Food Tests In New York.

OFFICIAL ANALYSIS OF BARING POWDERS-ADULTERATIONS IN CREAM OF TARTAR. Under the direction of the New York State Board of Health, eighty-four different kinds of baking powders, embracing all the brands that could be found for sale in the State, were submitted to examination and analysis by Prof. C. F. Chandler, a member of the State Board and President of the New York City Board of Health, assisted by Prof. Edward G. Love, the well known United States Government chemist.

ment chemist.

The official report shows that a large number of the powders examined were found to contain alum or lime; many of them to such an extent as to render them seriously objectionable for use in the preparation of human food.

Alum was found in twenty-nine samples. This drug is employed in baking powders to cheapen their cost. The presence of lime is attributed to the impure cream of tartar of commerce used in their manufacture. Such cream of tartar was also analyzed and found to contain lime and other impurities; in some to contain lime and other impurities; in some

This perfect purity results from the exclusive account of this greater cost is used in no bak-ing powder but the "Royal."

Prof. Love, who made the analysis of bak-

the purity and wholesomeness of the "Royal":
"I find the Royal Baking Powder composed of pure and wholesome ingredients. It is a cream of tartar puwder of a high degree of merit, and does not contain either alum or phosphates or other injurious substatuce.

E. G. LOVE, PH. D." It is highly satisfactory to the housekeepers of this vicinity, where the Royal Baking Powder is in general use, that the investiga-tions by the analysts in Massachusetts, New York, and Ohio, the only States that have thus far taken action upon this important subject, agree in classing it as the purest and most efficient baking powder in the market.

The Return Match.

A STRUGGLE OF INTELLECTS BETWEEN THE PETERBOROUGH AND LINDSAY Y. M. C. ASSOCIATIONS.

A heavy storm did not prevent the people maker, Mrs. Msore is most successful. So from turning out in sufficient numbers last with beef and butter Mr. Moore's farm will be night to almost fill to repletion the schoolthe return match, as it were, between the two Associations. However, the Lindsay Association male quintette and the local "big four" were present, and their singing added four' were present, and their singing added greatly to the enjoyment of the entertainment. The Lindsay glee club was composed of Massrs. Smyth, Hewit, McAdams, Bigelow and McPherson. The local quartette comprised Messrs. W. H. Stevens, J. Millar, C. Bagnley and R. S. Henderson. Every number was loudly encored.

Intervent control in the debate, which was Minutes of last regular meeting, and of

Interest centred in the debate, which was upon the subject of manhood sufferage. The Peterborough representatives, Messrs. S. R. Armstrong and W. H. Hill, upheld the affirmative, their opponents being Mr. M. Anderson, and Mr. McPherson. His Honor Judge Weller, occupied the chair and rendered judgment. The result of the debate was not altogether satisfactory. The Lindsay men (or at least the leader) stuck to the very letter of the resolution, which read: "Resolved, that the franchise should be extended to all men over 21 years of age." The affirmative contended that by manhood suffrage was meant not such a sweeping system but rather one with restrictions as to intelligence, mental Hose and Forks.

Internation given, and contracts taken for

Hose Parising, on, and contracts taken for the taken f

speakers a chance to shape their arguments to suit the case.

The Y.M.C.A. boys speak in glowing terms of the way in which they were entertained by the Peterboro brethren, whom they hope to meet soon again on the lacrosse field.

River Notes.

The Esturion has been re-painted this spring and now looks as neat and trim as a new boat. Many are looking forward to some enjoyable excursions on her decks. She is a credit to the T.V.N. Co., and a boat that all Scugogers may be proud of. Daily trips are being made now between Bobcaygeon and Lindsay.

The Mary Ellen has been undergoing repairs and made her first trip on Monday, taking down three empty scows, and returning on Tuesday with a raft of logs.

The Eva made her first trip on Friday last.

The scow that has been used for excursions is under repairs, but will soon be ready for use. The sides between decks most of the way round have been boarded up, with win-dows put in, which will make it more con-

The Dominion under command of Crandell Bros., will be heard from this season.

Magazine Notes.

samples to the extent of 93 per cent, of their entire weight.

All the baking powders of the market, with the single exception of "Royal" (not including the alum and phosyhate powders, which have the sixtua of even on impurities; in some "America" is the title of a new monthly magazine published in Chicago. It takes a lofty tone, and soarring above petty factions, expediencies, national panderings, and polytical depravity in general stands loyally to constitutional government. It seems to not the virtue of even an impure cream of tartar), are made from the adulterated cream of tartar of commerce, and consequently contain intelligent individual electors are the foundational consequently contain intelligent individual electors are the foundational consequently contain intelligent individual electors are the foundations. Itme to a corresponding extent.

The only baking powder yet found by chemical analysis to be entirely free from lime and absolutely pure is the "Royal."

This responding extent.

"America" is right. We welcome it to the arena of education in constitutional government.

"O woman, in our hours of ease" thou art use of cream of tartar specially re-fined and prepared by patent processes which totally remove the tartrate of lime and other impurities.

Woman, in our hours of ease thou are indeed "a ministering angel." But "Woman," a magazine issued monthly in New York, ministers not only to the loftier instincts, move the tartrate of lime and other impurities.

The cost of this chemically pure cream of tartar is much greater than any other, and on is especially written for women. Each issue contains carefully written articles on house. hold affairs, on education and care of children, on temperance, besides reviews and biographing powders for the New York State Board of Health, as well as for the Government, says of esting stories. Every woman who has read esting stories. Every woman who has read the magazine is delighted and instructed.

Stock Notes.

THE WARDER will chronicle with pleasure any improvement in the stock industry of

J. H. Carnegie, of Indian Point, Coboconk P.O., is introducing thoroughbreds in considerable numbers through the north country. He recently sold to James R. Moore, Cobocon, a fine thoroughbred bull calf, got by Tecumseh Chief, dam Duchess of Newcastle IV. Both sire and dam are registered in D.S.H.B., and have been prize winners where-ever shown. Mr. Moore has always been a leading farmer, but still he is to be congratulated on his latest venture. As a butter

Town Council.

Interest centred in the debate, which was | Minutes of last regular meeting, and of

The council passed all three, the rule of council being temporarily suspended.

The principal features in the by-law are, the council to meet on first and third Mondays. Seven per cent to be allowed from date of payment of taxes to lat of October, and a rebate of 4 cts. on the dollar on all taxes paid during the months of June, July 3 cts., Angust 2 cts., September 1 ct., and from 30th Sept., 12th Dec. even tax, no abatement.

An account of Dr. Herriman for attendance on H. Graham, who had diphtheria, provoked some discussion, some holding that the matter should be referred to the town solicitor as to liability. The matter was however, finally settled by deputy-reeve Williams moving,

seconded by Coun. Ross, that the account of Dr. Herriman for attendance on H. Graham, be paid in full, but that it be made a special case, and shall not establish a precedent for

future action. - Carried. The Mayor intimated he wished to have an informal secret session of council, requesting the members to remain after adjournment. Council adjourned.

The Weather:

Report for April month. As the weather during April month (as compared with that of the same month of previous years) gives rise to greater controversy and conflict of opinion than that respecting any other month in the year, I have given—in addition to the usual readings for the month—the reading for April, 1887, and also the averages of the corresponding quantities for the past 8 years.
