The Victoria Warder

FRIDAY, AUGUST 3, 1888.

Gladstone's Head Wanted.

When at Balmoral, the Queen heard of a pretty Highland lass who was said to be the finest dancer in the Strath. Her Majesty sent for her to dance before her. The girl did so, and the Queen was much charmed. The girl was rather of the better class, and the Queen had difficulty about offering her money. Her Majesty asked the girl what she could give her—what she would like. The girl (of a strong Tory family) replied: "The head of Mr. Gladstone on a charger." The Queen is reported to have said that she could give her the charger, but as for the head of Mr. Gladstone, he had lost that years ago.

Canadian Credit.

This marvelous improvement in Canadian credit on the London money market is most gratifying. Twenty years ago Canadian securities were very low indeed as compared with other colonies and even ten years ago we were very low down (saving India, New South Wales, Victoria, South Australia, Queensland and even Mauritius above us. The London Economist, a leading financial authority, has prepared a table showing the yield to investors upon the stock of the different colonies, the higher the credit the smaller of course the yield. The present figures are compared with those of ten and twenty years ago, so as to show the change. The table is as follows:—

Description of Stock	Yield in June 1888	1878	1868
	£ s d	£ s d	£ s d
Canada	3 4 0	4 9 0	5 12 6
New South Wales	3 6 0	3 16 8	5 0 0
Victoria	3 8 9	4 2 6	4 17 8
New Zealand	4 2 6	4 15 0	6 1 8
Queensland	3 14 6	4 5 0	5 1 8
South Australia	3 12 0	4 4 6	5 9 6
Tasmania	3 12 6	4 12 6	5 8 6
Cape of Good Hope	3 14 6	4 11 3	5 1 8
Natal	3 17 0	4 11 3	5 11 3
Mauritius	3 15 6	4 8 9	5 5 0
India	3 6 0	3 10 6	3 18 9

It will be seen that Canada stands in this very foremost position, ahead of all the colonies and even ahead of India, whose public debt is always regarded as having at least the moral guarantee of the United Kingdom, and whose credit, therefore, has been exceptionally high. This excellent credit proves the soundness of the Dominion Government's financial policy which opponents have been so fond of criticising.—Morden, Man., Monitor.

Alcohol and Tobacco.

1—Alcohol stimulates; so does tobacco.
2—Alcohol stupefies; so does tobacco.
3—Alcohol leads to licentiousness; so does tobacco.
4—Alcohol leads to insanity; so does tobacco.
5—Alcohol hints the spiritual nature; so does tobacco.
6—Alcohol produces pauperism; so does tobacco.
7—The use of alcohol leads to crime, and the use of tobacco leads to the use of alcohol.

HENCE

1—If the use of alcohol is a vice, so is the use of tobacco.
2—If the manufacture, exportation, importation, and portation and sale of one should be declared a public crime and punished as such, the same should be done concerning the other.
3—If a party that does not declare against the use of alcohol is responsible for all the evil that results from its use, the party that does not declare against the tobacco traffic is likewise responsible, if the first is guilty, so is the second.
4—As the evils resulting from the use of alcohol and tobacco are similar, and, as the use of tobacco leads to the use of alcohol, the Prohibition party in declaring against the liquor traffic and not against the tobacco traffic is self stultified and self condemned.—Allegany Co. N.Y., Republican.

IMPERIAL.

Special to The Warder.

A most rascally and disgraceful act was committed last week, on the farm of Mr. Edward Elsom, about two miles from here. His horses were, we understand, pasturing in the lane, and some miscreant, or, more likely, deliberately evil one of the horses, valued at $150. Mr. Elsom is working up the case, and we hope he may be successful in discovering the perpetrator.

HEART.—The Board of Health has been on the alert since last week over the report that there was a case of malarial fever in town, and the supposed cause thereof was a cattle belonging to Thomas Kennedy, on Sturgeon street. We believe that they are going to pull it down at once. Down with it then, and the village will be all you up. It is injurious to the health in that part of the town.

FIRE.—About nine o'clock Sunday night the arch over the bridge was set on fire by two Orange scoundrels. All the damage done was burning the paint on the iron work of the bridge. Constable Mitchell is following them up. He is bound to catch them.

DUNN'S RIVER SUMMARIZED.

Special to The Warder.

PIC NICS.—Now that we have had a little rain, we have a chance to look around and see what damage the fire has done. The losses near here, so far as I have been able to ascertain, are: Mr. J. F. Jones, buildings and contents, also fences and a good deal of the crops; Mr. H. Stewart, fences and a lot of his crop to be cut, also about 8 cords of hardwood; Mr. Wm. Bell, some cordwood and about 10 acres of timber; S. Suttaby, some fence; S. Carew, and Brandon & Mathewson, uncompleted fences, a lot of fences and a field of hay and other crops; Brandon & Mathewson, on another farm, fences and crops; J. Hodgson, some fences; Richard Read, a lot of wood; C. B. Hughes, house and furniture and a large quantity of timber in the bush. For several days the station and piling grounds were in danger, and had they got on fire all the buildings near would have been burnt. Why does not the railway company take some measures to guard against fire here by digging a well at the upper end of the piling grounds. Plenty of water could be got, and if this were done and some barrels provided, I am sure the people living near would keep the barrels filled with water, and it might be the means of saving the whole place from burning.

Haying is done here, and the earliest part of it was drawing it together. The grain crops will be very light also. We had no rain for about a month, till the 17th July, when we had a light rain. And to make matters worse there were most of the time strong, dry winds, that seemed to dry everything till there was no life in it.

RASPBERRIES are ripe and no great crop.

ESSONVILLE.

Special to The Warder.

CARE.—It is our sad duty this week to chronicle the death of Mrs. John Latimore of this place, who died July 16th. Her remains were interred in the Essonville cemetery, she leaves one child about two years old and an infant which has been unwell ever since it was born. The deceased was a daughter of Mr. John Noble, of Essonville, formerly of Cartwright. The English church minister from Cheddar attended to the religious services. Her husband and friends have the heartfelt sympathy of the entire neighborhood in their sad bereavement. Mr. Latimore has but recently moved here from Cartwright.

CLERICAL.—We are to have religious service a here every week, methodist and English church alternatively.

ZION—MARIPOSA.

Special to The Warder.

Mr. David Beecroft, who went lately on a trip to England, has returned home safe. A sea-faring life seems to agree with him, for he has recruited and looks a great deal better than before he went away. After inhaling the pure sea breeze and having a pleasant visit through England, he will now be well prepared to stand the rush of harvest.

SPECULATING.—Mr. Thomas Wallace has purchased a new Sylvester binder, and it is doing first class work.....Mr. Levi Sparks has purchased a first class single driving carriage, made by Mr. Burden, Little Britain.....Also Mr. Frederick Western has lately purchased two single driving carriages, one for dry weather and one for wet. Hurrah, girls, who will be first to enjoy his pleasure trips.

IMPROVEMENTS.—The Zion friends are meeting a long felt need by making improvements, which consist in the building a new wire fence and extending its bounds; also in building a new shed, which will no doubt contain ample room for all requirements. Besides there are other little fixings. Altogether we think it will be a very complete job. This is the result of the proceeds of the late anniversary.

BOWMANVILLE.

The return match between Toronto and Bowmanville rifle associations was fired on Saturday last, when our team proved victorious by a majority of seven points. The following scores were made:

CANNINGTON.

Special to the Warder.

Fine weather was delightful, the track in first class condition, $800 in purses, (a very tangible and alluring consideration), these separately and collectively were the conditions which brought to the starting point on the Cannington Driving Park splendid array of the first trotting horses in the Dominion. The summer meeting of Wednesday and Thursday last may, in every respect, be considered the most successful of any yet held by the Association. This is largely due to the fact that Cannington half mile track, by turf men is considered and ranked as one of the best in Canada. The untiring efforts of Mr. J. E. Smith, as president, and the courtesy of Mr. A. J. Sinclair, secretary, are factors which have always contributed to the growing popularity of the Cannington races. The following entries, together with place and time made, are copied from the official record:—

Just now it is "Evening parties at home," "Afternoon parties to the lake," "Small and earlies," "A few in," and never a bit. Real moral evidently mad. Sunday school excursions, Sunday school picnics, church garden parties. Admission, ten, fifteen and twenty-five cents. Invitations, warm, hearty and pressing, of the "no excuse" kind, you know. Be lighted, I'm cured. Well, "See 'em later."

MOONLIGHT EXCURSION.—One evening last week the Janetville young people and a few others had a moonlight excursion. The party took boats at Wilson's landing and proceeded to Plum Point, where they were met by the Shiloh crowd. Those that were present say they had an immense time.

SCRAPS.—Mr. Levi Bartlett is very ill .....Mrs. Mills, of Lindsay, has been visiting friends in Cartwright.....Berry picking is the order of the day.....Mr. Ney has returned from Midland.....Mrs. Wilson, of Lufford; Miss Widdess, of Lindsay, and Miss Lavery, of Janetville, were visiting at Mr. Jackson's last week.

ODDS AND ENDS.

Latest Facts, Fun and Fancy.

Freeman's worm powders destroy and remove worms without injury to adult or infant.—37 5.

It is a waste of time to look back at one's own mistakes when there is so much more fun in watching the mistakes of other people.

The tonic and alterative properties of Ayer's Sarsaparilla are too well known to require the specious aid of any exaggerated or fictitious certificate. Witnesses of the marvelous cures effected by this preparation are to-day living in every city and hamlet of the land.—37 1.

"Ma, is a porous plaster good at draw?" "Yes, dear." "Does pa use it in draw poker?" "Hush dear." "Can I have one to draw my sled next Winter?" "No, indeed, you little wretch," and she took her slipper and drew out all the curiosity in him.

A Correct Statement

is made by Miss Jane Rutherford, of Nelles Corners, Ont., who writes—"I have used your Burdock Blood Bitters for Dyspepsia and find it to be the best remedy I ever tried." B. B. B. is sold by all dealers at one dollar per bottle.—37 2.

It is reported that the efforts at destroying the grasshoppers in the northern part of Minnesota have been so successful that at least half a yield of wheat may be expected.

Dudely (who is not as big a fool as he looks)—Did you, ah give my card to Mith Bondclipper? Servant—Yes, sir, Dudely—What did she thay? Servant—She told me to tell you, that she was sorry that she was not in. Dudely—Ah, indeed! Please tell your mithtress that I said I wath glad I didn't call.

Made On Purpose.

We are taught that everything is made to fill some purpose. The reason Burdock Blood Bitters has succeeded in being placed in the front rank of medicines is that it fills so well the purpose for which it was intended—that of curing diseases of the stomach, liver and blood.—37 2.

It is told of a popular solicitor that he recently called upon another brother of the profession and asked his opinion upon a certain point of law. The lawyer to whom the question was addressed drew himself up and said, "I generally get paid for what I know." The questioner drew half a crown from his pocket, handed it to the other, and coolly remarked, "Tell me all you know, and give me the change."
