit might well take its place. There was more work ahead for them continued the General, which he was sure, they would as fearlessly and successfully carry through, when the time arrived. General Lockhart also thanked Colonel Mathias, the commander of the Gordon Highlanders, and the officers of that regiment for their gallant leadership. Colonel Mathias, Captain Unicek and Lieutenant Melkiesjohn were wounded. Only two privates were killed outright, though forty-one were wounded."

The London correspondent of The Times cables as follows regarding the fighting in India:

"The Gordon Highlanders' praises are in everybody's mouth, and the Sikhs and the Goorkhas, who shared with them in the magnificent exploit of the Chagru-Kotal, share the laudation here as well. The sinister dimensions of the death roll take the English, however, by surprise. No such desperate resistance had been looked for from the tribes at least by the civilian public; even military authorities are astonished to find that they are so rich in Martini-Henry rifles and ammunition."

Mr. Killaby, of the Rathbun lumber Co., who recently received an injury to his eye, and went to the Toronto specialists, has since been compelled to have the eye removed. This will certainly be a great loss, but the remaining eye, it is understood, will not be affected.
