The dairy sleigh belonging to Mr. Theo. Hodge's dairy suffered an accident on accident on Wednesday morning. Mr. Hodge left his team standing in front of a house while he went in to deliver milk. The horse being restless were frightened something and tore medly down the side. The sleigh was dropped in a dangerous condition in front of the market and the horse was brought to an abrupt standstill at a Daly House. Each of the horses attempt to pass a telegraph pole on a different side and the neck-ropes interrupting their progress stopped. No one was hurt except the horse that was thrown forcibly to the ground.

One young man of omniscience was placed in a peculiar dilemma this Christmas tide. He is a very fascinating young man and in consequence of this has accumulated quite a number of fair sisters—eight in all. There is only one case, however, in which the admiration is reciprocated, and although one would not just so. He gave this one a rather handsome present and then, to satisfy the others and give cause for jealousy among them he bought several yards of ribbon which he gave to each of the seven admirers impartially. It was a splendid business deal.

Handsome easy chairs, ropes and writing desks, chairs, new furniture store, also large assortment of bed room necessities, springs, extension tables, Johnston and Sloan's old stand, one door west of Stolliffe's.—26.3.

Lindsay was in wonder last Monday morning over the appearance on a street of a man in military uniform. He was accompanied only to the southward of the infantryman, so that various theories were rife as to what the soldier in black was. It was the fur-trimmed jacket, the top boots and wide cap, and was a soldier. Some believe that he was a high official of the Japanese army, here for the purpose of surveying Canada in view of the Anglo-Japanese alliance and the contemplated great war, and others advanced the theory that he was a German spy engaged for the seizure of Canada. He actually was, however, merely Dr. Perry of "A" Battery, Kingston, formerly a citizen of Lindsay, in his swaggar winter uniform.

No Place for Them.—Her name is the name which she undertook to give to her remarks were, to say the least, out of place. Her husband—Why, I couldn't get a word edge-wise.—Detroit Journal.

In a strong and well delivered discourse a Sunday evening Rev. J. W. Macmillan gave some advice to the citizens of the town on the choosing of their local government for the coming year. He strongly condemned the indifference of the ratepayers in council proceedings and placed the blame on all shortcomings of the council—referring particularly to the present incumbents—on their heads for they were in a position to elect the proper men and if they did not, it was not their place to complain of the payment of the ratepayers' salary to the councillors on the ground that it would lead to mercenary methods of gaining election but thought that if our town fathers were paid in honor and respected as being in an honorable position that the result would be more agreeable. A large number of people especially interested in municipal matters, outside of church members, were present. Mr. Macmillan said that he was aware, although he spoke without any fear, that notice and leniency should be shown to his intentions would be imputed to him but that this would be the case at any time—there are always discontented ones.

During the latter part of the year 1896, a man named Robert Muir engaged to work for a farmer named James Shankland, of the township of Sonerville. Muir after engaging with Mr. Shankland borrowed his team, sleigh and hay rack to move his effects from Lorneville where he resided. Instead of moving he left for parts unknown, and was not heard of until two weeks ago, when chief Bell who had been quietly working on the case received word from the honest constable of Simcoe county that a man answering the description of Muir was in the goal at Barrie, awaiting removal to the central prison, to which institution he had been sentenced for theft. The chief at once proceeded to Barrie, where he found the man he had been patiently waiting to hear of, who on being questioned told where he had disposed of the team and sleigh but could not give the names of the parties. The chief at once proceeded to Wainago where he found out that Muir had traded one of the horses to a man near Severn Bridge for a watch, to which place he proceeded and took the horse, not without objections from the man who had it in possession, who was quickly told that he would be arrested for having stolen goods in his possession, on learning which he made no further objection. After driving nearly all of another day, chief Bell was successful in getting the other horse with a harness on a lot in the 6th concession of Simcoe county, where Muir had traded the horse for a cow. In each case he left the harness with the horse. Since getting the horse chief Bell has quietly located where the sleighs are. Muir will be brought here to answer to the charge of stealing the horses, at the termination of his present sentence.

On Christmas day about a dozen members of the Y. M. C. A. juniors extended the glad hand to the Chippewia Indians who camped on the Songoy river at Distillery Creek. Under the leadership of Secretary Ross the boys marched down in a body, wearing caps which contained a dollar for the "poor blighted heathens." The natives were ineffably happy while it lasted, although it is safe to say their remorse and indignation touched them afterwards.

Miss Neelands, who is an honor graduate of Toronto University in modern languages, has received an appointment as lecturer in that work in St. Margaret's college, Toronto. On Christmas day about a dozen members of the Y. M. C. A. juniors extended the glad hand to the Chippewia Indians who camped on the Songoy river at Distillery Creek. Under the leadership of Secretary Ross the boys marched down in a body, wearing caps which contained a dollar for the "poor blighted heathens." The natives were ineffably happy while it lasted, although it is safe to say their remorse and indignation touched them afterwards.
