Our sporting editor spent last Sunday afternoon on the river. This is a surprise to us as we always had the idea he was a Sunday school teacher. He now says he has a class down the river. We presume he is acting as missionary to the benighted heathen, spreading the gospel of love and light—love to the girls and a light for the old man. Although he admits the account given in our contemporary is a Trew account, yet he maintains it is not correct, and wishes us to set him right before the world. It seems that five of his friends, the captain of infantry, the alleged commodore, a prominent business man, a rising legal light, and Beau Brummel, set out in the aforesaid commodore's clipper-built, copper-bottomed, schooner-rigged, fast sailing vesse!, the "Polyphemous," with "youth at the helm and pleasure on the prow." Owing to the difficulties of landing on the ice-bound shores, the youth at the helm beached the ship a few rods above the Indian camp-the point of destination-and the pleasure on the prow, along with Sammy, took to the muddy fields, with instructions to make an overland march to the camp, while the others went by boat. ADDRESS AND PRESENTATION. -- Monday evening, in the school room of St. Paul's church, was gathered a very large assemblage to bid adieu to the departing curate, Rev. H. R. O'Malley, who has been offered and has accepted a call to St. Jude's church, Montreal. The Hon. Senator Dobson occupied the chair in his usual felicitous manner. After an opening hymn, prayers were offered by the rector, Rev. C. H. Marsh, Rev. Mr. O'Malley, having been invited to the platform, was then presented by the chairman with an address from the ladies of the congregation, regretting the departure from St. Paul's church and wishing him every happiness in his new field of labor. The address was accompanied by a magnificient travelling case, a handsome silver inkstand with pen and holder, also a valuable pair of field glasses. Mr. O'Malley was visably much affected by the evidence of good will and esteem on the part of the congregation, and in returning thanks for the gifts summarized his connection with the parish, and ended with much good advice and counsel to the flock he was leaving behind. During the evening Mrs Marsh contributed a song, and was followed by Master Mowat, a wee shaver, who had to respond to an encore. Other vocal contributions, greatly enjoyed, were offered by Mrs. Barrie, Mrs. G. H. Hopkins and Miss Leary. The rector was particularly happy and humorous in his address, and was followed by Rev. A. P. Kennedy, a graduate of Wycliffe college, now stationed at Santa Cruz, Jamaica. The evening's reception was brought to a close at an early hour with the singing of the national anthem and the pronounce ing of the benediction.

The young married couple who are crown ed with good health are really a king and queen. They are possessed of an armor that enables them to withstand all the hardships and misfortunes of life. Accidents aside they will live long, happy lives of mutual helpfulness, and they will be blessed with amiable, healthy children. They will sit together in the twilight of old age and look back without regret over a mutually happy, helpful, useful, successful companionship.
There are thousands of young couples
every day who start wedded life with but
one drawback,—one or the other, or both,
suffer from ill-health. There can be no true
wedded happiness that is overshadowed by
the black cloud of physical suffering. The

C. H. DORENWEND, the eminent SPECIALIST in the mechanical treat of RUPTURE and DEFORMITY, will be in LINDSAY at BENSON HOUSE, on FRIDAY AFTERNOON DECEMBER 3rd, and SATURDAY till 5.30 p. m. DECEMBER 4th. If you are (or have a child) ruptured, this is a great opportunity to secure the advice of this recognized authority free of charge. The appliances made by Mr. Dorenwend are masterpieces of mechano medical ingenuity, and thousands have through using them been cured and saved from danger and misery. Leading physicians in Canada and the U.S. adopt his system as being the best. Is it not natural that one who has unlimited experience and treats hundreds of cases monthly should know best what to do for afflicted ones? RUPTURE is a serious trouble to have and demands as strict attention as does a disease requiring a carefully compounded medicine. IT IS DANGEROUS to make shift with an inferior and ill-fitting Truss. Life is placed in jeopardy by using them; better to have none at all. A Truss should hold Rupture as if you "had your fingers there." Dorenwend's Trusses do this. Others tried in vain to accomplish this motion, and it remained for C. H. Dorenwend to hit upon the right thing. It is the greatest invention in Trusses ever made. Ordinary Trusses injure the spine, Dorenwend's do not. They are made of German Silver, never corode nor rust, are light and strong, and cure more cases than all other kinds. PHYSICAL DEFORMITIES resulting from accidents, weaknesses or hereditary tendencies can be relieved and cured by Mr. J. H. Why go through (or bring up children to endure) a life of deformity and misery when means of relief and cure are available? C. H. Dorenwend's appliances have cured many given up as hopeless. Is it not possible that he can do something for you or yours? Electrical treatment for Nervous Debility, Rheumatism, Sciatica, Kidney Troubles, Varicocele and many other diseases is now acknowledged to be the most successful, and by using the Dorenwend Electric Belt you get the best system.
