Paine's Celery Compound Bestows That Blessing.

Womanhood With Clear and Active Brain.

cover postage only. Address, The Great Compound Keeps the Body in Perfect Condition.

> The illustrious German philosopher Kant says: "There is within every mind a divine ideal, the type after which he was created, the germs of a perfect person."

It is true that the nearer men and women approach the divine ideal the more earthly happiness will they enjoy. In order to march steadily onward to the great goal set before all, men and women must be physically sound. Furity of heart and grand elevation of mind will never accomplish the great victory if the body be sick and diseased.

Those who aspire to true manhood and womanhood are the men and woman who take the precention to banish the very first symptoms of disease. That tired feeling you experience from day to day; that nervous headache you dread so much, that "can't eleep" condition that makes you weak and wretched; the pains in side and back indicating kidney disease; the sharp twinge of rheumatism and neuralgia that make life a misery; that constipated habit that is sending poison into your life blocd—all these varied symptoms lead to disease and death unless they are bainshed.

Paine's Celery Compound puts the out ofgear physical machinery in perfect working condition, and gives that greatest of all gifts —good health. This marvellous medicine is a food that perfectly nourishes the nerves tissues end blood; it brings strength and vigor to the limbs, gives the rosy blush of health to the pallid face, and brings clearness and energy to

Paine's Celery Compound, as a medicine for raine's Celery Compound, as a medicine for the ordinary ills of every day life, is as far remeved from the common pills, nervines, bitters and sarsaparillas as the diamond is from ordinary window glass. The people praise it, all honest druggists speak in it its favor, and the ablest doctors prescribe it. If you are only half evjoying life, try what Paine's Celery will do for you.
